BOARD MEMBERS AND MEMBER JURISDICTIONS

Steve Cohn (Chair), City of Sacramento
Don Saylor (Vice-Chair), Yolo County
Cecilia Aguiar-Curry, City of Winters
John Buckland, Yuba City
Christopher Cabaldon, City of West Sacramento
Stanley Cleveland, Sutter County
Mark Crews, City of Galt
Gary Davis, City of Elk Grove
Jack Duran, Placer County
Lucas Frerichs, City of Davis
Mary Jane Griego, Yuba County
Carl Hagen, City of Placerville
Kevin Hanley, City of Auburn
Tony Hesch, Colfax
Diane Hodges, City of Live Oak
Robert Jankovitz, City of Isleton
Kevin Johnson, City of Sacramento
Paul Joiner, Lincoln
Roberta MacGlashan, Sacramento County
Steve Miklos, City of Folsom
Susan Peters, Sacramento County
Susan Rohan, Roseville
Ricky Samayoa, Marysville
David Sander, City of Rancho Cordova
Phil Serna, Sacramento County
Jeffrey Slowey, City of Citrus Heights
Tom Stallard, City of Woodland
Brian Veerkamp, El Dorado County
Rick West, City of Wheatland
Dave Wheeler, Town of Loomis
Scott Yuill, Rocklin

Amarjeet Benipal (Ex-Officio Member), Caltrans District 3

SACOG MISSION
Delivering transportation projects; providing public information and serving as a dynamic forum for regional planning and collaboration in the greater Sacramento Metropolitan Area

1. **Introduction**

The Overall Work Program (OWP) defines the continuing, comprehensive, and coordinated metropolitan planning process for the six-county Sacramento Region: El Dorado, Placer, Sacramento, Sutter, Yolo, and Yuba counties (excludes the Tahoe Basin in Placer and El Dorado counties). It establishes transportation, air quality, and other regional planning objectives for the fiscal year July 1, 2014, to June 30, 2015, the methods and timing for achieving those objectives, and identifies planning responsibilities and funding to complete the work. The OWP also serves as a management tool for the Sacramento Area Council of Governments (SACOG) in that it identifies all projects and services to be provided during the year beyond those mandated by the metropolitan planning process. The OWP, therefore, presents an annual blueprint for the agency’s use of resources for the fiscal year 2014-15.

Because the metropolitan planning process encompasses coordination and interaction of work being performed within the region, including some work not undertaken directly by SACOG, this document includes a summary of other major planning activities. These activities are projects and plans by Caltrans, the El Dorado County Transportation Commission, and the Placer County Transportation Planning Agency. The OWP identifies all regional planning efforts in the areas of transportation.

The OWP is organized in three sections:

a. The SACOG Prospectus describes the organizational structure, institutional relationships, consultation and outreach processes, and planning emphasis areas required by federal transportation planning regulations.

b. The Direct Services Project section contains the SACOG Overall Work Program, an overview of the Work Programs of the Placer County Transportation Planning Agency, the El Dorado County Transportation Commission, Caltrans District 3 (as it relates to regional studies), and regional planning efforts in the area. This section also contains the SACOG proposed budget summary which shows the use of projected revenues to complete the OWP during FY 2013-14 and shows how resources will be allocated throughout the SACOG program.

c. The Appendix contains maps, charts, certifications, policies, goals, work profile, adopting resolution, and glossary.

SACOG produces two documents related to *Moving Ahead for Progress in the 21st Century* (MAP-21). These documents, the Metropolitan Transportation Plan/Sustainable Communities Strategy (MTP/SCS) and Metropolitan Transportation Improvement Program (MTIP), are updated periodically to comply with MAP-21. Together, they:

- Identify transportation facilities designated as the Metropolitan Transportation System;
- Provide for the integrated management and operations of the system;
- Consider the eight planning factors included in MAP-21;
- Result in a financially constrained MTP/SCS and MTIP;
Coordinate with mobile source emissions budget and transportation control measures of the State Implementation Plan to achieve and maintain ambient air quality standards through the air quality conformity process and finding;

Establish and use a working partnership with state agencies, public transit operators, freight interests, and other regional stakeholders in the planning process;

Embrace a flexible expenditure plan for CMAQ, STP, MAP-21, and FTA funds in addition to other local, state, and federal funds to supplement these federal sources; and

Reflect the results of established government-to-government relations with Native American Tribal Governments.

2. SACOG Organization

Originally formed in 1965, SACOG is joint powers authority of city and county governments, organized "... to provide a forum for the discussion and study of area-wide problems of mutual interest and concern to the cities and counties, and to facilitate the development of policies and action recommendations for the solution of such problems." SACOG serves six counties and twenty-two cities, comprising a 6,190 square mile area with an estimated population of 2,258,000. Member agencies are El Dorado, Placer, Sacramento, Sutter, Yolo, and Yuba counties; the cities of Auburn, Citrus Heights, Colfax, Davis, Elk Grove, Folsom, Galt, Isleton, Lincoln, Live Oak, Marysville, Placerville, Rancho Cordova, Rocklin, Roseville, Sacramento, West Sacramento, Wheatland, Winters, Woodland, Yuba City; and the town of Loomis.

SACOG is governed by a thirty-two member Board of Directors (thirty-one voting and one non-voting). Voting members are appointed by member jurisdictions from their county board of supervisors or city councils. The one non-voting member is the Caltrans District 3 Director. The organization’s mission statement is: Provide leadership and a dynamic, collaborative public forum for achieving an efficient regional transportation system, innovative and integrated regional planning, and a high quality of life within the greater Sacramento Region.

Under SACOG’s Joint Powers Agreement (JPA), each member city (excluding the city of Sacramento) and each member county (excluding Sacramento County) are entitled to one seat and one vote on the SACOG Board. The city of Sacramento may appoint two directors and is entitled to two votes. Sacramento County may appoint three directors and is entitled to three votes. In addition, jurisdictions may appoint an alternate who shall have full voting rights in the absence of the jurisdiction’s appointed director.

SACOG’s various designations and certifications include:

Designations as:

- Regional Transportation Planning Agency for Sacramento, Sutter, Yolo, and Yuba counties by the California State Secretary of Business, Transportation and Housing Agency.
- Metropolitan Planning Organization (MPO) by the Governor and the U.S. Department of Transportation for the Sacramento, Yuba City, and Davis Urbanized Areas.

---

- Metropolitan Planning Organization in the Sacramento Metropolitan Planning Area (MPA) by the California State Secretary of Business, Transportation and Housing Agency.
- Designated Airport Land Use Commission for Sacramento, Sutter, Yolo, and Yuba counties.
- SACOG staffs the Capitol Valley Service Authority for Freeways and Expressways (CVRS-SAFE).
- Capitol Valley Service Authority for Freeway and Expressways for Sacramento, San Joaquin, Yolo, Yuba, Sutter, and El Dorado counties.
- Area Wide Clearinghouse for the counties of Sacramento, Sutter, Yolo, and Yuba and the cities of Lincoln, Rocklin, and Roseville by the State of California Procedures of Intergovernmental Review of Federal Financial Assistance and Direct Development Activities.

Joint Certification as:
- Sacramento Area Metropolitan Planning Process by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA).

Board of Directors’ Committees
Annually, the Board Chair appoints committees from among the Board's members to make policy recommendations to the Board. Each Board member serves on at least one committee. The current committees are:

Government Relations & Public Affairs Committee: Ten members appointed to consider state and federal advocacy, news media outreach, and other activities related to external affairs and administrative activities such as human resources, audits, the budget, and the Overall Work Program. (Meets monthly or as needed)

Land Use & Natural Resources: Eight members appointed to review topics related to the Rural-Urban Connections Strategy, Blueprint Implementation, Airport Land Use, Housing Needs Allocation, Open Space, Climate, and Air Quality. (Meets monthly or as needed)

Transportation Committee: Fourteen members, one ex-officio, appointed from the SACOG Board and the Caltrans District 3 Director to review all items relating to transportation issues with MTP/SCS, MTIP, and SIP as well as the CVR-SAFE program. (Meets monthly or as needed)

Strategic Planning Committee: Eleven members comprised of the SACOG Chair, Vice Chair, prior year’s Chair and the Chairs of the other three committees, to review the JPA, Board representation, and long-term vision planning. This committee also acts a liaison to the regional legislative delegation. (Meets as needed)
3. **Institutional Relationships**

SACOG’s planning process includes many regional planning partners, including the tribal governments and other regional stakeholders. In addition to its member agencies, SACOG has cooperative agreements with the Placer County Transportation Planning Agency and with the El Dorado County Transportation Commission that spell out the planning and programming relationship between the agencies. SACOG’s jurisdiction as the federal Metropolitan Planning Organization includes large portions of Placer and El Dorado counties, but under state law, they operate as separate regional transportation planning and programming agencies (RTPAs). Furthermore, SACOG is a close working partner of the transit agencies and has an annual agreement with the Sacramento Regional Transit District to identify joint planning projects. Cooperation in the programming process relies on the efforts of the staff and boards of the county transportation agencies in setting county-wide priorities for MAP-21 and STIP funding.

4. **Interagency and Community Consultations/Outreach**

**Advisory Committees**

The Board has established a number of advisory committees as a means of obtaining advice from citizens, key interest groups in the community, and partner planning agencies on a variety of subjects. SACOG seeks advice from local agencies on transportation and land use plan content and investment decisions. SACOG works not only with the agency staff, but with governing boards, technical committees, and advisory committees. These advisory committees typically include representatives of citizens’ advocacy groups, the private sector, major colleges and universities, transportation management professionals, and private citizens unaffiliated with any of the above groups. Committees are augmented, restructured, added to, or discharged from time to time based upon the issues and concerns faced by the Board. Currently these committees are:

- **Airport Advisory Committee**: A fifteen-member committee composed of managers of the public use airports located within SACOG's Regional Transportation Planning Agency boundary, as well as representatives from Beale Air Force Base. The Committee provides recommendations to the SACOG Board of Directors regarding the Regional Aviation Capital Improvement Plan, prepared biennially, and advises SACOG staff and the SACOG Board on aviation issues of regional concern. (Meets on call)

- **Bicycle and Pedestrian Committee**: A committee of about 80 members made up of representatives from local bicycle advocacy groups as well as local government and nonprofit groups involved in bikeway planning. The committee advises SACOG on the non-motorized content of the Metropolitan Transportation Plan and on priorities for non-motorized projects. (Meets quarterly)

- **5310 Evaluation Committee**: The role of the committee is to objectively review and score local project applications for the FTA Section 5310 Capital Grant Program. The program provides funds on a statewide competitive basis for the provision of service and purchase of equipment to transport elderly and disabled persons. Eligible applicants are private, nonprofit organizations and public bodies that coordinate transportation service. (Meets annually)
Goods Movement Advisory Group: The movement of goods or freight has always been one of the most important functions of the transportation system and is certainly of vital importance to the health of the economy and to ensuring a high quality of life. SACOG works with the region’s jurisdictions as well as other state and local agencies and the private sector through its Goods Movement Advisory Group (GMAG) to make certain that planning for goods movement is incorporated into the overall transportation planning process. SACOG looks to build on the work of the Regional Goods Movement Studies to identify specific projects and areas of study to evaluate further. The GMAG serves as both an advisory committee for these activities as well as a regional forum for goods movement issues. (Meets on call)

Planners Committee: A twenty-eight-member committee consisting of the planning directors or their designees of each of SACOG’s member jurisdictions. The committee was originally formed to advise SACOG on the development of the Blueprint Project and is now advising on Blueprint implementation and the Regional Housing Needs Allocation process. (Meets on call)

Public Participation Committee: A committee made up of members of organizations required under MAP-21 and includes representatives of the disabled, pedestrian and bicycle transportation, public agencies, transit operators, goods movement, private providers of transportation, and other interested parties. (Meets on call)

Regional Planning Partnership: A committee with close to 100 representatives from local, regional, state, federal agencies, and tribal governments, as well as representatives of business, environmental, and minority organizations and associations. The Partnership assists SACOG with its transportation and air quality planning responsibilities. It also serves as the primary forum for interagency and public consultation requirements of federal transportation and air quality regulations. (Meets monthly)

SACMET Travel Demand Model Technical Advisory Committee (TAC): The SACMET TAC is composed of planning and engineering professionals from local public agencies, as well as consultants and others who are registered users of the SACMET travel demand model. The TAC has two roles: One is to provide SACMET users with training and technical support on the model; the other is to provide a forum for discussion of issues related to SACMET. Proposed SACMET changes and improvements and the results of changes and improvements made are presented for information and discussion. Modeling issues of a more general nature, but germane to SACMET or the Sacramento Region, are also discussed. The SACMET TAC meets two or three times per year, on an as-needed basis. SACMET TAC mailings go to about 50 people. (Meets as needed)

Sacramento Emergency Clean Air and Transportation (SECAT) Air Quality Policy Group: A ten-member committee consisting of representatives from each of the air districts within the Sacramento federal ozone nonattainment area, Federal Highway Administration, Environmental Protection Agency, Air Resources Board, and SACOG. The committee assists SACOG and its air quality planning partners in developing a strategy or strategies that focus available resources on achieving both attainment of the National Ambient Air Quality Standard for ozone and conformity goals. (Meets on call)
Sacramento Emergency Clean Air and Transportation (SECAT) Technical Advisory Committee: An eleven-member committee consisting of representatives from each of the air districts within the Sacramento federal ozone nonattainment area, Federal Highway Administration, Environmental Protection Agency, Air Resources Board, Caltrans, and SACOG. The committee advises the SECAT Policy Group on guidelines and criteria for evaluating and approving projects under the SECAT program. (Meets on call)

Social Service Transportation Advisory Council: Three councils have been established – one each for Sacramento and Yolo counties, and a joint Sutter-Yuba county council. Each council is composed of potential transit users who are elderly, disabled, low-income members of the general public; representatives of agencies that provide social services and/or social services transportation for senior citizens, persons with disabilities, and persons with low incomes; representatives from the local Consolidated Transportation Services Agency; and a representative of the transit operator. Each council participates in the identification of transit needs in the county or counties it serves; makes recommendations regarding unmet transit needs; and advises the Board on other major transportation issues, including the coordination and consolidation of specialized transportation services. These councils are required by state law PUC 99238. (Meets annually and on call)

Transit Coordinating Committee: The Committee provides a forum for the discussion of transit plans and issues, coordinates transit studies and systems on a regional basis, disseminates federal, state and local transit information, reviews and comments on the MTP/SCS and the MTIP, and gives input into SACOG’s Overall Work Program. (Meets monthly or as needed)

Transportation Demand Management Task Force: The Task Force advises the SACOG Board of Directors on the operations and marketing of the Rideshare Program and on the demand management content of the MTP/SCS. (Meets quarterly)

Ad Hoc Committees
Occasionally, projects of great significance warrant the formation of committees of stakeholders or special groups. In these circumstances, the Board has appointed special committees to assist in guiding efforts on these projects. Currently the following are active Ad Hoc Committees:

Community Design Grant Review Committee: A committee made up of members from many of SACOG’s advisory committees, such as the Transit Coordinating Committee, Regional Planning Partnership, Transportation Demand Management Task Force, etc., who review the grant applications for the Community Design Grant Program.

