

Item #6

## Regional Planning Partnership

April 16, 2014

### City of Sacramento Entertainment and Sports Center (Arena) Traffic Impacts

**Issue:** What questions does the Partnership have for the City of Sacramento regarding the Arena project?

**Recommendation:** None. This is for information only.

**Discussion:** This summer, the City of Sacramento is scheduled to begin demolition work and construction of a new 17,500 seat capacity indoor, multi-use entertainment and sports center at the location of the existing Downtown Plaza shopping center.

Ronald Fong, Senior Engineer for the City of Sacramento, will share more about the planned transportation impacts of the arena project.
