Annual Listing of Projects with Federal Funding

FOR FEDERAL FISCAL YEAR 2004

An annual listing of projects for which Federal funds have been obligated in the preceding year needs to be published or otherwise made available for public review by SACOG for the 2004 federal fiscal year. This listing is required to track project delivery, provide public outreach and disclosure to meet the requirements of federal law.

This report was prepared from a variety of sources and has been tied to the SACOG Metropolitan Transportation Improvement Program by inclusion of the SACOG project number. This report, which is project specific, indicates that \$336 million in federal funds were obligated for transportation projects in the region between October 1, 2003 through September 30, 2004. It should be noted that, in addition to federal funding, a significant amount of state, local and private funding also is utilized in the region each year for transportation projects.

WHAT WE DO

The Sacramento Area Council of Governments (SACOG) is an association of Sacramento Valley governments formed from the six regional counties—El Dorado, Placer, Sacramento, Sutter, Yolo and Yuba—and 22 member cities. SACOG's directors are chosen from the elected boards of its member governments. SACOG's primary charge is to provide regional transportation planning and funding, as well as a forum for the study and resolution of regional issues. In this role, SACOG prepares the region's long-range transportation plan; approves distribution of affordable housing around the region; keeps a regionwide database for its own and local agency use; helps counties and cities use federal transportation funds in a timely way; assists in planning for transit, bicycle networks, clean air and airport land uses; and has undertaken the Blueprint Project to link transportation and land development more closely. SACOG has an annual operating budget of about \$12.8 million, funded from local, regional, state and federal transportation funds. It has a staff of about 50, including employees and consultants.
