Key Elements of Planning Scenario

The focus of this group was to create a town center on the Watt corridor. Increases in mixed-uses and pedestrian friendliness were also features of this scenario. Specific features of the plan include:

- A community center facing a large plaza area near the intersection of Lusk Dr. and Butano Dr.
- Mid-rise mixed-use residential complexes surrounding the community center
- Traffic circles at major intersections of the Watt Ave. corridor
- High-rise mixed-use employment complex at the intersection of Alta Arden Expwy. and Morse Ave.

Resulted in the following changes from the base case:

- Capacity for 2,100 more employees
- Capacity for 3,300 more dwelling units
- Improved land use mix from 7 to 3 employees per dwelling unit

VT = Vehicle Trips

VMT = Vehicle Miles Traveled, and it is an indicator of energy use and air emissions

* The "Base Case" future assumes that existing land uses remain through a 50-year time frame and that vacant parcels will be developed at their current general plan land use designation.
