17-1

The North Natomas TMA strongly supports the MTP 2035 and especially the Downtown-Natomas-Airport Light Rail Project. It serves the entire region through the critical transit link from downtown through Natomas, and out to the Sacramento International Airport. This will help keep cars off our local roads and ease the impact of the growing region north on I-5.

THANKS,

Becky Heieck

Executive Director

North Natomas TMA