Innovation Task Force: Seventeen members appointed from the SACOG Board to provide coordinated support for the Board, member jurisdictions, and other local public agencies for opportunities for shared and direct services that save money or improve services and exploration of innovation in government services and affairs. (Meets monthly or as needed)

Rail: Committee members are appointed from the SACOG Board to provide opportunity for informal discussion of rail issues and their integration in regional transportation planning. (Meets as needed)
Sacramento Region Intelligent Transportation Systems Partnership: A forum for technical staff to share information, coordinate on project planning and implementation, and provide advice and input to SACOG on ITS funding advocacy efforts.

SACOG Participation in Other Public/Private Efforts in Regional Planning-Related Issues
Cooperation and coordination in transportation and air quality issues with other agencies or groups is obtained through participation in the following activities and organizations:

Liaison to Local Transportation Planning Agencies: SACOG maintains liaisons with each city and county and with other transportation agencies throughout the region to help coordinate transportation planning and programming and to facilitate information exchange. In some cases, SACOG liaisons serve on both the technical and advisory committees. SACOG maintains liaisons with the following:

- Air Districts – 5 districts within the Sacramento Air Quality Planning Area
- Caltrans District 3
- El Dorado County Transportation Commission (EDCTC) as the RTPA for El Dorado County
- Native American Tribal Governments
- Paratransit, Inc.
- Placer County Transportation Planning Agency (PCTPA) as the RTPA for Placer County
- Sacramento Regional Transit District (SRTD)
- Sacramento Transportation Authority (STA)
- Tahoe Regional Planning Agency (TRPA)
- Transit Operators – 14 regional operators
- Transportation Management Associations (TMAs)
- Yolo County Transportation Advisory Committee
- Yolo County Transportation District (YCTD)

California Federal Programming Group: The purpose of this group is to facilitate integration, improvement, and maintenance of state and local databases used in transportation programming and discussion of federal programming issues. The group’s membership includes representatives from Caltrans and several MPOs across the state. (Meets as needed)

California Service Authority for Freeways and Expressways (SAFE) Committee: SACOG serves on the California SAFE Committee for Capitol Valley Regional SAFE that covers the counties of Sacramento, El Dorado, Sutter, Yuba, Yolo, and San Joaquin. The committee is composed of SAFE project managers from all SAFE counties, Caltrans, and the California Highway Patrol. The Sacramento Transportation Authority operates the Freeway Service Patrol for CVR-SAFE in Sacramento and Yolo counties. The committee meets approximately every other month to discuss statewide and local call box program issues.

Caltrans Regional Coordination Committee: Caltrans and regional agency representatives meet bimonthly to discuss issues of mutual interest and to forge partnerships for common benefit on state and federal legislation and regulatory matters. SACOG management participates regularly in these meetings.
Capitol Corridor Joint Powers Authority (CCJPA): SACOG continues to be very active in the work of the CCJPA that administers the Auburn-Sacramento-Oakland-San Jose (Capitol Corridor) rail service. SACOG is a member of the Staff Coordinating Group (SCG) formed to advise the CCJPA Board on the Capitol service and attends regularly both the SCG and Board meetings.

Central Valley Rail Committee: The counties of Sacramento, San Joaquin, and Stanislaus have formed a committee to coordinate rail planning activities in their jurisdictions. This committee meets in Stockton; SACOG attends the meetings as appropriate.

Clean Air Partnership: The Cleaner Air Partnership was formed in 1986 as a joint project of the American Lung Association of Sacramento-Emigrant Trails and the Sacramento Metropolitan Chamber of Commerce. It is a private/public regional coalition working to solve the ozone problem in the Sacramento metropolitan area by reducing transportation-related emissions. The objectives are to attain air standards for health and economic growth and to avoid business disincentives that occur when an area is unable to achieve clean air standards. The partnership has achieved a community consensus for new air quality programs, resulting in shifts of opinion and travel behavior; participation by business in clean air programs; innovative public education programs; and the highest per capita participation in clean alternative fuels and vehicles in the nation.

Green Valley Alliance: SACOG has participated in a public-private effort to preserve open space, including agricultural land, in the Sacramento Region. Known as the Green Valley Initiative, this effort emerged from the Regional Economic Cluster Project convened by several public and private organizations and is now a joint project of the Regional Action Partnership and Valley Vision. Staff has contributed land use data and growth forecasts to the project and provided some assistance in meeting logistics, writing, and editing.

Public Works Coordination Group: The committee provides a forum for the discussion of transportation (roads and highways/freeways) plans and issues, coordinates transportation studies and systems on a regional basis, disseminates federal, state and local transportation information, reviews and comments on the MTP/SCS and the MTIP, and gives input into SACOG's Overall Work Program. (Meets quarterly)

Regional Managers Forum: A twenty-seven member committee composed of county executives and city managers. Advises SACOG on a wide range of administrative issues including program, relationships with members, and administration of state and federal programs. (Meets quarterly)

Regional Transportation Planning Agencies Group: Membership composed of state-designated regional transportation planning agencies (RTPAs). The group meets in conjunction with the California Transportation Commission (CTC) and coordinates the regional agencies’ responses to the development and implementation of state transportation policy.

Rural Counties Task Force: The task force consists of representatives from rural counties who meet to discuss transportation issues affecting rural areas and to provide input to California Transportation Commission (CTC) deliberations of rural issues.
Sacramento-Placerville Transportation Corridor Joint Powers Authority: The SACOG Chief Executive Officer participates as an ex-officio member of the JPA. The JPA was created to coordinate the efforts of Sacramento County, Sacramento Regional Transit District, the City of Folsom, and El Dorado County in the acquisition, use, and preservation of the railroad right-of-way between the cities of Sacramento, Folsom, and Placerville.

San Joaquin Valley Rail Committee: SACOG participates in the work of the San Joaquin Valley Rail Committee as appropriate. While the agency does not participate as actively in the San Joaquin Valley Rail Committee’s activities as it does in the Capitol Corridor and Regional Rail efforts, SACOG understands the value of the San Joaquin service to the region and fully supports Caltrans’ efforts to build ridership and revenues on this important line. SACOG attends these meetings when feasible.

Valley Vision: The goal of Valley Vision is to help the region develop in a manner that creates business opportunities, benefits public health and safety, and preserves and enhances our environment and our way of life. Valley Vision serves as a catalyst to energize and help citizens in the region to reach consensus on a bold vision for our future. Since formulating a vision begins with knowledge, they conduct research on the critical problems confronting the region and serve as a clearinghouse for data and information that support regional efforts. Valley Vision has supported the Blueprint and MTP/SCS 2035 projects in the past and is currently supporting the RUCS project by recruiting a broad diversity of participation in public workshops.

Public Involvement
Consultation and public participation during the development of transportation plans, programs, and projects is an integral part of the transportation planning process. An open and accessible consultation and public participation process is critical for discussing and resolving regional transportation issues. SACOG has an adopted Public Participation Plan that outlines specific procedures for consultation and public participation. This document includes evaluation procedures that measure the effectiveness of SACOG’s outreach and involvement efforts and ensures there is adequate effort made to include the traditionally underserved and underrepresented in the planning process, including coordination and consultation with Native American tribal governments.

SACOG uses a mix of committees, public hearings, workshops, social media, surveys, and publications to inform, gauge, and respond to public concerns regarding regional issues. The direct involvement of citizens and organizations that represent specific segments of the population is encouraged to ensure that plans and programs reflect the diverse interests within the region. SACOG allows for public participation at all levels of the planning process. All committee and Board of Directors’ meetings are open to the public. SACOG also schedules public hearings during the development of the Metropolitan Transportation Plan, Metropolitan Transportation Improvement Program, TDA Unmet Transit Needs process, and air quality conformity process to allow for public review and comments. All public hearings are noticed in advance via the SACOG website, local print media, and electronic mail to stakeholder lists. The SACOG Board of Directors also provides for public comment on all items requesting action included in the monthly board agenda, regardless of whether or not a public hearing is required by law. All meeting agendas are posted to the SACOG website and are available for public review and comment.
Additionally, SACOG communicates with citizens and groups through the local media, agency publications, and special presentations and workshops. Newsletters, report summaries, and news releases are used to present technical and policy issues in plain terms to a broad audience. Staff members make presentations on specific issues to local community, civic, and business groups. Additional information on individual topics and copies of full reports are made available on request through the agency’s Regional Information Center, or via the Internet at the SACOG home page at www.sacog.org. SACOG also uses its website for public access to the times and places for citizen involvement in the various projects and issues throughout the SACOG region.

The public is invited to review and comment on the OWP through public notices published in all of the major regional newspapers and various ethnic media and distributed to all of the regional public libraries. The notice provides information for written comments and attendance at the public hearing held at the SACOG Board of Directors meeting.

**Federal Certification Process**

Federal urban transportation planning regulations require that SACOG annually certify that its planning process is being carried out in conformance with all applicable federal requirements. This certification is executed with the adoption of the Overall Work Program and Budget and authorizing resolution. In essence, the certification finding to be made by the Board of Directors is based upon five factors: (1) The agency must be officially designated as the Metropolitan Planning Organization (MPO) for the Sacramento Region; SACOG must have an adopted (2) Metropolitan Transportation Plan/Sustainable Communities Strategy (MTP/SCS), (3) Metropolitan Transportation Improvement Program (MTIP) and (4) Overall Work Program (OWP), which meet the necessary federal requirements; and finally, (5) the MTP/SCS and MTIP must be found to be consistent with the regionally-adopted air quality plan.

As the basis for determining the adequacy of compliance, SACOG maintains on file copies and provides Caltrans with the appropriate documents and endorsements. Annually, as a part of the OWP adoption process, the Board makes the required certification finding, which is transmitted to Caltrans, the Federal Highway Administration (FHWA), and the Federal Transit Administration (FTA). Caltrans notifies SACOG if there are any deficiencies in the planning process, which could result in conditional certification. In such a case, the corrective actions and the date by which they must be taken are specified in an agreement between SACOG and Caltrans.

In addition to the annual certification, a quadrennial review is conducted by the Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) to jointly review SACOG’s transportation planning process and ensure that the agency’s planning activities are conducted in accordance with FHWA and FTA regulations, policies, procedures, and guidance, including the provisions of *Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users* (SAFETEA-LU) and *Moving Ahead for Progress in the 21st Century* (MAP-21). SACOG underwent a quadrennial review in the fall of 2010 and received notice in February 2011 that the certification had been renewed.
DISCUSSION OF CALIFORNIA PLANNING EMPHASIS AREAS

Planning emphasis areas (PEAs) are policy, procedural and technical topics that Federal planning fund recipients must consider when preparing work programs for metropolitan and statewide planning and research assistance programs.

The Federal Highway Administration (FHWA) California Division and Federal Transit Administration (FTA) Region IX have identified the following emphasis areas for California’s transportation planning and air quality program in Federal FY 2014.

Core MPO Planning Functions
The FHWA and FTA advise all Metropolitan Planning Organizations (MPOs) to explicitly identify Core MPO Planning Functions in their 2014 Overall Work Programs (OWP). The work elements and tasks must provide sufficient detail (i.e. activity description, expected products, schedule, cost, etc.) to explain the purpose and results of the work to be accomplished during the program year. Further, the OWPs must clearly state how to ensure all activities and products mandated by the metropolitan transportation planning regulations in 23 CFR 450 are for FHWA and FTA combined planning grant funding available to the region. (see 23 CFR 420.111 for documentation requirements for FHWA Planning funds).

