Project Level Conformity Working Group Update

Issue: What actions has the Project Level Conformity Group, a subcommittee of the RPP, taken since May 2013?

Recommendation: None, this is for information only.

Discussion: The Project Level Conformity Group (PLCG) has not taken any actions since May 2013, the time of its last update to the RPP.

Background: Using delegated authority from the RPP, the PLCG is tasked with reviewing and taking action on PM_{2.5} and PM₁₀ Project of Air Quality Concern (POAQC) determinations and hot spot analyses. Since its formation in September 2011, the PLCG, a subcommittee of the RPP, has evaluated ten projects, determining whether they should be considered POAQCs. These actions were reported at the May 2013 RPP meeting.

Attachment A lists the current members of the PLCG. Anyone from the RPP is welcome to join the PLCG. If you would like to join, please contact José Luis Cáceres.
