

**Item #06-6-2  
Consent**

## **SACOG Board of Directors**

June 8, 2006

### **Extension of Temporary Appointment**

**Issue:** Whether to extend the temporary appointment of our Research Technician.

**Recommendation:** The Administration Committee recommends that the Board of Directors approve an extension of the temporary appointment of Luis Elizondo to a Research Technician position through October 31, 2006.

**Committee Action/Discussion:** Last fall, the Board adopted changes to the Classification Plan that included creation of a Research Technician classification. Luis Elizondo, who was previously serving as an Administrative Clerk III, was subsequently appointed as a Temporary Research Technician. Because the Administrative Clerk Series is not linked to the Research series by flexible staffing, the Personnel Rules require Board approval to extend the temporary appoint to a full year. Mr. Elizondo is performing his duties in a competent manner. After a year, Board approval will again be required if staff recommends appointing Mr. Elizondo to a regular Research Technician position without open competition.
