## Government Relations & Public Affairs Committee Information

February 27, 2014

### State Advocacy Update

**Issue:** Update on state advocacy issues related to SACOG.

**Recommendation:** None, this is for information only.

### Discussion:

#### *Introduced Legislation*

February 21 was the deadline for state legislation to be introduced. Since the beginning of this session in January 2013, over 4,200 bills have been introduced. Attachment A includes a list of 88 bills either introduced or carrying over from last year. Staff will continue to refine this list in the coming weeks and bring forward recommendations for legislative positions at the April committee meeting and at subsequent meetings through August.

#### *Water*

Water is a significant theme this year, with at least 11 different proposals for a replacement to the state water bond. On February 27, the Legislature sent Governor Brown a drought relief bill that repurposes \$687 million in existing bonds for infrastructure projects, drinking water, and food and housing aid for agricultural communities.

SACOG staff continues to work with the North State Water Alliance (Regional Water Authority, Northern California Water Association, Mountain Counties Water Resources Association, Metro Chamber and SACOG), as well as individual jurisdictions in the region on water issues. After the March Board meeting, there will be a special joint meeting between regional city and county executives and elected officials to discuss regional responses to short- and long-term water issues.

On March 31, there will be a Regional Water Forum from 3-5 p.m. hosted by the North State Water Alliance to discuss the alliance's proposed comprehensive solution to our water needs. Staff will forward details to the Board as soon as the details are confirmed.

#### *California Air Resources Board AB 32 Scoping Plan*

The Air Resources Board is updating its scoping plan for AB 32 implementation. Attachment B is a summary from SACOG staff of the components to the update relevant to SACOG. The Land Use and Natural Resources Committee will receive a presentation on this update. Staff will be available at GRPA to answer any questions.

Below is a summary of policies and strategies from the February 10, 2014 release of the Draft Proposed Update of the Scoping Plan that potentially have regional and/or local impact. Items are broken into categories based on relevant SACOG work.

### **SB 375 Related**

- In 2014, the Air Resources Board (ARB) will review advancements in “data, models, analytical methodologies, and technologies” since 2010 to determine need for and timing of revised SB 375 related targets.
- Regional transportation plans should identify the infrastructure, including fueling and intelligent transportation infrastructure, needed to support full-scale deployment of advanced technologies, improved throughput, and expanded access to rail, public transit, and active transportation.
- Caltrans and regional transportation agencies should increase investment in expanded transit and rail services, active transportation, and other VMT-reduction strategies in their next regional transportation plans.

### **Energy Related**

- Through the AB 758 (which adopts guidelines for building energy efficiency) process, the California Energy Commission (CEC) will develop a plan to encourage energy assessments—particularly when done at the time a building or unit is sold or by a predetermined date.
- Strengthen the Green Building Standards Code with mandatory provisions to reduce GHG emissions by 2017.

### **RUCS Related**

- In 2014, convene an interagency workgroup that includes California Department of Food and Agriculture (CDFA), ARB, CEC, the California Public Utilities Commission (CPUC), and others to: Establish agriculture sector GHG emission reduction planning targets for the mid-term time frame and 2050, Expand existing calculators and tools, to develop a California-specific agricultural GHG tool for agriculture.
- In 2015, the Office of Planning and Research (OPR), the California Natural Resources Agency (CNRA), the California Environmental Protection Agency (CalEPA), CDFA, and ARB will convene an inter-agency workgroup to engage local and regional land use planning agencies in establishing a coordinated local land use program to develop recommendations and targets for incorporating farmland conservation in local and regional land use planning.
- CDFA will strengthen technical assistance programs and associated financial incentives to help agricultural operators develop carbon plans and implement GHG emission reduction practices.

- CNRA and CalEPA will convene an inter-agency forest climate workgroup to prepare and publish a "Forest Carbon Plan" in 2016.

### **Overall Updates**

- ARB is proposing to update the number for the 2020 GHG limit, weighting the 1990 emissions with 100-year GWPs from the IPCC's Fourth Assessment Report. The new 2020 statewide limit is 431 MMTCO<sub>2e</sub>—an approximately 1 percent increase from the 427 MMTCO<sub>2e</sub> limit adopted by the Board in 2007.
- Set mid-term targets to meet a State mid-term GHG emission reduction goal when defined.

### **Related Funding Programs**

- Expansion of established programs: TOD and infill housing development that cut VMT; funding programs supporting transit, infrastructure, active transportation (walking/biking), land use changes, and other projects that place a priority on reducing VMT and GHG emissions and are identified in the Sustainable Community Strategies or Regional Transportation Plans; rebates and grants for zero and near-zero emission vehicles, trucks, and buses; funding for goods movement and other mobile source advanced technology demonstration/deployment projects; residential energy efficiency financing mechanisms; weatherization and building energy efficiency upgrade; and Infrastructure investments that are integrated with sustainable community plans to maximize transit trips, and cut VMT.
