Attention: Dennis Jacobs

Dear Mr. Scherzinger:

The Sacramento Area Council of Governments (SACOG), using the authority delegated to it by Caltrans, approves Administrative Modification #21 to the SACOG 2011/14 Metropolitan Transportation Improvement Program (MTIP). This constitutes an administrative modification to the Federal Statewide Transportation Improvement Program (FSTIP). The changes are consistent with the FSTIP Amendment and Administrative Modification Procedures. The approved changes will not impact SACOG's financial constraint or the region's air quality conformity.

The purpose of this modification is to make various programming changes so that federally funded projects may proceed to their next phase of work. Although each project has its own reason for revisions, here are some general reasons for the revisions:

1. Program new and revised Federal Transit Administration Jobs Access Reverse Commute and New Freedom funds.
2. Increase federal and local funds for a project funded with Highway Safety Improvement Program funds.

Since administrative modifications do not require Caltrans, Federal Highway Administration, or Federal Transit Administration approval, these changes are now included in California's 2011 FSTIP.

Any questions that you may have should be directed to José Luis Cáceres at (916) 340-6218.

Sincerely,

Theresa Arnold  
Manager of Capital Programs

# Understanding Grouped and Individually Listed Project Reports

---

## *SACOG Administrative Modification #21 to the 2011/14 MTIP*

### **Regulatory Background**

The following MTIP revision contains individually programmed projects and grouped projects. “Grouped projects” are not called out individually in the MTIP, but are gathered into “grouped project listings.” In a separate report, SACOG provides project-level detail for those new or revised projects that are programmed within grouped project listings. According to federal regulations, some projects must be programmed (i.e., identified) individually, while “Projects that are not considered to be of appropriate scale for individual identification in a given program year may be grouped by function, work type, and/or geographic area using the applicable classifications...” Federal rules also require that grouped projects be exempt for the purposes of air quality conformity and be not regionally significant. (23 CFR 250.324.f) The Grouped Project Listing Detail is provided for information and authorization purposes only. According to federal regulations and guidance, grouped projects are not individually programmed, but are actually considered “programmed” as part of their corresponding grouped project listing.

### **How to Find a Project**

In addition to providing a Summary of Changes, SACOG provides complete detail for individually programmed projects and grouped projects for full disclosure to the public and to project sponsors, as well as for the purposes of project authorization by Caltrans, FHWA, and FTA. However, to find a project, one will have to consult two reports: the Individual and Grouped Project Listing report and the Grouped Project Listing Detail report. Each report sorts projects differently.

The projects in the Individual and Grouped Project Listing report are sorted alphabetically by County, Lead Agency, and then Project Title. The projects in the Grouped Project Listing Detail report are sorted alphabetically by Grouped Project Listing Category, and within each listing they are sorted alphabetically by County, Lead Agency, and then Project Title.

### **Why SACOG Groups Projects**

SACOG groups small-scale, exempt projects in order to emphasize regionally significant projects and provide administrative flexibility. By grouping smaller exempt projects, the MTIP conveys that those projects are actually part of larger, overall efforts by the region to maintain and improve surface transportation through air quality-exempt activities such as transportation studies, road rehabilitation, transit operations, replacement and minor expansion of the transit fleet, safety improvement, and so on. It allows SACOG to demonstrate how a change to a grouped project’s scope, cost, or phasing may actually be considered a minor change to the grouped project listing as a whole. As a result, FHWA, FTA, and Caltrans afford SACOG greater administrative flexibility to manage the MTIP using administrative modifications.
