Residential / Consumer

Electric and zero emission vehicles in the SACOG region

Sharing / Rental

Car share, car rental, and TNCs

The screenshot displays the Blueindy website interface. At the top, there is a navigation bar with the Blueindy logo, language options (English | Español), a "My account" link, and a menu with items: "HOW DOES IT WORK?", "JOIN BLUEINDY", "YOUTH OFFER", "STATION MAP", "THE SERVICE", and "INFORMATION". A prominent blue button in the center of the page reads "See the full map for more details". Below this is a detailed map of Indianapolis, Indiana, overlaid with numerous icons representing different service types. A legend in the bottom right corner identifies these icons: a car for "Vehicle", a parking 'P' for "Parking spot", a charging symbol for "Charge point", a kiosk for "Enrollment kiosk", a green tree for "Operational", a red car for "Under maintenance", a grey car for "Under construction", and a blue 'P' for "Underground Parking". The map shows a high density of green tree icons in the downtown area, particularly around the city center and near major landmarks like Lucas Oil Stadium and the Indianapolis Zoo.

Transit

Number of public transit agency vehicles

	TOTAL	Buses-CNG	Buses-Gasoline or Diesel	Cutaways- Gasoline
Total	758	368	101	289