The Core Functions can be found in 23 CFR 450, Subpart C, and typically include:

- Overall Work Program
- Public Participation and Education
- Regional Transportation Plan
- Federal Transportation Improvement Program
- Congestion Management Process (required for TMAs)
- Annual Listing of Projects

Performance Management
Since MAP-21 passed in 2012, there have been several outreach efforts in California providing information for its implementation. Despite the fact that the regulatory framework for implementing the MAP-21 Performance Management requirements has not yet been established, MPOs are strongly encouraged to use their OWPs to highlight their efforts toward establishing performance measures for the following required areas:

- Pavement condition on the Interstate System and on remainder of the National Highway System (NHS)
- Performance of the Interstate System and the remainder of the NHS
- Bridge condition on the NHS
- Fatalities and serious injuries—both number and rate per vehicle mile traveled—on all public roads
- Traffic congestion
- On-road mobile source emissions
- Freight movement on the Interstate System
Safety
MAP-21 continued the Highway Safety Improvement Program (HSIP) as a core Federal-aid program. The overall purpose of this program is to achieve a significant reduction in traffic fatalities and serious injuries on all public roads (including non-State-owned public roads and roads on tribal lands) through the implementation of infrastructure-related highway safety improvements.

The specific provisions pertaining to the HSIP are defined in Section 1112 of MAP-21, which amended Section 148 of Title 23, United States Code (23 USC 148) to incorporate these provisions. These requirements include the development of Strategic Highway Safety Plan (SHSP) in consultation with other key State and local highway safety stakeholders.

The 2014 OWPs should identify all safety planning efforts undertaken for Regional Transportation Plans and FTIPs, and ensure that safety projects and programs are consistent with the Caltrans SHSP.

Livability/Sustainability
Livability/Sustainability is about tying the quality and location of transportation facilities to broader opportunities such as access to good jobs, affordable housing, quality schools, and safe streets. This includes addressing safety and capacity issues on all roads through better planning and design, maximizing and expanding new technologies such as ITS and the use of quiet pavements, using Travel Demand Management approaches to system planning and operations, etc. MPOs are encouraged to assure that new Regional Transportation Plans incorporate the following livability/sustainability principles:

- Provide more transportation choices
- Promote equitable, affordable housing
- Enhance economic competitiveness
- Support existing communities
- Leverage Federal policies & investment
- Value communities and neighborhoods

State of Good Repair
The President has called for new state-of-good-repair (SGR) investments in our nation’s transit systems, sounding the call to reinvest in and modernize our assets. MAP-21 places new emphasis on restoring and replacing aging transportation infrastructure by establishing a new needs-based formula program, with a new tier for high-intensity bus needs. The new program defines eligible recapitalization and restoration activities, with a goal of bringing all systems into a state of good repair. Grantees are required to establish and use an asset management system to develop capital asset inventories and condition assessments, and report on the condition of their system as a whole.

Maintaining transit systems in a high state-of-good-repair is essential for the provision of safe and reliable service. SGR is the effective recapitalization of transit assets, identifying critical timing for preventive maintenance and increasing the focus on asset management practices. It also includes the assessment of capital asset condition, strategies to obtain additional local re-investment including innovative financing strategies and additional identification of preventive maintenance practices. MPOs are encouraged to support planning strategies for the effective recapitalization of transit assets that would include:

- Asset Management, Assessment and Replacement Planning,
- Planning and Programming for Effective Preventive Maintenance, and
- Planning Innovative Financing Strategies for System Repair and Expansion.

OWP FY 2014-15 Amendment #2 — November 13, 2014
This page intentionally left blank.
The Metropolitan Planning program under Safe, Accountable, Flexible, Efficient Transportation Equity Act – A Legacy for Users (SAFETEA-LU) provided funding for the integration of transportation planning processes in the Metropolitan Planning Organizations (MPOs) into a unified metropolitan transportation planning process, culminating in the preparation of a multimodal transportation plan for the MPO. Title 23 of the United States Code, section 134(f) (revised in SAFETEA-LU section 6001(h)) describes Federal Planning Factors issued by Congress to emphasize planning factors from a national perspective. Under Moving Ahead for Progress in the 21st Century (Map-21), these planning factors remain unchanged. The eight planning factors (for both metro and statewide planning) are as follows:

1. Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency.

2. Increase the safety of the transportation system for motorized and non-motorized users.

3. Increase the security of the transportation system for motorized and non-motorized users.

4. Increase the accessibility and mobility of people and for freight.

5. Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns.

6. Enhance the integration and connectivity of the transportation system, across and between modes, people and freight.

7. Promote efficient system management and operation.

8. Emphasize the preservation of the existing transportation system.

SACOG intends to incorporate these rules into ongoing transportation activities.

**Total expenditures for OWR reporting purposes**: $3,004,778 | $6,367,837 | $3,967,987 | $10,305,573 | $750,380 | $29,602 | $179,382 | $17,464,918 | $481,700 | $881,000 | $338,090

**Less: Carry forward costs from FY 12-13 included in the indirect costs calculation but not part of the annual SACOG budget**: ($321,629) ($321,629)

**Total expenditures for SACOG budgeting reporting purposes**: $3,626,399
**Element 001: Government Relations, Public Affairs, & Administration**

**Objective:** To provide coordinated support for the Board of Directors and its committees; to interact and coordinate with outside partners and agencies; to analyze, comment, and offer recommendations on legislation related to transportation and land use issues; and to provide to the region public outreach related to SACOG activities and issues.

**Discussion:** This element provides the overall management, coordination, and direction for the Overall Work Program and its activities, including public and partner outreach related to those activities. Activities in this element will provide interaction with the Board of Directors and its committees, coordination with partner agencies and committees and Native American tribal councils as they relate to the project activities included in the Overall Work Program, and will further the public participation in SACOG activities so crucial to implementing the OWP. Issues and policies related to transportation and land use planning will be discussed.

**Projects:**

1. **Interagency Relations**  
   (Board Policy – State and Federal Requirements)  
   Project #001-01
   Interagency relations covers consultations and coordination of SACOG activities with other local agencies in the region and with state and federal agencies, tribal governments, and other agencies outside the region. It includes discussion and development of cooperative activities, meetings to share information, presentations of SACOG policy to other agencies, communications with elected officials and executive staff in member jurisdictions, and attendance at educational conferences, sessions of a general policy nature, and tribal meetings. It also includes discussion and development of cooperative activities, meetings to share information, communications with elected officials, executive staff in member jurisdictions, and to continually improve access and utility of SACOG’s services, use of data and tools, communications, and other member educational activities.
   
   This work will be performed by SACOG staff.

   Tasks and End Products:
   a. Telephone calls and attendance at meetings (As needed)
   b. Staff memos and communications (As needed)
   c. Minutes documenting consultations with tribal governments (As needed)
   d. Web access to services, data and tools
   e. Member-to-Member opportunities for information sharing

2. **Program Management**  
   (Board Policy – State and Federal Requirements)  
   Project #001-02
   Program management encompasses internal direction of staff activities and preparation of materials for the Board and its committees. It includes development of the OWP itself, coordination and oversight of staff work within the OWP, execution of policy direction and cooperative agreements, and preparation of agenda materials, staff reports, and recommendations to the SACOG Board and its committees.

   This work will be performed by SACOG staff.
Tasks and **End Products:**

a. *Highlight summary/Chief Executive Officer's Report (Monthly)*

b. *Updated cooperative and funding agreements (Available upon request)*

c. *Board committee agendas and staff reports (Monthly)*

d. *Board agendas and staff reports (Monthly)*

e. *Overall Work Program (March, May 2015)*

f. *Overall Work Program quarterly reports (Quarterly)*

g. *Overall Work Program amendments (Available upon request)*

3. **MULTI-AGENCY PLANNING AND COORDINATION**

   (Board Policy)

Liaise with member agencies, committees and their related staffs; attend meetings with member agency staff, public agency partners and stakeholders; and support SACOG’s Innovation Task Force as an ad hoc committee. Input from the task force will be used by SACOG in its research projects, member communications, technical support and service delivery activities. SACOG planning and coordination activities will include maintaining regular contact with member and partner agency staff; review and preparation of agendas; and facilitating or participating in regional forums and policy discussions led by SACOG or others.

This work will be performed by SACOG staff.

Tasks and **End Products:**

a. Preparation of meeting agendas and staff reports for SACOG ad hoc committees (Ongoing)

b. Attendance at local jurisdictional meetings (Ongoing)

c. Member jurisdiction staff coordinating meetings. (Ongoing)

d. Meeting summaries and comments on studies by partner organizations (Available upon request)

e. Member communications of SACOG programs, activities and services in newsletters, web content, and other materials. (Available upon request)

f. Documentation of tribal government-to-government relations (i.e., coordination, consultation, and collaboration efforts) (Available upon request)

4. **LEGISLATIVE ANALYSIS**

   (Board Policy)

SACOG needs to understand the contents and implications of various legislative proposals moving through the state Legislature and Congress each year, as well as track progress of regulations and ballot initiatives. The SACOG Board has adopted state and federal advocacy principles to guide staff. Staff reviews bills, reads and analyzes bill language to understand its requirements and consequences, tracks the progress of bills, and reports on bills to committees and to the Board. This work task covers these analytic activities. Advocacy activities are funded by the Board of Directors and Advocacy Budget, which is outside the Overall Work Program.

This work will be performed by SACOG staff.
Tasks and **End Products:**

a. Regular tracking and bill analysis reports to SACOG committees and board during legislative sessions (As needed)

**b. Legislative Action Summaries (As needed)**

c. **Year-end report to board on status and final disposition of tracked bills (December 2014)**

5. **EDUCATION, OUTREACH, AND MARKETING**  
*Project #001-05*

(Federal Requirement – Board Policy)

This project includes public outreach, communication, and consultation which are aimed at the general public, active transportation advocates, disabled senior, youth, transit riders, providers and advocates, partner agencies, low-income, and minority stakeholder groups. Also included are constituencies, such as elected officials, neighborhood associations, advocacy groups, community-based organizations, chambers of commerce, and Native American tribal governments.

Outreach activities include but are not limited to special events, open houses, working groups, focus groups, workshops, forums, direct-mail products, traditional media outreach, advertising, website maintenance, and social media communications.

This element supports outreach efforts with traditionally under-represented (i.e., elderly, disabled, low-income, and minority communities: African-American, Hispanic, Asian American, American Indian/Alaskan Native, and Pacific Islander), and other groups that have not traditionally participated in SACOG’s planning efforts.

This work will be performed by SACOG staff.

Tasks and **End Products:**

a. Online content, print materials, and special events for projects (As needed)

b. Press releases (As needed)

c. Website maintenance for projects and programs (As needed)

d. Advertisements in print, on radio, and/or online (As needed)

**e. SACOG Salutes Annual Awards Event (December 2014)**

**f. SACOG Annual Report (Spring 2015)**

**g. Regional Report (As needed)**
**Element 002: Long-Range Transportation Planning**

**Objective:** To support long-range planning efforts that relate to, but do not directly support, the fiscal year 2013-14 tasks to develop the new Metropolitan Transportation Plan/Sustainable Communities Strategy (MTP/SCS).

**Discussion:** This element identifies projects that further the planning efforts of the MTP/SCS as it relates to various aspects of MTP/SCS 2035 implementation. This element also identifies projects that are longer-term planning projects dictated by MAP-21.

**Projects:**

1. **Model Development**  
   *(State and Federal Requirements)*  
   Project #002-01
   
   This project includes SACOG staff time for development of modeling and forecasting tools not funded by specific grants. For FY 2014-15, it includes: an independent peer review of the SACSIM15 regional travel demand model; completion of testing and documentation of PECAS integrated land use/transportation model; and planning and preparatory work to transition from traditional equilibrium assignment to dynamic traffic assignment for the next major iteration of SACSIM.

   The peer review work will be conducted by SACOG staff, with some support from FHWA through the Travel Model Improvement Program. PECAS work will be conducted by SACOG staff. The DTA preparatory work will be conducted by SACOG staff, with some help from an independent contractor.

   **Tasks and End Products:**
   a. **Peer Review Report (June 2015)**
   b. **Technical Memorandum on Transitioning to Dynamic Traffic Assignment (June 2015)**

2. **Pedestrian and Bicycle Planning**  
   *(State and Federal Requirements)*  
   Project #002-02
   
   SACOG will continue to serve as a forum for bicycle and pedestrian planning activities throughout the region. Staff will be available to local jurisdictions and partner organizations to collaborate on bicycle and pedestrian planning, advocacy, and education efforts. The SACOG Bicycle and Pedestrian Advisory Committee will continue to meet regularly to discuss bicycle and pedestrian issues affecting the region and will continue to function as an advisory committee to the SACOG Board of Directors. Staff will continue to support increased funding for bicycle and pedestrian projects, provide technical assistance to local jurisdiction for grant applications, review local Bicycle Transportation/Master Plans, and coordinate regional efforts. SACOG will maintain its role in planning and coordinating **May Is Bike Month**. The Regional Bicycle, Pedestrian and Trails Master Plan will be updated in the spring prior to the launch of the upcoming funding program.

