Key Elements of Planning Scenario

The citizens in this group set out to make Del Paso Heights self-sufficient. The focus of their planning was a downtown city center on Marysville Blvd. featuring theaters, live/work housing, and high-rise mixed-use. Specific features of the plan include:

- Civic/amphitheater along Arcade Creek in southwest corner
- Multiplex community center at Altos Ave. and Grand Ave.
- Supermarket next to senior housing on Altos Ave.
- Preserved light industrial on I-80
- Changed existing vacant land in northwest corner to agriculture

Resulted in the following changes from base case:

- Capacity for 7,500 more employees
- Capacity for 4,600 more dwelling units
- Maintained the land use mix at 1 employee per dwelling unit

VT = Vehicle Trips

VMT = Vehicle Miles Traveled, and it is an indicator of energy use and air emissions

* The "Base Case" future assumes that existing land uses remain through a 50-year time frame and that vacant parcels will be developed at their current general plan land use designation.
