

SACOG FFY 2015 Program of Projects (For Information Only)

Projects Anticipated to Submit Grants for FTA 5307 or CMAQ in FFY 2015

The POP is the list of projects programmed in SACOG's Metropolitan Transportation Improvement Program (MTIP) proposed by a grant recipient to be funded from the area's Federal Transit Administration (FTA) Section 5307 in the current federal fiscal year. In some cases, the POP also includes flexible federal highway funds, such as Congestion Mitigation and Air Quality (CMAQ).

Some of these projects have been administratively amended in the MTIP this year. Although federal rules do not require public review for the approval of administrative modifications, FTA requires that any changes to the POP be circulated for public review as a condition of grant approval. Public notice of public involvement activities and time established for public review and comments on the MTIP will satisfy the POP requirements, as defined in [FTA Circular 9030.1E, 1/16/14](#).

Please visit the [MTIP webpage](#) or log in to [SACTrak](#), the online MTIP database, to view more detail on these projects.