   This work will be performed by SACOG staff.
Tasks and **End Products:**

a. Bicycle & Pedestrian Advisory Committee meetings (Quarterly)

b. *May Is Bike Month activities (May 2015)*

c. *Regional Bicycle, Pedestrian & Trails Master Plan Update (May 2015)*

2. **REGIONAL FORECASTING**

   **Project #002-03**

   (State and Federal Requirements)

   SACOG uses regional growth projections (population, housing, and employment) and travel and vehicle emissions forecasts for the MTP, the MTIP, and other corridor and sub-area plans. This project includes staff time for fulfilling local agency requests for data, analysis, or forecasts prepared by SACOG for their use in local planning projects. It also includes staff time to support and update SACOG’s travel model users FTP site.

   This work will be performed by SACOG staff.

Tasks and **End Products:**

a. *Travel model assistance to partner organizations – summary report (June 2015)*

4. **MAJOR INVESTMENT STUDIES**

   **Project #002-04**

   (State and Federal Requirements)

   Regional transportation planning encompasses all modes, including coordination and analytic work related to highway, local roads, transit and active transportation. For the fiscal year, SACOG will focus on supporting the development and implementation of Corridor System Management Plans (CSMPs) as a method of integrating transportation system operational management and regional planning so as to maximize system efficiency and effectiveness. SACOG will also focus on evaluating selective road expansion efforts that are supportive of MTP/SCS land use patterns which support infill development and forestall midday congestion. In this effort, SACOG could analyze road-related issues, such as High-Occupancy Vehicle (HOV) lanes and ITS effectiveness, the integration of bicycles and transit into existing roadway design, road tolls and parking charges, the degree and spread of congestion, and how changing travel demands affect bottleneck points on the road system. Topics explored will inform the regional transportation plan and programming processes. These activities may in some cases yield a report, but in general, the output will be used in the implementation of the new MTP/SCS.

   This work will be performed by SACOG staff.

Tasks and **End Products:**

a. *Topical reports or issue papers in support of MTP/SCS Implementation efforts (Through June 2015)*

b. *Participate in Technical Advisory Committees and review proposed project study reports for regionally significant efforts (Through June 2015)*
5. **COORDINATED HUMAN SERVICES TRANSPORTATION PLAN AND PARATRANSIT, INC., MONITORING**  
(State and Federal Requirements/Board Policy and Local Agreement)
This work will assist with updating the SACOG Coordinated Human Services Transportation Plan (CHSTP) in fall 2014. Requirements for coordinated planning were originally contained in the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) for projects funded through Section 5316 Job Access and Reverse Commute, Section 5317 New Freedom programs, and Section 5310 Elderly and Disabled Transit Project. The two-year federal transportation reauthorization, Moving Ahead for Progress in the 21st Century (MAP-21), continued the coordinated requirements for Section 5310, which incorporated the New Freedom Program and is now called Formula Grants for the Enhanced Mobility of Seniors and Individuals with Disabilities.

This CHSTP update will build upon the 2007 CHSTP, the Lifeline Transit Study completed by SACOG in 2011, updates of local services and Short Range Transit Plans for operators in the region, and updated federal guidance. SACOG will continue to work with the Transit Coordinating Committee, regional partners, tribal governments, representatives of the region’s human service agencies, private non-profit service providers, consumers, and social service programs to identify critical updates to the CHSTP and follow-up tasks. SACOG will coordinate these activities with Caltrans and other partners.

This work element also includes work that was formerly carried out under the Paratransit, Inc., Monitoring and Evaluation work element. During FY 2014-15, SACOG will continue work to implement provisions of the Collaborative MOU with Paratransit, Inc. and Regional Transit that was adopted by the SACOG Board in June 2013.

This work will be performed by SACOG staff.

Tasks and **End Products:**

a. **Facilitation of Collaborative (Ongoing)**

b. **Updated Human Services Transportation Plan (October 2014)**

6. **GOODS MOVEMENT/FREIGHT PLANNING**  
(State and Federal Requirements)
SACOG participates in and leads a number of planning activities related to freight hauling and goods movement on the region’s roads, freeways, railways, airports, and seaways/ports. SACOG works with partner organizations and local officials to evaluate the effect of freight haulers on the transportation infrastructure in the region and promote the most effective methods of moving the maximum amount of goods within and through the region.

As one of the fastest growing segments of the economy, goods movement will have a tremendous impact on the region’s highways, railroads, and airports. Through implementation of the MTP/SCS, SACOG will help ensure that freight continues to move given the constraints of the current transportation infrastructure and other planning challenges.

In partnership with Caltrans District 3 Goods Movement staff and Caltrans Headquarters Division of Freight Planning, SACOG will convene a regional Task Force to provide a policy forum for goods movement issues, as needed. SACOG will also continue to participate in the state’s Proposition 1B Trade Corridor Improvement Fund (TCIF) implementation efforts. Through the
Task Force, SACOG will coordinate this activity with Caltrans, the California Transportation Commission, the California Freight Advisory Commission, and other partners.

This work will be performed by SACOG staff.

Tasks and End Products:

a. Assist partners and member agencies with the implementation of goods movement projects identified in SACOG’s regional goods movement studies and the Metropolitan Transportation Plan (As needed)

b. Participate in meetings and workshops related to the state’s TCIF program and assist local TCIF project sponsors (As needed)

c. Continue to work with the Port of West Sacramento in implementing projects and studies consistent with the region's overall goods movement strategies (Ongoing)

d. Convene the regional Goods Movement Task Force and engage stakeholders in regional and statewide planning issues for goods movement (As needed)

11. URBANFOOTPRINT STATEWIDE COLLABORATION AND MAINTENANCE Project #002-11
(Federal and State Requirement)

UrbanFootprint is a land use and transportation scenario comparison tool SACOG has identified through research that can meet the needs of SACOG and our member agencies as we develop specific plans, general plans, and sustainable community strategies. The tool is being developed for use in other regions in California, and SACOG needs to collaborate with developers and users of the tool to ensure it continues to meet the agencies’ needs.

This will be performed by SACOG staff.

Tasks and End Products:

a. Participate in ongoing collaboration with member jurisdictions, partner agencies, other California MPOs, and state agencies in development of UrbanFootprint (Ongoing)

12. PLANNING SUPPORT TOOLS Project #002-12

In order to facilitate good information based decision making in the SACOG region, a set of tools that take advantage of existing robust data need to be created and maintained. The tools analyze things such as: travel behavior, infrastructure demand, fiscal impacts, public health, agricultural issues, and data management. Work will include developing new tools, maintaining existing tools, organizing data to support tools, providing training, and creating documentation.

This work will be performed by SACOG staff with consultant assistance.

Tasks and End Products:

a. Ongoing maintenance of data management system (June 2015)

b. Provide training for Sketch7 and IMPACS (June 2015)
**ELEMENT 003: SHORT-RANGE TRANSPORTATION PLANNING & STUDIES**

**Objective:** To identify certain transportation planning projects that are shorter in term or are related to specific studies.

**Discussion:** This element identifies certain projects that are designed to have a finite term of one to two years or are studies related to specific planning projects. Projects of high importance are the transit planning assistance for operators in the SACOG region, as well as coordinating and planning Intelligent Transportation Systems in the region and several transit planning projects for transit operators and grant-related activities.

**Projects:**

2. **COMPLETE-STREETS**

*(State and Federal Requirements)*

SACOG will serve as an information clearinghouse and technical assistance provider for complete streets activities in the region. Staff will support member agencies and local groups working to develop policies, implement programs and projects, and disseminate information about roadway designs that facilitate the creation of streets that are accessible to all users (auto, truck, transit, bicycle, pedestrian, and special needs). SACOG will continue the development of a complete streets technical assistance program to highlight how implementation of complete streets concepts can benefit smart growth corridor development or redevelopment efforts, including offering educational opportunities. Staff will maintain and update the Complete Streets Resource Toolkit with additional resources in Project #14-013-06, including topics such as parking and electric vehicles. Staff will track state and federal activities that relate to complete streets and pursue new funding opportunities.

This work will be performed by SACOG staff.

Tasks and *End Products*:

a. Collaborate and share pertinent information with member agencies and local groups (Ongoing through June 2015)

b. Provide technical assistance to SACOG’s member agencies and other stakeholders (Ongoing through June 2015).

c. Maintain partnership in local Complete Streets Coalition (Ongoing through June 2015)

3. **SACRAMENTO REGIONAL TRANSIT DISTRICT TRANSIT PLANNING**

*(Board Policy – Local Agreement)*

SACOG will continue working with SRTD on a number of efforts. Key initiatives include participation in major capital project studies such as the Green Line to the Airport and South Line extension project.

SACOG’s ongoing work under this work element includes participation in FTA Quarterly Review meetings and periodic SRTD project-related technical advisory committees. SACOG staff also provides consultation and assistance to RT staff on issues related to programming, project delivery, and related transportation funding issues.
SACOG staff reviews planning studies for expansion of service. SACOG staff assists with agreements between SRTD and Paratransit, Inc., regarding budgets, vehicle replacement, and minor expansion.

This work will be performed by SRTD staff and by SACOG staff.

Tasks and **End Products:**

a. **Coordination On Line Trip Planning (TBD)**

b. Review SRTD Board Items (Monthly)

c. Review of ongoing SRTD/PI CTSA coordination efforts, agreements and implementation planning (June 2015)

d. Review and approval of capital expenditure plans for PTMISEA and TDA funding as required by Caltrans and SACOG (June 2015)

4. **DOWNTOWN SACRAMENTO TRANSIT CIRCULATION AND FACILITIES PLAN PHASE I IMPLEMENTATION**

   (State and Federal Requirements)

This project is the implementation of near-term improvements identified in the Downtown Sacramento Transit Circulation and Facilities. This component will focus on facilitating discussions to implement grouped bus stop patterns, balanced stop spacing, and simplified and consolidated route alignments for the 12 transit providers operating service in downtown Sacramento, and provide additional considerations for recent developments with the proposed Entertainment and Sports Complex.

Implementation of short-term and long-term improvements identified in the completed study will not be addressed in Phase I implementation, but will be further investigated in a proposed, more comprehensive downtown circulation study in the City of Sacramento and in coordination with the construction of the new Entertainment and Sports Complex in Downtown Sacramento. The near-term improvements are intended to improve the operating speed and reduce customer travel time on transit serving the downtown area.

SACOG staff will facilitate the implementation of Phase I improvements from the study by coordinating the efforts of transit providers operating service in downtown Sacramento.

The proposed improvements resulted from the implementation of a Caltrans/FTA Partnership Planning grant that was performed by a consultant for the circulation study and by SACOG staff.

Tasks and **End Products:**

a. Develop consensus among transit operators about the recommended bus stop patterns and routings in downtown Sacramento (June 2015)

b. Analyze impact of increased ridership at recommended transit stops along the transit-intensive loop (June 2015)

c. Develop comprehensive list of layover locations for transit operators in coordination with City of Sacramento staff (August 2015)

d. Develop, in coordination with transit operators, optimal schedules for transit routes wishing to access the transit-intensive loop identified in the study (October 2015)

e. **Finalized schedules for transit operators (December 2015)**

f. Identify high, medium, and low priority stops for interim stop improvements (January 2016)

g. Identify preferred street furniture to be used for interim stop improvements (March 2016)

h. Assist in design of informational panels included in interim stop improvements (March 2016)
i. **List of bus stops and description of preferred improvements for each stop (April 2016)**

j. Coordinate/facilitate meetings and discussions between transit providers (ongoing)

k. Community outreach to raise awareness of scheduled changes and improvements (June-October 2016)

6. **SAFE ROUTES TO SCHOOL**

   (Board Policy – Federal Safe Routes to School Grant))

   This Safe Routes to School (SRTS) Education and Encouragement project will support the creation of regional tools and materials via outreach and education partners to help sustain new and continuing SRTS programs in the region. This project will focus on encouraging more students to walk and bicycle to elementary schools (K-6) and middle schools in the six-county region (El Dorado, Placer, Sacramento, Sutter, Yolo, and Yuba counties).

   SACOG activities will include surveying SRTS needs in the region, holding a SRTS summit for SRTS program partners, collecting student mode travel tallies and parent surveys, holding training workshops for program partners, and coordinating SRTS marketing activities with May is Bike Month marketing.

   This work will be performed by SACOG staff and through contracts with non-profits and public agencies.

   **Tasks and End Products:**
   a. Survey Regional SRTS implementation and needs (October 2014)
   b. Collect SRTS Travel Tallies and Parent Surveys (October 2014 and May 2015)
   c. **Hold SRTS Summit (November 2014)**
   d. **Organize and Hold SRTS Training Workshops (January to April 2015)**
   e. Support SRTS marketing with May is Bike Month marketing and activities (May 2015)
   f. **Host Summit presentations, Travel Data, Training resources, and Networking resources on SACOG's website (ongoing)**

14. **BICYCLE TRIP PLANNER**

   (State and Federal Requirements)

   SACOG staff will update the online bicycle trip planner by replacing the outdated version with a new application that allows users to map their bicycle routes. The application will be a tailored version of the CycleTracks application, developed by San Francisco County Transportation Authority (SFCTA) and available at no cost, and will require minimal consultant investment for a computer programmer. The application will be promoted during May is Bike Month 2015. The bicycle facility and preference data will be used for transportation modeling and GIS analysis. Staff will work with local agencies and advocacy groups to develop the application and integrate it into a comprehensive Active Transportation website.

   The Online Trip Planner is accessible through [www.mayisbikemonth.com](http://www.mayisbikemonth.com) or directly through [www.sacregion511.org/bicycling](http://www.sacregion511.org/bicycling).

