SACOG Board of Directors

April 9, 2015

Approve Support for SB 508 – Transit Operations

Issue: Should SACOG support SB 508, which would modify various requirements for transit funding?

Recommendation: The Government Relations & Public Affairs Committee recommends that the Board support SB 508 if amended.

Committee Action/Discussion: Transit operators in California receive regular state revenues through two sources: the Local Transportation Fund (LTF) and State Transit Assistance (STA). LTF is distributed through Regional Transportation Planning Agencies (RTPAs) such as SACOG. In order to receive LTF funds, transit operators are required to maintain a minimum percentage of their revenues from fares (farebox recovery ratio). The farebox recovery ratio is typically 20 percent in urbanized areas, but if it was higher in 1978-79, the higher rate must be maintained. In the SACOG region, Sacramento Regional Transit District is the only operator with a higher ratio, which is 25.5 percent.

STA is also distributed through RTPAs and operators have had the flexibility to use it for either capital or operations since 2010. This flexibility expires in June 2015. At that time, STA will require that transit operators' total operating cost per revenue vehicle hour to be at or less than the previous year's cost (adjusted for inflation). If this test fails, STA cannot be used for operations, and the RTPA would only be allowed to give an operator its share of STA the following year for capital.

SB 508 would revise LTF and STA rules in several ways, including deleting the requirement to maintain the 1978-79 ratio. Significantly, it would exempt certain expenditure categories that are generally outside the control of operators from the definition of operating costs, including lease payments on capital projects, health coverage, pensions, fuel, insurance, and claims settlements. For STA, rather than making an operator ineligible to receive any funds for failing to meet efficiency standards, an RTPA would reduce an operator's allocation eligible for operating expenses proportionally based on the amount the operator missed the standards.

Staff is supportive of these revisions, which provide more flexibility for operators while maintaining the requirements to meet statewide standards. However, staff is seeking one amendment to simplify state law. In 2011, SACOG sponsored AB 432 (Chapter 229, Statutes of 2011), which provides more flexibility for transit operators in Sacramento County to meet their farebox recovery requirements by authorizing SACOG to determine whether transit operators serving Sacramento County, as a group, have met the requirements for claims for transit funds. AB 432 also required the Sacramento Regional Transit District to maintain no less than a 23 percent farebox recovery ratio. SB 508 does not change this code section, so Sacramento Regional Transit District would be required to maintain a higher farebox recovery ratio than other operators in the state.

Staff is recommending that the Board support SB 508 if amended to strike the following language from Section 99270.6 of the Public Utilities Code: “Notwithstanding any other provision of this article, the fare recovery ratio for the Sacramento Regional Transit District shall be no less than 23 percent.”

SENATE BILL**No. 508**

Introduced by Senator BeallFebruary 26, 2015

An act to amend Sections 99247, 99268.2, 99268.3, 99268.4, 99268.17, and 99314.6 of the Public Utilities Code, relating to transit.

LEGISLATIVE COUNSEL'S DIGEST

SB 508, as introduced, Beall. Transit operations: financial requirements.

(1) Existing law provides various sources of funding to public transit operators. Under the Mills-Alquist-Deddeh Act, also known as the Transportation Development Act, revenues from a $\frac{1}{4}$ % sales tax in each county are available, among other things, for allocation by the transportation planning agency to transit operators, subject to certain financial requirements for an operator to meet in order to be eligible to receive funds. Existing law sets forth alternative ways an operator may qualify for funding, including a standard under which the allocated funds do not exceed 50% of the operator's total operating costs, as specified, or the maintenance by the operator of a specified farebox ratio of fare revenues to operating costs. Existing law generally establishes the required farebox ratio as 20% in urbanized areas and 10% in nonurbanized areas, except that an operator that exceeded those percentages in the 1978–79 fiscal year is required to maintain the higher farebox ratios in order to remain eligible for funding. Existing law provides various exceptions to the definition of “operating cost” for these purposes.

This bill would delete the requirement for transit operators to maintain higher farebox requirements based on the 1978–79 fiscal year. The bill would exempt additional categories of expenditures from the definition of “operating cost” used to determine compliance with required farebox

ratios, including, among others, certain health coverage, pension, fuel, insurance, and claims settlement costs. The bill would also exempt startup costs for new transit services for up to 2 years. The bill would revise the definition of “operating cost” for performance audit and certain other purposes to exclude principal and interest payments on capital projects funded with certificates of participation or other lease financing mechanisms.

(2) Existing law also creates the State Transit Assistance program, under which certain revenues in the Public Transportation Account are allocated by formula for public transportation purposes. Under that program, funds may not be allocated to a transit operator for operating purposes unless the operator meets certain efficiency standards. Compliance with the efficiency standards is based on whether the operator’s total operating cost per revenue vehicle hour is increasing by no more than the Consumer Price Index, as specified. Existing law imposes no restrictions on allocations of funds for capital purposes. Existing law provides for funds withheld from an operator to be retained by the allocating transportation planning agency for allocation in a later year if the operator can subsequently meet the efficiency standards, and in certain cases, provides for the funds to be reallocated to other transit purposes, or to revert to the Controller.

