

**Item #13-10-1B
Information**

Shared Services & New Initiatives Task Force

October 10, 2013

Aerial Imagery Collection Project

Issue: SACOG Board authorized staff to enter into contracts for cooperative procurement of imagery with interested public agencies.

Discussion: Staff will provide a brief case study presentation as to how this example of shared services emerged between member jurisdictions and SACOG.

At the end of 2012, the SACOG Board identified eight concept proposals for feasibility analysis and encouraged staff to continue to listen and watch for additional opportunities within the region, including potentially outside the SACOG local government membership to other special districts and public agencies. Staff continues to watch for such opportunities in the course of our staff-to-staff interactions with our member jurisdictions. This opportunity initially emerged from conversations with data management staff and provides an example of the variety of the shared services that SACOG staff coordinate for our members.

SACOG staff will provide a brief overview of the history of this Board action approved on consent at the September Board meeting (Board Item - Attachment A).