   This work will be performed by SACOG staff and a small contract with a computer programmer to develop the application.
Tasks and End Products:
a. Replace online bicycle trip planner with new application (Ongoing through June 2015)

15. PARATRANSIT, INC., SHORT-RANGE TRANSIT PLAN

(State and Federal Requirements)
This project is the update of the Short-Range Transit Plan (SRTP) for Paratransit, Inc. The project study area consists of the current and potential boundaries of Paratransit, Inc., which is the Consolidated Transportation Services Agency (CTSA) for an area that is coterminous with the activated boundaries of the Sacramento Regional Transit District. Currently, the cities of Citrus Heights, Folsom and Elk Grove are not a part of the CTSA service area. The SRTP provides essential information, analysis, and recommendations regarding future operations and capital expenditures. It also provides the planning analysis and documentation for a transit operator to be eligible to receive certain state and federal funds.

This work will be performed by SACOG staff.

Tasks and End Products:
a. Develop outline draft of SRTP (November 2014)
b. Work with Paratransit, Inc. on service goals, issues, alternatives and analysis (March 2015)
c. Community outreach and meetings, as necessary (April 2015)
d. Prepare recommendations (April 2015)
e. Draft SRTP (May 2015)
f. Final SRTP (June 2015)

19. SACOG TRANSIT INTERN

(State and Federal Requirements)
This project will continue SACOG’s Transportation Intern program, providing interested students in planning or related fields the opportunity to gain real-world planning experience while assisting SACOG planners in meeting the organization’s goals as both a Metropolitan Planning Organization and a Regional Transportation Planning Agency.

This work will be performed by the intern and is funded by a Caltrans Transit Planning Internship grant.

Tasks and End Products:
a. Intern Selection (May 2014)
b. MTIP Team assistance (As needed)
c. Programming Team assistance (As needed)
d. Transit Team Assistance (As needed)
e. Transit Coordinating Committee (TCC) (Monthly)
f. TDA Team assistance (as needed)
g. Unmet Transit Needs (Summer and fall 2014)
h. Data and Report Collection (As needed)
i. FTA Programming Round (As needed)
j. SRTP Coordination and Outreach (As needed)
k. SRTP Recommendation Evaluation (As needed)
l. Resolution/Staff Report Preparation (As needed)
m. Project Management & Administration (Ongoing)
22. **PROPOSITION 1B TRANSIT PROGRAM ADMINISTRATION**

(Sacramento Metropolitan Area Planning Agency
(State Requirement)

SACOG coordinates the award of regional funding for two Proposition 1B transit programs: the Public Transportation Modernization, Improvement, and Service Enhancement Account (PTMSEA) program and the Transit System Safety, Security, and Disaster Response (TSSSDR) program. SACOG will continue to execute its role coordinating the award of these regional funds within the four-county MPO Area. Under this project, SACOG transit team staff will conduct Calls for Projects, submit funding requests to the California Department of Transportation (Caltrans) and the Governor’s Office of Emergency Services (OES), and meet all the requirements of tracking and administering grant funds. Staff will maintain an expenditure plan of projects for the regional funds and reimburse project sponsors for eligible project expenditures.

This work will be performed by SACOG staff.

Tasks and **End Products:**

a. Coordinate call for projects (Winter 2014)
b. Submit project applications (As needed)
c. Execute subrecipient agreements and amendments with grantees (Ongoing)
d. Prepare and submit progress reports (August 15, October 31, February 15, and April 30)
e. Maintain program expenditure plan (As needed)
f. Reimburse eligible project expenditures (Ongoing)
g. Fulfill all other reporting and administrative requirements as determined by Caltrans and OES (Ongoing)
h. **Prepare and submit Final Project Reports to Caltrans and OES (As needed)**

23. **CONNECTIVITY STUDY OF TRANSPORTATION SERVICES TO IMPROVE HEALTH CARE ACCESS ACROSS THE SACOG REGION**

(Caltrans Statewide or Urban Transit Planning Studies Grant)

This project will address greater connectivity and seamlessness for demand-response transit and supplemental transportation service users and low-income residents needing to make cross-jurisdictional trips in the Sacramento Region, especially to reach health care services. SACOG staff will work with operators and stakeholders to document existing transportation services and health care service locations; assess additional needs and demand for cross-jurisdictional travel for accessing health care; and identify, assess, and recommend options for a more seamless, connected system of public transportation and supplemental services in the region.

This work will be performed by SACOG staff.

Tasks and **End Products:**

a. Project kickoff (March 2013)
b. Complete data collection on current services, demand and destinations for cross-jurisdictional travel (January 2015)
c. Conduct surveys (January 2015)
d. Analyze options/alternatives, develop recommendations (August 2015)
e. Complete outreach and input-gathering (September 2015)
f. Finalize Connectivity Study (December 2015)
g. Project management and administration (Ongoing)
h. **Develop draft recommendations (October 2015)**
24. **FEASIBILITY STUDY OF CONNECT CARD INTEROPERABILITY**  
*Project # 003-24*

(Caltrans Transit Planning for Sustainable Communities Grant)  
This project, based on Board Policy to explore innovative ideas on implementing the adopted MTP/SCS, is a study of how the new Connect Card can be used to connect transit with other modes of transportation. The study will explore the hardware and software requirements of using Connect Card with bike share systems, electric vehicle chargers, car share, and parking. It will look at different business cases and models used to implement these systems, and make recommendations on how best to integrate the Connect Card to support “last mile” connections. This work is funded through a Caltrans discretionary grant.

This work will be performed by SACOG staff and consultants.

Tasks and **End Products:**

**a.** Project Administration (Ongoing)

**b.** Issues on PEV interoperability (Ongoing)

**c.** *Report on PEV Interoperability with Connect Card (June 2015)*

**d.** Issues on Bike Share interoperability (Ongoing)

**e.** *Report on Bike Share Interoperability with Connect Card (June 2015)*

25. **SACOG CONNECT CARD TRANSIT PLANNING STUDENT INTERNSHIP**  
*Project #003-25*

(Caltrans Statewide or Urban Transit Planning Studies Grant)  
This project will continue the Transportation Intern program through SACOG, providing interested students in planning or related fields the opportunity to gain real-world planning experience while assisting SACOG with pre- and post-surveying, implementation, procedures, and evaluation of the Connect Card electronic fare system.

This work will be performed by the intern and is funded by a Caltrans Connect Card Transit Planning Internship grant.

Tasks and **End Products:**

**a.** Assist with Connect Card public education and outreach (July-August 2014)

**b.** Assist with developing Connect Card Standard Operating Procedures (July-August 2014)

**c.** Assist with coordinating Connect Card distribution network (July-August 2014)

**d.** Project management and administration (Ongoing)

**e.** *Quarterly Reports/Invoices (Quarterly)*

**f.** *Final Caltrans Report and Invoice (November 2014)*
26. **SACRAMENTO COUNTY SHORT-RANGE TRANSIT PLAN**

*(Board Policy)*

The project is an update of the County of Sacramento Short Range Transit Plan (SRTP). Stakeholders will be included in development of the plan. The new SRTP will guide future transit services and planning for the population and areas served by South County Transit and the East County Transit program.

This work will be performed SACOG and is funded by Sacramento County.

**Tasks and End Products:**

a. Project kickoff (Early 2015)

b. *Draft SRTP sections (Fall 2015)*

c. *Summary of public comments on draft SRTP, Final SRTP (Winter 2015)*

27. **CYCLETRACKS DATA COLLECTION**

*(Federal Requirement)*

SACOG staff will develop a pilot bicycle/pedestrian counter data collection program and bicycle/pedestrian project evaluation standards for future funding rounds. As part of this project, staff will also test, launch, and promote the new CycleTracks application for the Sacramento region, called CycleSac, with additional resources in Project #003-14. Staff will organize a working group made up of member agency and local advocacy staff to study and recommend preferred bicycle/pedestrian counters and installation sites for the pilot program. Staff will use this information to analyze the needs for data counters in the Sacramento region, procure data counters, develop a leasing program, and work with select member agency departments to install and maintain counters.

This work will be performed by SACOG staff and will involve hiring a vendor for the bicycle/pedestrian data counters.

**Tasks and End Products:**

a. Work with stakeholders to design a bicycle/pedestrian data collection pilot program (December 2014)

b. Work with stakeholders to study and recommend project evaluation standards (March 2015)

c. Work with member agency staff to secure contracts to install and maintain hardware (June 2015)

d. Conduct procurement for bicycle/pedestrian counters (June 2015)

e. Test and promote CycleTracks application (June 2015)

f. *Recommendation by working group for pilot program (December 2014)*

g. *Recommendation by working group for evaluation standards (March 2015)*

h. *Contract with local agency(ies) to install and maintain bicycle/pedestrian counters (June 2015)*

i. *Contract with vendor to procure bicycle/pedestrian counters (June 2015)*

j. *Tailored CycleTracks application for May is Bike Month (March 2015)*
28. **RURAL RIDE-SHARING ALTERNATIVES PLANNING STUDY**

(Sacramento Area Council of Governments (SACOG))

SACOG will spearhead a planning study of ridesharing alternatives to serve seniors, persons with disabilities and low-income families living in very rural communities in the Western portion of El Dorado County, Yolo County, and Yuba and Sutter Counties where public transit service is limited, or non-existent and too costly to provide. SACOG will research successful rural transportation models and work with stakeholders and community residents to detail service gaps, identify locally preferred ride-sharing alternatives, assess feasibility and costs, and develop implementation strategies and next steps.

This work will be performed by SACOG staff.

**Tasks and End Products:**

a. Project kickoff (May 2015)

b. Project Coordination (Ongoing)

c. Conduct gap and demand analysis (November 2015)

d. Review ride-sharing options/models for rural areas (December 2015)

e. Refine services/models to study (February 2016)

f. Refine service alternatives (July 2016)

g. Draft feasibility plans and implementation strategies (July 2016)

h. Review draft feasibility plans with stakeholders (July 2016)

i. Complete planning studies and implementation strategies (September 2016)

j. Implementation/next steps (September 2016)

k. **Report on gap/demand analysis, ride-sharing options and models (December 2015)**

l. **Draft Planning Studies and Implementation Strategies (July 2016)**

m. **Final Planning Studies (September 2016)**

n. **Quarterly Reports/Invoices (Quarterly)**

o. **Final Caltrans Report and Invoice (October 2016)**

29. **RURAL/SMALL URBAN TRANSIT PLANNING INTERN**

(Sacramento Area Council of Governments (SACOG))

SACOG will hire a college student enrolled in a planning-related degree program to work with our Transit Team for up to one year under the supervision of experienced transportation planners. The intern will assist with diverse transit planning activities to gain professional experience and provide staff support. The intern will work full-time during the summer and 16-24 hours per week during the academic year. The transit intern’s work will be focused on transit planning activities for our region specifically benefitting the rural/small urban service areas (population 100,000 or less) in El Dorado, Placer, Sacramento, Yolo, Yuba, and Sutter counties. The general areas of work and the timeline are outlined below.

This work will be performed by a student intern.

**Tasks and End Products**

B. Technical Assistance and Programming (June 2015–June 2016)

C. Transit Planning and Project Implementation (June 2015–June 2016)

E. Public Outreach and Implementation (June 2015–June 2016)
ELEMENT 004: CONTINUING TRANSPORTATION SERVICES IMPLEMENTATION

Objective: To identify those projects which are ongoing and span multiple years. These projects support efforts related to programming of federal and state funding, regional air quality planning activities, and Metropolitan Transportation Plan/Sustainable Communities Strategy 2035 implementation.

Discussion: This element brings together a number of projects that continue from one year to another, such as the selection of transportation projects eligible for federal and state programming; the monitoring of the regional transportation system in order to provide the technical tools required of SACOG and members for land use, transportation, air quality planning; and the implementation of the MTP/SCS 2035. Also included in this element are those ongoing projects related to transit assistance and monitoring and implementation of state and federally-mandated climate change and greenhouse gas reductions.

Projects:

1. **REGIONAL AIR QUALITY PLANNING**  
   (State and Federal Requirements)  
   *Project #004-01*

   This project will continue the coordination with the local air districts, California Air Resources Board (CARB), Environmental Protection Agency (EPA), and other stakeholders on interagency consultation matters. Specific emphasis will be placed on the continued monitoring of a PM$_{2.5}$ Maintenance Plan, development of the Ozone Plan for the 2008 standard, and updating the Conformity State Implementation Plan. SACOG will also coordinate with partner agencies in responding to new conformity regulations and other plan development needs as they arise.

   SACOG will continue to monitor, implement, and participate in training relevant to changes, adjustments, or updates to the emissions modeling software EMFAC.

   SACOG will prepare ozone, PM$_{10}$, PM$_{2.5}$, and CO conformity determinations for amendments to the MTP/SCS 2035, 2013-16 MTIP, and the development of the 2016 MTP/SCS for the various non-attainment and maintenance air quality planning areas in the region.

   As part of the air quality consultation process, SACOG will continue to hold meetings of the Regional Planning Partnership (RPP) to review procedures, assumptions, timelines, project level conformity determinations, transportation conformity budget development, and regional conformity determinations.

   SACOG will continue to work with project sponsors on requirements affecting project level conformity. All project sponsors of federally funded, non-exempt projects located in the PM$_{10}$/PM$_{2.5}$ Conformity Boundaries bring their projects to the RPP to determine whether they have a Project of Air Quality Concern (POAQC), or present a PM$_{10}$/PM$_{2.5}$ Hot Spot Analysis.

