Q8 Any key takeaways you would like to share?

Answered: 5 Skipped: 7

#	RESPONSES	DATE
1	Greater understanding of MTP/SCS and role for cities and counties	3/22/2021 12:03 PM
2	The use of Big Data tools (Replica) in SacSIM was a big eye opener, more on this approach should be discussed in upcoming years.	3/22/2021 10:37 AM
3	Nope. But I'm grateful for these workshops because they provide information that assists me in doing my job.	3/17/2021 1:06 PM
4	Thank you. The entire thing was excellent.	3/17/2021 11:05 AM
5	I was very impressed with the thorough discussion of VMT analysis in SACSIM and the great pacing of all of the presentations	3/17/2021 10:18 AM

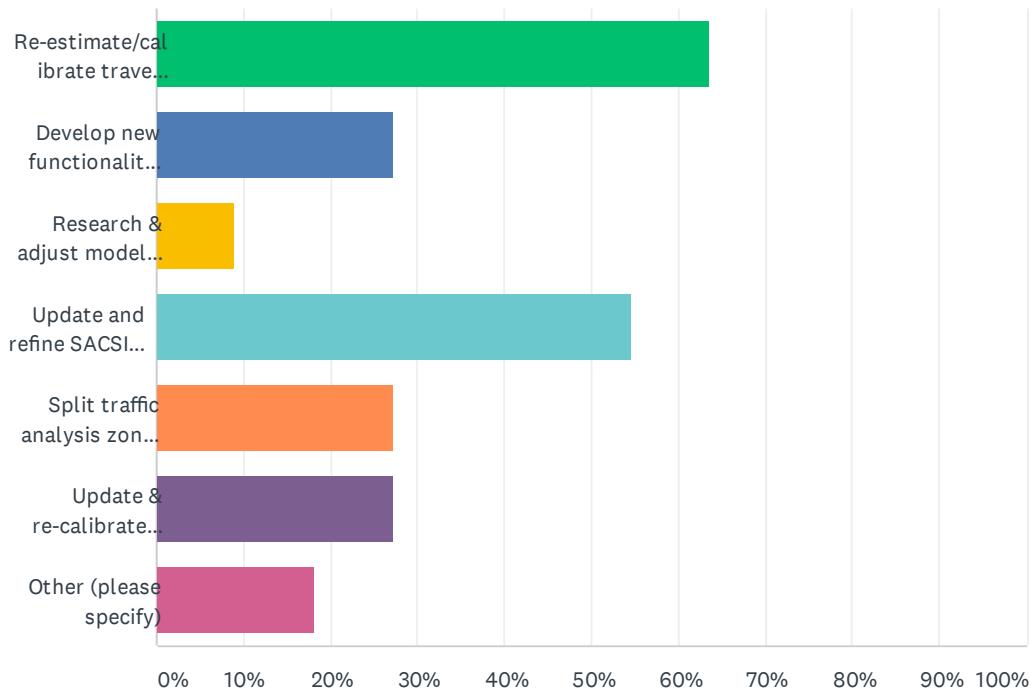

Q9 What can we improve on for future sessions?

Answered: 5 Skipped: 7

#	RESPONSES	DATE
1	Well-balanced content for technical and non-technical practitioners	3/22/2021 12:03 PM
2	Provide more direct exposure to the actual technical experts that contribute 'behind the scenes' to the SacSIM model development process. Examples would include experts from RSG, Replica, etc.	3/22/2021 10:37 AM
3	I would like to see a demo of the land use processing spreadsheet if possible.	3/22/2021 10:13 AM
4	We're all good - just stay relevant.	3/17/2021 1:06 PM
5	Calling it the Travel Demand Model User Conference I believe scares some people. Maybe split the conference into two parts, with the first clearly about general planning in the region, and the second about modeling per se. The first part could be advertised widely to the public as an educational forum on regional planning and the challenges we collectively face. The second part would be targeted to modelers. Thank you for what you have done though -- it was very good.	3/17/2021 11:05 AM

Q10 Please select three out of the following tasks you'd like us to take on for travel model improvements and updates

Answered: 11 Skipped: 1

ANSWER CHOICES	RESPONSES	
Re-estimate/calibrate travel choice models using 2018 HTS and Big Data	63.64%	7
Develop new functionalities to forecast TNC use and the impacts of autonomous vehicles	27.27%	3
Research & adjust model for COVID-related changes in travel (e.g. tele-work, online shopping, etc.)	9.09%	1
Update and refine SACSIM roadway, transit & bike/ped networks (adding more roadways, update major variables such as capacity & free flow speed)	54.55%	6
Split traffic analysis zones to have more detail in vehicle & transit assignment	27.27%	3
Update & re-calibrate other SACSIM sub-models (external travel, thru trips, airport passenger access, commercial vehicles/trucks)	27.27%	3
Other (please specify)	18.18%	2
Total Respondents: 11		

#	OTHER (PLEASE SPECIFY)	DATE
1	Make it easy to enter land use projects	3/17/2021 10:23 AM
2	Simplify the land use update process of the model	3/17/2021 10:16 AM
