

SACOG received the comment below on Board Consent Item 5, (Approve Request to Change the Scope for a Sacramento County Bicycle and Pedestrian Project) from Ms. Marjorie Lehr via the SACOG website, in response to the electronic Board of Directors agenda notification.

Item 5 addresses a scope revision request for the Garfield Avenue Bike Lanes and Pedestrian Connectivity Project at the intersection of Garfield Avenue and Engle Road. The affected intersection described by Ms. Lehr is south of the project area and not germane to the action being recommended in the staff report. SACOG staff followed up with Ms. Lehr to connect her with the appropriate Sacramento County Department of Transportation staff and to inform her that her comments would still be forwarded to the SACOG Board.

Public Comment Received on 6/14/16.

Please consider a traffic light and crosswalk on Garfield between Winding Way and Madison, opposite Arcade Park by the bridge so 200+ residents on the west side of Garfield can walk to the park safely.

Right now we have to walk under Garfield where transients live and it's dangerous... or drive clear around to Omni on the east side of the park. It will also slow traffic on Garfield that can reach 60 mph between Madison and Winding Way.

Thank you for your consideration.

Marjorie Lehr
