

Item #8

Bicycle & Pedestrian Advisory Committee

October 16, 2014

Regional Bicycle and Pedestrian Data Collection Project

Issue: What is the status of the Regional Bicycle and Pedestrian Data Collection Project?

Recommendation: None, this is for information only.

Discussion: In the 2014 Regional Bicycle & Pedestrian Funding Program, SACOG was awarded funding to pilot a bike/ped data collection program. The effort involves creating a CycleTracks-based application (called Cycle Sac), evaluating regional and project-level needs for bicycle and pedestrian counters, procuring bicycle and pedestrian counters, and developing a leasing program to install and maintain the counters. A working group was convened in September to analyze regional needs, the goals of the program, and make recommendations to SACOG staff. Staff will provide an update to the Committee on the Working Group meeting as well as an update on the development of the Cycle Sac app.
