Regional Planning Partnership

March 18, 2010

Caltrans District 3 Mobility Action Plan

Issue: Caltrans District 3 has developed a Draft Mobility Action Plan (MAP), a long-range strategic policy planning document describing the District's vision for the State Highway System development, maintenance, and management for the next 20 years.

Recommendation: None; this is for information only.

Discussion: The Draft Caltrans District 3 MAP identifies key Caltrans policies and projects within the District that are needed to maintain, manage and, ultimately, enhance overall mobility within the District. The focus of the MAP is the identification of the challenges and major project investments needed to complete and maintain the existing State Highway System, as well as key projects to provide congestion relief.

Mr. Bruce de Terra and Mr. Nick Deal with Caltrans District 3 will be at the partnership meeting to present the Draft MAP and answer questions.
