

Transportation Committee

**Item #09-9-8
Information**

August 26, 2009

Housing Current Conditions Report

Issue: Several national reports and news articles have reported a shift in new housing and population movement from outlying areas back towards urban cores. Does this trend exist in the SACOG region?

Recommendation: None; this is information only.

Discussion: Staff does not have all the information for this item at this time. Once we do have the information, we will send it to the committee members through e-mail and it will be posted on our website. Copies will also be available at the committee meeting.