This bill, rather than making an operator ineligible to receive State Transit Assistance program funds for operating purposes for an entire year for failing to meet the efficiency standards, would instead reduce the operator’s operating allocation by a specified percentage, based on the percentage amount that the operator failed to meet the efficiency standards, as specified. The bill would exclude certain health coverage and pension costs from the definition of operating costs used to calculate compliance with the efficiency standards. The bill would delete provisions related to funds withheld, reallocated, or reverted by the transportation planning agency.

State-mandated local program: no.

The people of the State of California do enact as follows:

32 (1) Except as provided in paragraph ~~(2)~~ (3), funds shall ~~not~~ be
33 allocated for operating *or capital* purposes pursuant to Sections
34 99313 and 99314 to an operator ~~unless~~ if the operator meets either
35 of the following efficiency standards:

36 (A) The operator shall receive its entire allocation, and any or
37 all of this allocation may be used for operating purposes, if the
38 operator’s total operating cost per revenue vehicle hour in the latest
39 year for which audited data are available does not exceed the sum

6 *operator's average total operating cost per revenue vehicle hour*
7 *in the latest three years for which audited data are available does*
8 *not exceed the sum of the average of the total operating cost per*
9 *revenue vehicle hour in the three years preceding the latest year*

22 *exceeded the target amount necessary to meet the applicable*
23 *efficiency standard. The remaining portion of the operator's*
24 *allocation may be used only for capital purposes.*

25 ~~(2)~~

26 (3) The transportation planning agency, county transportation
27 commission, or the San Diego Metropolitan Transit Development
28 Board, as the case may be, shall adjust the calculation of operating
29 costs and revenue vehicle hours pursuant to paragraph (1) to
30 account for either or both of the following factors:

31 (A) Exclusion of ~~costs~~ *cost* increases beyond the change in the
32 Consumer Price Index for fuel; alternative fuel programs; power,
33 including electricity; insurance premiums and payments in
34 settlement of claims arising out of the operator's liability; *health*
35 *insurance premiums or contributions to self-insurance programs;*
36 *pension contributions or related defined benefit programs;* or state
37 or federal mandates, including the additional operating costs
38 required to provide comparable complementary paratransit service
39 as required by Section 37.121 of Title 49 of the Code of Federal
40 Regulations, pursuant to the Americans with Disabilities Act of

1 1990 (42 U.S.C. Sec. 12101 et seq.), as identified in the operator’s

5 not more than two years.

6 ~~(3) Funds withheld from allocation to an operator pursuant to~~
7 ~~paragraph (1) shall be retained by the transportation planning~~
8 ~~agency, county transportation commission, or the San Diego~~
9 ~~Metropolitan Transit Development Board, as the case may be, for~~
10 ~~reallocation to that operator for two years following the year of~~
11 ~~ineligibility. In a year in which an operator’s funds are allocated~~
12 ~~pursuant to paragraph (1), funds withheld from allocation during~~
13 ~~a preceding year shall also be allocated. Funds not allocated before~~
14 ~~the commencement of the third year following the year of~~
15 ~~ineligibility shall be reallocated to cost effective high priority~~
16 ~~regional transit activities, as determined by the transportation~~
17 ~~planning agency, county transportation commission, or the San~~
18 ~~Diego Metropolitan Transit Development Board, as the case may~~
19 ~~be. If that agency or commission, or the board, determines that no~~
20 ~~cost effective high priority regional transit activity exists, the~~
21 ~~unallocated funds shall revert to the Controller for reallocation.~~

22 (b) As used in this section, the following terms have the
23 following meanings:

24 (1) “Operating cost” means the total operating cost as reported
25 by the operator under the Uniform System of Accounts and
26 Records, pursuant to Section 99243 and subdivision (a) of Section
27 99247.

28 (2) “Revenue vehicle hours” has the same meaning as “vehicle
29 service hours,” as defined in subdivision (h) of Section 99247.

30 (3) “Consumer Price Index,” as applied to an operator, is the
31 regional Consumer Price Index for that operator’s region, as
32 published by the United States Bureau of Labor Statistics. If a
33 regional index is not published, the index for the State of California
34 applies.

35 (4) “New service” has the same meaning as “extension of public
36 transportation services” as defined in Section 99268.8.

37 (c) The restrictions in this section do not apply to allocations
38 made for capital purposes.

39 (d) The exclusion of ~~costs~~ *cost* increases described in paragraph
40 ~~(2)~~ (3) of subdivision (a) applies solely for the purpose of

1 calculating an operator's eligibility to claim funds pursuant to this
2 section and does not authorize an operator to report an operating
3 cost per revenue vehicle hour other than as described in this section
4 and in Section 99247, to any of the following entities:
5 (1) The Controller pursuant to Section 99243.
6 (2) The entity conducting the fiscal audit pursuant to Section
7 99245.
8 (3) The entity conducting the performance audit pursuant to
9 Section 99246.
10 ~~(e) The restrictions in this section shall not apply to the~~
11 ~~allocation of funds made pursuant to Sections 99313 and 99314~~
12 ~~after January 1, 2010, and through the 2014-15 fiscal year.~~
