

SACOG Board of Directors

Board of Directors Regular Meeting
Meeting Date: 2/15/2018
Agenda Item No.: 2018-February-18.

Subject: Chief Executive Officer's Report

Reports

Prepared by: James Corless

Approved by: James Corless

Attachments: No

1. Issue:

Chief Executive Officer's Report

2. Recommendation:

None, this is for information only.

3. Background/Analysis:

Each month, the CEO provides a report to the board.

4. Discussion/Analysis:

Updates:

Please continue to save the date of Monday, April 30, 2018, for a regional convening of city and county elected officials. For the first time in nearly 12 years, the SACOG region's city council members and county supervisors will gather to discuss how we can build a more economically prosperous and inclusive region.

The California Air Resources Board is tentatively scheduled to adopt new greenhouse gas reduction targets for all MPOs in California at their board meeting on March 23. We continue to engage with the CARB staff to offer proposals for a potential pilot program here in our six county region. As you remember, the SACOG board recommended a target of an 18 percent reduction in per capita greenhouse gas emissions reduction by 2035 and the CARB staff are looking at a target that is either 18 or 19 percent. We will continue to brief the board and the committees with information on how this is progressing in advance of CARB's March 23, 2018, board meeting.

I will be joining two delegation trips with several of you to Washington, D.C. over the next couple of months: the Capital Region Executive Leadership Mission and Cap to Cap. These are well timed given ongoing negotiations over the federal budget and the administration's infrastructure proposal expected to be released the week of February 12.
