Complete Streets Toolkit Update

Issue: What is the status of updating the Complete Streets Resource Toolkit?

Recommendation: None, for discussion only.

Discussion: The Complete Streets Resource Toolkit was most recently updated in 2011, and staff has been working to cull outdated resources and select new resources for the toolkit. An update of the toolkit is underway with approximately 40 new resources anticipated to be available by end of June. Please recommend any pertinent Complete Streets resources to Michael Sidhu at msidhu@sacog.org.
