

**Gordon Garry**  
Director of Research &  
Analysis

Gordon Garry has been with the Sacramento Area Council of Governments since 1990, developing and managing an increasing array of data and forecasting programs to support the agency's transportation, air quality, land use planning, and more recently, climate change efforts. He is responsible for modeling projections and analyses in these areas that meet local, state, and federal planning requirements.

Prior to joining SACOG he worked for the city of Santa Rosa, California; SRF Consulting in Minneapolis, Minnesota; and the South Dakota Department of Transportation. Mr. Garry received his B.S. in Economics at South Dakota State University and his Masters in City and Regional Planning from the Harvard Kennedy School of Government.

He and his wife reside in the Capay Valley region of Yolo County.