   SACOG will continue to monitor the implementation of TCMs as part of each conformity update. On an as-needed basis, staff will work to educate local agencies on the required implementation of the project/policies. Additionally, staff will provide any necessary consultation in TCM substitution. Staff will also monitor and participate in the development of new TCMs as necessary for new plan development.
SACOG will continue to work in coordination and consultation with the Metropolitan Transportation Commission (MTC) on regional and project level conformity. This includes MOU, TCM, modeling work and updates.

This work will be performed by SACOG staff.

Tasks and End Products:

a. Participate in the regional Air Pollution Control Officers’ meetings (As needed)

b. Conformity determinations on amendments to the MTP/SCS, MTIP, MTP/SCS update (As needed, July 2014, May/June 2015)

c. Interagency Consultation on Plans and Determinations (As needed, July 2014)

d. Monitoring of TCMs (As needed)

e. Assistance on Projects of Air Quality Concern (Available upon request)

f. Participate in the Statewide Conformity Working Group (Quarterly)

g. Develop data and budgets for SIPs (As needed)

h. Participate in development/training activities associated with EMFAC updates (Ongoing)

i. Update of Interagency Consultation documentation (As needed).

j. Development of TCMs (As needed)

k. Coordinate with local air districts on ongoing activities (As needed)

l. Web update for POAQC (Ongoing)

m. Coordinate with MTC on ongoing activities (As needed)

n. Update of the Conformity State Implementation Plan (Ongoing)

2. FEDERAL AND STATE PROGRAMMING

Project #004-02

(State and Federal Requirements)

The FY 2014-15 SACOG federal and state programming activities will involve administering existing programs and taking advantage of any new funding opportunities.

SACOG will prepare MTIP amendments during this period on a quarterly basis and make administrative modifications to the MTIP. In the early part of the year, work will begin on the adoption of the new 2015-2018 MTIP.

In FY 2014-15, programming activities include participation in guideline development and reviews for the 2015 programming round. This includes liaison work to support partner organizations on programming requirements for both state and federal programming, collaborating with others for developing positions for the reauthorization of a new federal transportation act, monitoring the USDOT implementation of MAP-21 performance provisions, participating with the California Federal Programming Group (CFPG), monitor California Transportation Committee programs, ongoing coordination with the FHWA and FTA, and coordination on programming related topics with PCTPA and EDCTC.

In the summer and fall of 2014, SACOG will evaluate and select projects for the Active Transportation Program Cycle 1. In the fall/winter of 2014 and spring of 2015 preparation activities for the Cycle 2 call for projects will commence. During this time SACOG will continue to monitor and participate in guideline development activities.

In the winter of 2015 and spring of 2015, SACOG will participate, monitor and engage in the selection of projects within the Cap and Trade Program.
In the fall/winter of 2014 and spring of 2015, SACOG will commence all preparation activities for the 2015 funding round. In the spring of 2015 SACOG will initiate a call for projects and engage stakeholders.

SACOG will also continue implementation, improvements, and maintenance of its SACTrak Database. Improvements to SACTrak will place an emphasis on project tracking and monitoring capabilities in addition to the associated reporting and financial management capabilities that the system has in place to assist SACOG in its Designated Recipient role. Hosting and maintenance of the database will be provided by the consultant throughout the fiscal year.

This work will be performed by SACOG staff and a consultant for technical assistance on programming issues and the federal transportation bill.

Tasks and End Products:

a. **Regular MTIP amendments (Quarterly)**
b. **Administrative modifications to the MTIP (Periodically)**
c. Participation and liaison on federal programming with the Federal Highway Administration and Federal Transit Administration (Ongoing)
d. Continued improvements to the SACTrak database (Ongoing)
e. **Evaluate and select projects for federal and state programming to coincide with the Active Transportation Program cycle (Summer 2014, Spring 2015)**
f. Monitor the USDOT implementation of MAP-21 performance provisions (Ongoing)
g. **Develop the 2015-2018 MTIP (Summer-December 2014)**
h. Coordination on programming related topics with PCTPA and EDCTC (Ongoing)
i. **Draft Guidelines for the 2015 programming round (Fall/winter 2014-spring 2015)**
j. **CMAQ Annual Report (Annually, November or December)**
k. **Annual Listing of Obligated Projects (Annually, January)**

3. **REGIONAL TRANSPORTATION MONITORING**

This project involves assembly of observed transportation data collected by others and the coding and integration of that data to make it useful for various other SACOG projects and member agencies. Key observed transportation data are: changes to the region’s roadway, transit, and bikeway systems; vehicle volumes on roadways (traffic counts); transit passenger boardings and alightings; ongoing Census-related surveys (e.g., American Community Survey); special surveys conducted by other agencies (e.g., employee surveys by TMAs and passenger surveys at airports) and research institutions; accident statistics from the State-Wide Integrated Traffic Record Systems (SWITRS); congestion surveys by Caltrans and the Texas Transportation Institute; and speed and volume data from the States Freeway Performance Measurement System (PeMS).

This work will be performed by SACOG staff. This project includes tracking and data assembly, but no major report summary.

Tasks and End Products:

a. **Status report on monitoring efforts (June 2015)**
5. **Passenger Rail Improvements**

(State and Federal Requirements)

SACOG will participate in planning, programming, and operations activities of the Capitol Corridor Joint Powers Authority (CCJPA) through its membership on the Staff Coordinating Group (SCG). The main focus of this participation will be to identify funds and resolve issues related to supporting the current sixteen weekday and eleven weekend round trips and to improve travel times, safety and reliability. In this regard, obtaining additional locomotives and coaches and performing needed upgrades to support Positive Train Control are the highest priority items. The agency will also monitor and participate in the efforts to implement regional rail (i.e., commuter) service between Auburn and Oakland.

SACOG will also participate in the Central Valley Regional Rail Working Group, a collection of Central Valley jurisdictions working with the California High-Speed Rail Authority to enhance regional rail in the Central Valley corridor between Sacramento and Merced. In addition, SACOG will monitor the work of the California High-Speed Rail Authority and provide input to the Authority as it proceeds with its plans for implementing a high-speed rail system between northern and southern California. SACOG staff will actively participate in the planning activities connected with development of the downtown Sacramento Intermodal Project. SACOG will also attend San Joaquin Valley Rail Committee meetings, working with Caltrans and others to enhance the San Joaquin Rail service. Finally, SACOG responds to various passenger rail proposals, which are reviewed for potential connectivity to the SACOG region.

This work will be performed by SACOG staff.

Tasks and **End Products:**

- **Coordination of Capitol Corridor Service with Regional Commuter Rail Proposals (Throughout FY 2014-15)**
- Meeting Reports to SACOG Committees and/or Board on passenger rail development efforts (Periodic)
- Progress Reports on the efforts of the Central Valley Regional Rail Group to implement a regional rail service between Sacramento and Merced (Periodic)
- Progress Reports on the San Joaquin Valley Rail Committee meetings (Periodic)

6. **Connect Card Implementation**

(State and Federal Requirements)

This project is the implementation planning, procurement, and deployment of a regional universal transit fare card system (Connect Card). A new electronic fare system is expected to simplify transit system operations, improve system connectivity, contribute to regional air quality goals, and increase the attractiveness of transit to new patrons.

In June 2011, the SACOG Board approved a contract with a primary vendor for the Connect Card System. The successful conclusion of this contractor selection process began Phase 3 (Implementation) of the project. A memorandum of understanding (MOU) to govern the project through Phase 3 was executed in March 2011. The consortium consists of seven transit operators and SACOG. SACOG is managing the vendor contract on behalf of the consortium. Placer County Transit and SCT/LINK have the option to join the consortium at a later date.
Phase 3 involves full system design, deployment, integration, and testing. This third phase of the project is guided by the Implementation Plan, the System Design Documents, and the MOU. Included in the current phase is the establishment of a regional financial and management clearinghouse, the development of the regional maintenance and supply systems, and the implementation of smart card technology on the participating transit properties. Supporting activities vital to project success include an on-board transit survey, civil engineering work on light rail platforms, and a public education campaign. Full system deployment and acceptance is anticipated by February 2015.

This work will be performed by SACOG staff, consultants hired for system engineering services, partner agency staff, and system vendors.

Tasks and End Products:

a. Factory acceptance testing (August 2013)
b. System pilot (May 2014)
c. System roll out, Phase 1 (Winter 2014)
d. System roll out, Phases 2-5 (Late winter 2014, early spring 2015)
e. RMAT approved/final acceptance (June 2015)

7. TRANSIT TECHNICAL ASSISTANCE AND PROGRAMMING

(SACOG provides general technical and analytical support for the region’s transit operators, as broadly directed by the Transit Coordinating Committee (TCC). Activities may include data analysis, digital mapping, surveys, research, and interagency consultations.

SACOG will continue to execute its role coordinating the award of FTA 5307 funds in the Sacramento Urbanized Area based on the Memorandum of Understanding with Sacramento Regional Transit District.

SACOG will continue to execute its role as the designated recipient for FTA 5307 funds for the Davis, Woodland and Yuba City Urbanized Areas.

In coordination with Caltrans, SACOG will assume administrative responsibilities for programming of Section 5310 funds for this region.

SACOG will continue to review grant funding applications and provide letters of concurrence, review and track fund transfers, and track progress in completing the projects in the individual grant budgets. SACOG will continue to conduct the programming activities necessary to ensure that the projects of region’s transit operators are properly programmed in the SACOG MTIP and MTP/SCS so that the operators can file the grant applications necessary to operate, maintain, and carry out the programs of their systems.

Under the new Transportation Authorization Bill, the Federal Transit Administration will be implementing new guidance and reporting. These will be added as FTA publishes the Notices of Rulemaking. SACOG will continue to review FTA Notices and Rulemakings and implement all necessary procedures consistent with federal guidelines.
SACOG will continue to complete planning and tasks that are related to the former FTA 5316 Jobs Access Reverse Commute and 5317 New Freedom Program grants which have been awarded and programmed for the Sacramento Urbanized Area until those grants are completed. SACOG staff and our legal counsel will work to maintain subrecipient agreements with the Sacramento Urbanized Area JARC and New Freedom awardees to allow grant funds to flow to those successful applicant agencies and organizations, and complete the required reporting to the FTA.

SACOG’s TCC will continue to serve as the FTA fund programming committee associated with the SACOG/transit operator MOUs and will prepare the recommended project lists for SACOG Board action in the MTIP and RTIP programming process. Through the TCC, SACOG will continue to improve the integration of financial planning and the development and integration of short-range transit planning with the region’s long-range transportation plan.

This work will be performed by SACOG staff.

Tasks and **End Products:**

a. **Annual FTA fund programming process (5307, 5339, 5310) (June 2015)**

b. Administer the FTA 5307, 5310, 5337, and 5339 grants in the SACOG Region (Ongoing)

9. **CONNECT CARD ON BOARD TRANSIT SURVEY**

   **Project #004-09**

   (Federal Requirement)

   This project will provide transit operators with important transit ridership information, including rider demographics and travel behavior. Surveys will be administered both before and after the Connect Card is implemented. The surveys will provide insight into whether the smart card conversion process and project inadvertently affected disadvantaged communities and will, therefore, help inform transit operators. Additionally, the surveys will reveal the types of riders on the system both before and after the smart card implementation, providing useful information about different types of ridership increases and/or decreases. This information will support education, outreach, marketing, and other efforts. This is a multi-year project.

   This work will be performed by a contractor yet to be determined.

Tasks and **End Products:**

a. Staff will actively manage contract and contractor’s work (Ongoing)

b. Staff will work with transit partners to interpret and apply phase 1 survey results (Ongoing)

c. Contractor will work with staff and transit operators to revise survey instrument (February 2015)

d. **Revised survey instrument (March 2015)**

e. Contractor will collect on-board survey data (October-November 2015)

f. Contractor will enter data, clean up, compile and correct records (January-February 2016)

g. **Contractor will submit a technical memo (April 2016)**

h. **Contractor will submit an analysis of survey results (May 2016)**
**Element 005: Land Use and Housing Planning**

**Objective:** To promote meaningful public discussions and provide planning, analysis, and other technical support to housing and land use efforts in the region. These land use activities are designed to gather data and information from around the region to further the activities of MTP/SCS 2035 implementation and to set the stage for the next MTP/SCS update.

**Discussion:** This element will continue the updating of current and alternative future land use patterns and their impacts on the transportation system; provide the technical monitoring data for analysis critical to that planning; and complete the housing allocation plan for the region. One key project for this fiscal year will be the continuation of work begun last year on a rural-urban connections study to develop regional policies and tools to sustain the economic health and quality of life for the region's rural areas, as well as assess the transportation needs of the rural areas within the SACOG region. Also included is the continuation of the work related to the Airport Land Use Commission and new Airport Land Use Compatibility Plans.

**Projects:**

1. **Sacramento Region Blueprint Implementation**  
   (Local Agreement)  
   SACOG staff will continue providing support for ongoing regional Blueprint implementation efforts to its member agencies. This will include providing educational presentations on the Blueprint (as requested), responding to Blueprint data and information requests, and maintaining the Blueprint website. SACOG will organize up to six two-hour weekday workshops/meetings geared toward local government, planning, and public works staffs on topics of Blueprint implementation, including the MTP/SCS, the Regional Housing Needs Allocation and other Blueprint-related subjects. Topic areas will be developed in consultation with the Planners Committee.

