

Airport Land Use Commission

Item #18-1-1
Consent

January 11, 2018

Approve Memorandum of Understanding with Sacramento County for Mather Airport Land Use Compatibility Plan (AUCP) Update, and Approve the Release of Request for Proposals for the Mather ALUCP Update

Issue: Should the Sacramento County Airport Land Use Commission (ALUC), vote again to: (1) authorize the CEO to negotiate and sign a Memorandum of Understanding (MOU) and subsequent amendments with Sacramento County, regarding the ALUCP for Mather Airport; and (2) approve the release of the Request for Proposal (RFP) and authorize the SACOG CEO to negotiate and sign a contract with the selected contractor?

Recommendation: Staff recommends that Sacramento County Airport Land Use Commission, vote again to: (1) authorize the CEO to negotiate and sign the aforementioned MOU and subsequent amendments; and (2) authorize SACOG staff to release the RFP for the Mather ALUCP and authorize the SACOG CEO to negotiate and sign a contract with the selected consultant.

Discussion: At its October 19, 2017, and December 21, 2017, meetings, the ALUC authorized the CEO to negotiate and sign an MOU and subsequent amendments with Sacramento County regarding the ALUCP for Mather Airport, authorized staff to release the RFP for the Mather ALUCP, and authorized the SACOG CEO to negotiate and sign a contract with the selected consultant.

Staff realized after these votes that a procedural error requires the ALUC to act on these items once again.
