

**SACOG Board of Directors/
Regional Managers Joint Meeting**

**Item #14-3-4
Workshop**

March 17, 2014

Regional Water Supply and Demand Research

Issue: How can the region be more informed of regional water planning and infrastructure needs?

Recommendation: None; this is a workshop item for discussion.

Discussion: SACOG staff has participated in discussions with the Regional Water Authority (RWA) relative to regional water planning happening concurrently with SACOG's update of the Metropolitan Transportation Plan/Sustainable Communities Strategy (MTP/SCS). The MTP/SCS is underpinned by a forecast of land uses that are most likely to occur.

SACOG is interested in understanding the region's water infrastructure needs and future opportunities for coordination with the MTP/SCS.