   SACOG staff will continue, at the request of a jurisdiction, to review and comment on major developments and their alignment to Blueprint principles. These developments are in various stages of the development review process. In most cases, SACOG staff examines modeling data from SACSIM, then summarizes in a comment letter how the idea or site plan compares with the Blueprint. Sometimes this service includes meetings with local government staff and/or representatives from the applicant and/or public testimony at the council/board hearing for the project. SACOG will also continue to coordinate with the other area Joint Powers Authorities (JPAs) and transit districts that frequently comment on development proposals.

   This work will be performed by SACOG staff.

   **Tasks and End Products:**
   a. Blueprint presentations, response to data and information requests, maintain website content (Ongoing)
   b. Review of development proposals (Upon request)
   c. Planners Committee meetings/seminars on Blueprint Implementation and topics of regional interest (Up to six during the year)
   d. Development review letters (Upon request)
e. Develop Blueprint implementation materials and website information to assist local jurisdictions in Blueprint implementation (Ongoing)

2. **REGIONAL LAND USE MONITORING**  
   **Project #005-02**  
   (State and Federal Requirements)  
   This project maintains up-to-date inventories of available data on housing, employment, land use, and local agency general plans in the region. The inventories developed under this project are primarily for internal use but in this fiscal year staff will be exploring their application in both member services and shared services projects. The ongoing monitoring programs included in this project integrate the housing, employment, and general plan information with parcel data sets and land development economic data. In this fiscal year, staff will explore enhancements to the employment monitoring program that could provide more frequent updates to information used by our members for general plan monitoring.

This work will be performed by SACOG staff and by a consultant for metro study housing data.

Tasks and **End Products:**

a. **Information and research for agencies and the public (Available upon request)**

3. **REGIONAL HOUSING NEEDS PLAN**  
   **Project #005-03**  
   (State Requirement)  
   State housing element law requires each council of governments to prepare a Regional Housing Needs Plan (RHN) for all cities and counties within its jurisdiction. The RHN provides each city and county with a measure of its share of the region's projected housing need by household income group over the eight-year period of each jurisdiction's updated housing element. The fifth cycle of the RHN (2013-21) was adopted in September 2012 and jurisdictions are now implementing their associated housing elements. The emphasis in FY 2014-15 will be to assist local jurisdictions with meeting their housing element requirements as needed, through compiling required growth projection data, built residential data, and other information.

This work will be performed by SACOG staff.

Tasks and **End Products:**

a. **Website with technical resources to assist in development of housing elements (Ongoing)**

4. **COMMUNITY DESIGN PROGRAM**  
   **Project #005-04**  
   (Local Agreement)  
   SACOG will develop and prepare for the seventh round of program funding. The program may evolve and be more integrated with the other SACOG funding programs. Staff will also continue monitoring and assisting with the grants distributed in the six rounds of funding in prior years. This upcoming cycle will place an emphasis on smart growth implementation, appropriate timeline programming and delivery. The seventh round (2015) of programming guidelines will be initiated in winter of 2014 and likely released in mid-2015.

This work will be performed by SACOG staff.
Tasks and **End Products**:

a. Monitoring of awarded projects (Ongoing)

b. *Draft Guidelines for the seventh round (2015) of program funds (Fall/winter 2014-spring 2015)*

5. **RURAL-URBAN CONNECTIONS STRATEGY**

(Boad Policy)

The Rural-Urban Connections Strategy (RUCS) is a mitigation measure and Transportation Control Measure for the MTP/SCS 2035 and a complementary effort to Blueprint implementation. It approaches the region’s growth and sustainability objectives from a rural perspective, emphasizing the challenges and opportunities in rural areas. The project is developing policy recommendations and technical tools to support local and regional objectives for enhancing agriculture and rural economies, resource conservation, recreation, quality of life, and regional sustainability. Working groups have informed the study of challenges, opportunities, innovations, and implementation strategies for issue areas including land use, transportation, regional markets/agritourism, and forestry. Reports from these working groups draw upon local and national case studies to demonstrate potential for various innovations and strategies. The project continues to build on this foundation, and case studies have been initiated to apply tools that are being developed to evaluate and compare scenarios. Additional topics, including water, labor, processing, distribution, forestry and regionally-produced food demand will continue into FY 2014-15. Research findings will be presented to the SACOG Board, including elected representatives of the six-county region, to address growth and sustainability objectives for rural areas. Data and modeling support is needed to evaluate and compare strategies. These activities will support Board policy discussion, inform local governments, and support the continued development of a “toolkit” of policy, planning, funding, regulatory, economic, data, and modeling techniques that can be used to implement the innovations.

This work will be performed by SACOG staff and by consultants for studies related to the RUCS project, public outreach activities, and infrastructure cost model.

Tasks and **End Products**:

a. Collect or create data and maps to support the project (Ongoing)

b. Conduct specific research as needed to support the project and its partners (Ongoing)

c. Outreach and collaboration with regional stakeholders and other stakeholders outside the region (Ongoing)

d. *Data, maps, and modeling to support the project (Ongoing)*

e. *Reports on innovations and strategies for rural sustainability (Ongoing)*

f. *Toolkit of policy, planning, funding, regulatory, economic, and modeling techniques (Ongoing)*

g. *Case studies with local jurisdictions and stakeholders (Ongoing)*

h. *Research on regulations affecting agriculture and forestry (Ongoing)*

i. *Research on recreation and related economic development opportunities (Ongoing)*
6. **AIRPORT LAND USE COMMISSION (ALUC) GENERAL**

(SACOG is the designated ALUC for Sacramento, Sutter, Yolo, and Yuba counties and is responsible for developing and maintaining Airport Land Use Compatibility Plans (ALUCPs) for the areas around each airport and for working with cities and counties to ensure consistency between the ALUCPs and local land-use decisions. Staff will continue to review development proposals for consistency with adopted ALUCPs and provide consistency determinations for member cities and counties. During the fiscal year, regional airport operators may request SACOG to update the Airport Land Use Compatibility Plans for their airports. Such updates will be added as contracts.

This work will be performed by SACOG staff.

Tasks and **End Products**:

a. **Consistency reviews of development proposals (Ongoing)**

9. **RURAL-URBAN CONNECTIONS STRATEGY/SUSTAINABLE COMMUNITIES STRATEGY IMPLEMENTATION**

(SACOG, Strategic Growth Council Grant)

The Sacramento Region is planning for sustainable communities, from the urban centers to rural edges in the region. This project includes work activities that address goals of Senate Bill 375 and Assembly Bill 32, including creating economically, environmentally, and equitably sustainable rural communities with direct and indirect land use benefits throughout the entire region. A Strategic Growth Council grant award is being used as part of SACOG’s implementation of the Sustainable Communities Strategy. In line with SACOG’s approach of balancing urban growth planning with rural economic and environmental sustainability, work for this project will mainly focus on ways to support the agriculture industry and rural communities.

Building upon the RUCS project (project #14-004-05), the work assesses ways to support agriculture with employment, housing, transportation, infrastructure, and access to services. Distribution and processing infrastructure needs are being determined, and feasibility and pro forma work will help craft strategies for deploying facilities. Project work also includes supporting rural communities with tools to assist in quantifying cost and fiscal constraints of infrastructure and service improvements. The project also includes analysis of regional food deserts and steps towards implementing diet surveys to identify market demand in the six-county area for regionally-produced food. This work seeks to expand food access to reduce the occurrences of food deserts.

This work on enhancing rural economic viability is supported by additional tasks covered by the grant. Support will come from work on CEQA streamlining, which will design a tiering instrument and toolkit by and for local partners and stakeholders. SACOG will also conduct any needed outreach for the update of the MTP/SCS and develop an inventory of local land use plans in the region to help monitor implementation of the SCS.

Other work includes data development and research on an I-80/Capitol Corridor Strategic Plan. This plan will address goods movement and strategies to reduce interregional VMT, including smart growth land use policies along the corridor. The work will help coordinate air quality, land use, and travel demand assumptions and models for each region. Other work includes assembling rural policies and plans into a toolkit to help jurisdictions with land use plan updates that protect agricultural lands and reduce VMT.
This work will be performed by SACOG staff.

Tasks and End Products:

a. Identify unmet demand for healthy locally grown food (May 2012 – June 2013)

b. Determine needs for agriculture infrastructure to support more regionally consumed food (June 2012 – March 2014)

c. Identify needs to support adequate agricultural labor in the region (May 2012 – May 2013)

d. Determine agricultural labor needs (May 2012 – August 2013)

e. Determine infrastructure and service needs for rural communities and estimate the cost and sources of revenue (July 2013 – March 2014)

f. Build CEQA Streamlining/Tiering tools (July 2013 – September 2013)

g. Conduct Public Outreach & Visualization (Ongoing)

h. Create organized system for displaying, reporting and accessing data used in creation and update of the MTP/SCS (January 2014 – July 2014)

i. Collect and analyze adopted and proposed land use plans (October 2013 – July 2014)

j. Develop scope of work to implement survey of diets for various community groups and a regional food consumption summary (May 2012 – June 2013)

k. Food desert profile report (May 2012 – December 2013)

l. Inventory of current processing and distribution facilities and assessment of facilities that can be supported by various regional crop production patterns (June 2012 – August 2013)

m. Performance measures, funding strategies, and gap assessment to implement the Agricultural Worker Transportation Program (July 2012 – December 2013)

n. Estimate number of agriculture laborers needed and location of that demand for current crop production and agriculture infrastructure as well as for scenarios (May 2012 – December 2013)

o. Work with rural communities, counties, and housing agencies to assess infrastructure needs, costs and municipal revenues for rural communities and other locations where agricultural facilities and labor housing may be sited (July 2013 – March 2014)

p. A CEQA tiering instrument and toolkit designed by SACOG and its public and private sector partners to design an instrument that is objective and consistent with the SCS (July 2013)

q. Public outreach for update of the MTP/SCS as needed (Ongoing)

r. Database for displaying reporting and accessing data used in creation and update of the MTP/SCS (July 2014)

s. Inventory of local land use plans in SACOG region (July 2014)

11. AIRPORT LAND USE COMPATIBILITY PLAN/SACRAMENTO COUNTY/MCCLELLAN FIELD

The Airport Land Use Compatibility Plan (ALUCP) for McClellan Field will be updated for the first time since 1992. The ALUCP for McClellan has been ongoing and is expected to be completed and adopted during FY 2014-15. The updated plan will consider current and project airports operations, airport layout, noise impacts, and the county’s draft General Plan update.

This work will be performed by SACOG staff, partner agencies, and consultants.
Tasks and End Products:

a. **Draft updated ALUCP for McClellan Field (December 2014)**
c. **Final adopted McClellan ALCUP (June 2015)**

13. **SPECIALTY CROP BLOCK GRANT #2**  
*Project #005-13*

(Board Policy)

The purpose of this element is to estimate a set of economic multipliers under various conditions that will capture the economic impact of specialty crops up and down the supply chain. The model will include revenue, input purchases, taxes, job creation and regulatory costs. Specialty crop groups and individual growers have identified a disinvestment in infrastructure and an increasingly challenging regulatory environment as threats to the future competitiveness of California specialty crop production. This is due in part to a lack of appreciation for the economic impact of specialty crop production and underestimate of economic multipliers because they do not effectively capture all economic activity. This element develops a model that attempts to accurately reflect the full range of economic contributions from specialty crops and their ancillary industries, and the true cost of regulatory compliance. SACOG will develop a set of multipliers using various scenarios that test three key components of defining the industry: (1) type and amount of production inputs and regulations; (2) output and diversity of market opportunities; (3) level of marketing and input purchasing within versus outside the SACOG region. Reports and presentations will be assembled to effectively communicate the economic impact of specialty crop production to a wide audience.

This work will be performed by SACOG staff and by consultants for studies related to the RUCS project, public outreach activities, and infrastructure cost model.

