# Residential / Consumer

## Electric and zero emission vehicles in the SACOG region

# Sharing / Rental

## Car share, car rental, and TNCs

The screenshot displays the Blueindy website interface. At the top, there is a navigation bar with the Blueindy logo, language options (English | Español), and a 'My account' link. Below the logo are several menu items: 'HOW DOES IT WORK?', 'JOIN BLUEINDY', 'YOUTH OFFER', 'STATION MAP', 'THE SERVICE', and 'INFORMATION'. A prominent blue button in the center of the page reads 'See the full map for more details'. The main content is a map of Indianapolis, Indiana, overlaid with numerous green tree icons representing operational stations. Other icons on the map include a red car icon for 'Under maintenance', a grey car icon for 'Under construction', and a blue 'P' icon for 'Underground Parking'. A legend in the bottom right corner defines these icons: a car icon for 'Vehicle', a 'P' icon for 'Parking spot', a car with a plug for 'Charge point', a car with a person for 'Enrollment kiosk', a green tree for 'Operational', a red car for 'Under maintenance', a grey car for 'Under construction', and a blue 'P' for 'Underground Parking'. The map shows a high density of green tree icons in the downtown area, particularly around the city center and near major landmarks like Lucas Oil Stadium and the Children's Museum of Indianapolis.

# Transit

## Number of public transit agency vehicles

	TOTAL	Buses-CNG	Buses-Gasoline or Diesel	Cutaways- Gasoline
Total	758	368	101	289

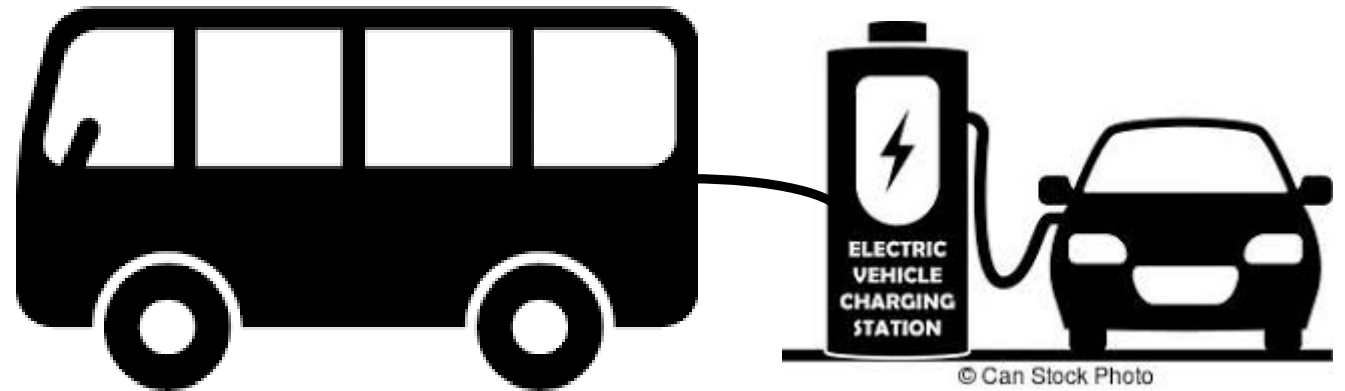

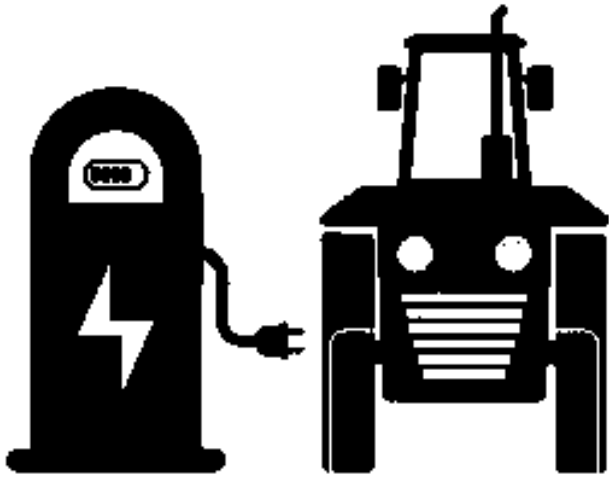

uberPOOL

LYFT LINE

# Fleets

Joint purchases, shared use, incentives, etc.

# Disadvantaged Communities

Targeted incentives, mobility hubs, and payment options
