The Final Environmental Impact Report (SCH #2014062060) for the 2016 Metropolitan Transportation Plan/Sustainable Communities Strategy (MTP/SCS) is now available for review. Information on how the public can continue to be involved is provided below.

The MTP/SCS and the associated EIR cover the area within the counties of Sacramento, Yolo, Yuba, Sutter, Placer, and El Dorado (excluding the Lake Tahoe basin). The MTP/SCS, prepared in coordination with cities, counties, and other public agencies in the SACOG region, is a long-range transportation plan and sustainable communities strategy to serve existing and projected residents and workers within the Sacramento region through the year 2036. The MTP/SCS accommodates another 811,000 residents, 439,000 new jobs, and 285,000 new homes with a transportation investment strategy of \$35 billion. SACOG is required under federal and state law to update the MTP/SCS every four years.

The MTP/SCS requires the approval of the SACOG Board of Directors. Final action on the plan is calendared to be taken at the Board's February 18, 2016, 9:30 a.m. meeting.

Pursuant to the California Environmental Quality Act (CEQA), SACOG has prepared a Final Environmental Impact Report (Final EIR) that contains all comments received during the public comment period on the Draft EIR, provides responses to comments on the Draft EIR, and identifies revisions to the Draft EIR, as necessary, in response to
