

Regional Planning Partnership

March 21, 2019

Subject: Update on the 2020 Metropolitan Transportation Plan/Sustainable Communities Strategy

Issue: Staff will discuss the land use forecast, transportation project list, revenue forecast and budget, and key performance outcomes for the Draft Preferred Scenario. The board will be asked to adopt the Draft Preferred Scenario in April.

Recommendation: This item is for information and discussion.

Discussion: In April 2019 staff will ask the SACOG Board to adopt the Draft Preferred Scenario for the 2020 MTP/SCS. The Draft Preferred Scenario will consist of a land use forecast, transportation project list, revenue forecast and budget, and key performance outcomes. These components will form the technical foundation for the draft 2020 plan update and environmental impact report. The April action builds on work completed by staff with direction from the board over the last year and will allow staff to conduct final analysis of the plan, discuss implementation policies and strategies with the board, and begin writing the plan document and accompanying environmental impact report in preparation for plan adoption in February 2020. The timeline in Attachment A provides an overview of the full MTP/SCS update schedule.

Materials related to the Draft Preferred Scenario will be shared before the meeting.
