

Item #12-5-5
Action

Government Relations & Public Affairs Committee

April 30, 2012

Amend Consultant Contract for Sacramento Activity-Based Travel Simulation Model (SACSIM) Project

Issue: Staff made an error in the memorandum to the Board approving this consultant contract. This item corrects that error.

Recommendation: That the Government Relations & Public Affairs Committee recommend that the Board approve an amendment to the consultant contract.

Discussion: In September 2010, the SACOG Board of Directors approved a consultant services contract for enhancements to SACOG's regional travel demand model. The staff memorandum requesting that approval contained an error. The total amount of the contract (\$332,260) omitted the amount of direct costs (\$2,740). The total amount of the contract should have been \$335,000. The Strategic Growth Council grant that funded this project (\$400,000) covers the \$335,000 consultant cost and SACOG staff cost so no overall cost change is needed. This action is to correct this staff error.
