

SACOG has prepared PL-94-171 Redistricting data extracts for use by those involved in the redistricting process. These files do not contain the exhaustive race/ethnicity/Hispanic origin tables that are available in the PL-94-171. The complete data is available.

These files are available in a dBASE IV format for use with a variety of database, spreadsheet and GIS programs. The files contain 17 fields of data. The files provided by the Bureau have 78 fields in the geography file and 288 fields split between the two data files. We hope you find these 17 the most useful.

Please note that those choosing "Hispanic or Latino" are counted in the other categories. The distribution of Hispanic or Latino individuals across the other categories is not shown in these tables.

RECNO	7 character field that serves as the relational key between the three files. This key is useful to extract the fields not included in the 17 provided.
CTBLK	10 character field used to link to the polygons in the GIS Census block files.
PLACE	5 digit FIPS code. This identifies incorporated cities and Census Designated Places (CDPs)
CT	6 character census tract. To relate this to most maps, convert to a numeric field and divide by 100.
BLOCK	Year 2000 4 digit block number.
TOTALPOP	Total Population for this unit of geography.
ONERACE	Total population identifying only one race category.
WHALONE	Population choosing "White alone".
BLALONE	Population choosing "Black or African American alone".
AIALONE	Population choosing "American Indian and Alaska Native alone".
ANALONE	Population choosing "Asian alone".
HOPIALONE	Population choosing "Native Hawaiian and Other Pacific Islander alone".
OTHALONE	Population choosing "Some other race alone".
TWOORMORE	Population choosing "Two or more races".
HISPANIC	Population choosing "Hispanic or Latino".