Tasks and End Products:

a. Review of existing economic impact research and multiplier models
b. Build outreach list of key specialty crop food-chain stakeholders (i.e. growers, input suppliers, processors, distributors)
c. Hold workshops with local elected officials and their staff to capture current understanding of economic impact of specialty crops and ancillary industries
d. Hold workshops with specialty crop stakeholders to establish existing conditions including employment, wages, input purchases, sales, and regulatory cost. With stakeholders, develop scenarios (changes in type and amount of inputs and regulations, market opportunities, and activity within and outside of the region) to estimate a range of multipliers for various future conditions.
e. Conduct analysis of economic impact of specialty crop industries (up and down the food system) using a range of multipliers
f. Hold workshops to solicit work product feedback from key stakeholders
g. Incorporate feedback and finalize economic impact models
h. Assemble final report and conduct final workshop; report to SACOG board and other interested parties.
i. Present findings to stakeholders and local jurisdictions
j. **Reports on research of existing economic multiplier data and models (January 2015)**
k. **Data and economic multiplier models to estimate the impact of agriculture on the region’s economy (June 2015)**
l. **Scenarios and analysis to compare various food production and food system economic opportunities (October 2016)**
m. **Reports and presentations on project milestones and stakeholder feedback (Ongoing)**
15. **CONNECTOR REGIONAL OPEN SPACE INVENTORY PLAN**  
*SACOG’s role in a range of natural resources work, particularly HCP, water resources and flood issues, continues to evolve. In addition, SACOG has a commitment—included in the MTP/SCS—to develop a regional open space plan. Given the range of current and future work, SACOG will secure ongoing natural resources consulting services to support SACOG staff. The project will provide review and advice to SACOG and the SACOG Board of Directors on a range of projects and programs relating to natural resources activities in the SACOG region. This work is being augmented with funding from a dispute settlement between the Capital South East Connector Authority and the Environmental Council of Sacramento. The settlement generally provides that the Connector Authority will contribute $300,000 to SACOG for the development of a Regional Open Space Inventory/Plan, with up to $50,000 for the study of alternative funding sources for advance mitigation acquisition.***

**Tasks and End Products:**

a. Through SACOG staff and consulting services, monitor natural resources activities and advise Board members and other designated personnel, as needed, of natural resources and land conservation projects, programs, or regulatory changes that may affect SACOG or member agencies (Ongoing)

b. Identify environmental and land conservation programs, projects and regulations that affect agricultural industries in the region (Ongoing)

c. Convene regional stakeholders and facilitate meetings to craft a regional open space plan (Ongoing)

d. Represent SACOG interests with state and federal natural resources agencies to advance a regional open space effort (Ongoing)

e. **Stakeholder meetings, including meeting materials, notes, and summaries of outcomes** (Ongoing)

f. **Inventory of existing natural resource data and gap assessment** (February 2015)

g. **Open space plan including, goals and objectives, planning strategies and documents** (June 2016)

16. **BASE YEAR UPDATE (2012)**  
*(State and Federal Requirements)*

As part of its role in analyzing the combined effects of land use patterns and phased investments in transportation infrastructure and services, SACOG must establish, consistent, comprehensive and complete datasets quantifying and describing land use, transportation, and demographic characteristics of the region. A major task in this process is periodic updates to the data files representing the base year for forecasting analysis. For the MTP/SCS under development for adoption in 2016, the base year will be 2012. This project includes staff time and resources to start the land use, demographic, and transportation datasets representing conditions in 2016. These base year data files provide the basis for creation of future year data files which capture land use growth and development, changes to key demographic factors, and planned investments in the region’s transportation system. In addition to the use of the data files by SACOG for the MTP/SCS update, these data files are available for use by local member agencies for local planning purposes. This year, staff will start the Employment Inventory file with a 2015 dataset to with a minor update in 2016.

This work will be performed by SACOG staff.
18. **SACSIM15 DEVELOPMENT**

(State and Federal Requirements)
This project includes SACOG staff time for completion of development of the Sacramento Regional Travel Demand Simulation Model (SACSIM). SACSIM15 is the version of the model which will be used for the analysis of the planned update of the MTP/SCS in 2016, and will be the next version of the model released to member agencies for use in transportation demand analysis of their local projects. This project includes staff time to complete documentation for SACSIM15.

This work will be performed by SACOG staff.

Tasks and **End Products:**

a. 2015 Base Year Employment File (June 2016)

20. **DELTA PROTECTION COMMISSION CASE STUDY**

(Board Policy)
As part of the Rural-Urban Connections Strategy work, the Sacramento Area Council of Governments (SACOG) has been building data and models to help answer questions about how to stimulate economic development in rural communities, and expand market opportunities for agricultural producers. Regional stakeholder outreach revealed that a major impediment to expansion in the agricultural sector is a lack of infrastructure, including distribution, aggregation, and storage. SACOG has developed tools to test the feasibility of these enterprises, collectively called a “food hub.” The toolkit includes data on the food system costs and market prices for food products.

This project will employ those tools to conduct a food hub feasibility analysis for the portions of Sacramento and Yolo counties in the legal Delta. The work will involve developing data specific to the study area, which will be used for economic modeling. The project will also examine a key consumer market, the San Francisco Bay Area, to which the Delta is strategically located to capitalize on growing demand for locally grown food, in addition to the Sacramento region. Scenarios will be analyzed to demonstrate possible strategies that Delta stakeholders (member jurisdictions, partner agencies, non-profits, agricultural businesses and investors) may explore for food system economic development.

This two-year project will be performed by SACOG staff and consultants.

Tasks and **End Products:**

a. Build the field-level datasets needed to establish “existing conditions” of the Delta’s agriculture
b. Conduct analysis of potential market opportunities, particularly demand for locally grown food in the San Francisco Bay Area
c. Assess existing and excess capacity for aggregation, distribution, processing, and capacity for marketing, including in-depth analysis of existing wholesale distributors
d. Use food hub cost estimates to determine the type and amount of investment needed to advance a food system in the Delta oriented toward local market demand
e. Synthesize the results of the market analysis and facility cost analysis to estimate the demand for a range of crops
f. Develop scenarios and sensitivity analysis to help users select the most desirable food system models for their communities
g. Assemble reports describing project work, with assumptions, pro-forma analyses and findings
h. Present findings to stakeholders and the SACOG board
  i. *Field-level datasets of crop types, cost and return data, soil type, and water availability* (June 2015)
  j. *Agriculture economic analysis model and documentation describing parameters, operating assumptions, existing food system infrastructure capacity, and data gaps* (October 2015)
  k. *Feasibility analysis toolkit* (October 2015)
  l. *Estimate of crop demand (type and amount), acres of production for local markets, and feasibility of crop production for local markets* (January 2016)
  m. *Scenarios and analysis of model results* (March 2016)
  n. *Draft and final reports* (June 2016)
This page intentionally left blank.
**Element 006: Metropolitan Transportation Plan Planning**

**Objective:** To build and document consensus in a dynamic forum on policies, strategies and projects to address the transportation needs of the region and to balance state and federal mandates with the needs and interests of our member jurisdictions.

**Discussion:** This element brings together the various projects that directly support the development of the new Metropolitan Transportation Plan/Sustainable Communities Strategy (MTP/SCS). Ongoing work in various other transportation planning, research, and analysis activities will continue under other work elements.

**Projects:**

3. **2016 Metropolitan Transportation Plan/Sustainable Communities Strategy Regional Environmental Impact Report**

(State Requirements and Board Policy)

A program-level Environmental Impact Report (EIR) for the 2016 MTP/SCS will be developed in compliance with the California Environmental Quality Act (CEQA). The purpose of the EIR is to provide local decision-makers and the public with an objective analysis of the potential environmental consequences of the implementation of the MTP/SCS. The EIR will also be developed within the SB 375 framework so that projects consistent with the MTP/SCS qualify for relief from some CEQA requirements.

The Regional EIR will examine environmental impacts in the context of regional transportation and land development. While the MTP/SCS is not subject to the National Environmental Policy Act (NEPA), subsequent federally-funded individual projects or projects requiring federal approval will require a NEPA evaluation. It is anticipated that the program-level EIR will help to expedite subsequent project-level NEPA and CEQA studies and approval of those projects by completing initial environmental analyses that can be tiered in subsequent project-level environmental reviews.

This work will be performed by SACOG staff and consultants.

Tasks and *End Products:*

- *Draft Regional EIR (September 2015)*
- *Final Regional EIR (February 2016)*

4. **Metropolitan Transportation Plan/Sustainable Communities Strategy Planning and Implementation**

(State and Federal Requirements)

The 2016 MTP/SCS update will be prepared for a planning horizon year of 2036. It will include the development of plan alternatives, policies and strategies, project lists, a financial plan, and a Sustainable Communities Strategy and/or Alternative Planning Scenario that aligns with the outcomes from the technical scenario and outreach efforts. SACOG’s member and partner agencies, advisory committees and stakeholders will be involved in each phase.

The technical analysis of the MTP will use the land use and travel demand models to test the various components of the plan and apply the range of performance measures to them. Staff will scale the level of infrastructure, maintenance, operational, and programmatic investments in the plan to be
consistent with the revenue assumptions contained in the financial plan. A preferred scenario will be defined with transportation projects, land use development patterns, and regional policy options that reflect the input of the SACOG Board of Directors, the general public and stakeholders, and local member and partner agencies.

To support the MTP/SCS update, SACOG will facilitate a public outreach and education component to coincide with the preparation of technical research and planning. Effective transportation decisions cannot fully meet community needs without the active participation of well-informed, empowered individuals, community groups, and other nongovernmental organizations such as businesses and academic institutions.

This work will be performed by SACOG staff in close cooperation with regional partners, continuing from work and coordination started in FY 2013-14.

Concurrently, SACOG will continue to support local jurisdictions interested in pursuing SB 375 CEQA benefits that are available through the adopted 2012 MTP/SCS.

Tasks and End Products:

a. Support local jurisdictions interested in using the MTP/SCS to take advantage of the CEQA streamlining benefits in SB 375 with data and modeling tools, as applicable (Ongoing)
b. Support local implementation of the MTP/SCS principles with technical planning assistance, as requested (Ongoing)

c. Technical memoranda on Scenario Development Process (Available upon request)
d. Land Use and Transportation Databases (Available upon request)
e. Outreach and education materials to support all public events and provide baseline education pertaining to the MTP/SCS (Ongoing)
f. Draft 2016 MTP/SCS (September 2015)
g. Final 2016 MTP/SCS (February 2016)

6. Integrating Health into the Metropolitan Transportation Plan/Sustainable Communities Strategy

The Sierra Health Foundation and The California Endowment have partnered with SACOG to fund research, analysis, and a stakeholder process to better understand the relationship of public health and the Metropolitan Transportation Plan/Sustainable Communities Strategy, and to assess new health metrics that could be included in the next plan.

This work will be performed by SACOG staff, with consultation from grant managers at the Sierra Health Foundation and The California Endowment.

Tasks and End Products:

a. Convene advisory group (December 2014)
b. Host national speakers panel with experts on key related topics (February 2015)
c. 2016 MTP/SCS Update Public Participation Evaluation (February 2015)
d. Create summary document on completed equitable development work in the region (February 2015)
e. Draft scope of work for Phase II (February 2015)
7. **SGC #3 – TASK 1 A/B REVITALIZATION TECHNICAL ASSISTANCE**  
   (State of California Strategic Growth Council Grant, Round 3)  
   This grant-funded activity will provide technical assistance to cities and counties in the region on compact development and revitalization strategies. Assistance is targeted to MTP/SCS-designated “Centers and Corridors” which include downtowns, main streets, small town centers, central business districts, commercial corridors, compact infill sites and Transit Priority Areas and designated as “Established Communities”, which include older and inner ring suburban areas.

The assistance is offered by SACOG staff and the Portland State University Urban Sustainability Accelerator Program.

Tasks and **End Products:**
- a. Confirm technical assistance and expertise needs (December 2014)
- b. Provide technical assistance to remove barriers to revitalization and intensification in Centers, Corridors and Established Communities (Ongoing)
- c. **Quarterly status reports on overall project status (Quarterly)**
- d. **Summary of technical assistance provided and recommendations and implementation outcomes resulting from assistance. (January 2017)**
- e. **Other deliverables as required for grant (As determined)**

8. **SGC #3 – TASK 1C ACTIVE DESIGN/TRANSPORTATION ASSISTANCE**  
   (State of California Strategic Growth Council Grant, Round 3)  
   This grant-funded activity will provide technical assistance to cities, counties, developers, public health staff and interests, advisory councils/neighborhood groups, and other stakeholders on advancing healthy communities through active design/transportation policies, plans and implementation. The assistance is offered by SACOG staff, traffic engineering experts, Sacramento County sustainability and public health staff, WALKSacramento and Design 4 Active Sacramento.

Tasks and **End Products:**
- a. Provide technical assistance (Ongoing)
- b. **Quarterly status reports on overall project status (Quarterly)**
- c. **Summary of technical assistance provided and recommendations and implementation outcomes resulting from assistance. (January 2017)**
- d. **Other deliverables as required for grant to be determined (As determined)**

9. **SGC #3 – TASK 2 COMMUNITY REVITALIZATION & CAPACITY BUILDING IN DISADVANTAGED COMMUNITIES**  
   (State of California Strategic Growth Council Grant, Round 3)  
   There are two case study focus areas under Task 2 of the Strategic Growth Council (SGC) Round 3 grant. The two study areas are inclusive of Sacramento County and City neighborhoods in the north and south areas that are identified as MTP/SCS environmental justice communities and included in Cal EnviroScreen’s top 20 percent of disadvantaged communities statewide.

The case studies will result in community capacity building and tangible studies to improve infrastructure needs in these communities.

This work will be performed by The Center for Public Interest Design and SACOG.
Tasks and *End Products*:

a. Community investigations including review of existing and historical planning efforts (June 2014)
b. Resident and stakeholder interviews (June 2015)
c. Engagement of local residents (May 2015)
d. *Feasibility study for the reuse of Maple School (December 2015)*
e. *Pop-up tactical urbanism events in both study areas (December 2015)*
f. *Feasibility study for long term revitalization of Marysville Blvd. and Grand Avenue (December 2015)*
**Element 007: Member, Agency, and Transportation Services**

**Objective:** To inform local government decisions with impacts to the region’s transportation system, SACOG provides core services to its member jurisdictions, local cities, and counties. The agency is responsible for planning, funding, and supporting transportation project delivery within federal requirements for reducing vehicle miles traveled, air quality emissions, and some consideration for impacts of transportation and land use on greenhouse gases. Beyond the core transportation services, there are a variety of data collection, analysis, and regional services that SACOG is in a position to provide to local governments at an economy of scale based on the shared interests of the region’s local governments.

**Discussion:** This element supports projects that include planning consideration for regional amenities such as: Airports, STARNET, Intelligent Transportation Systems Operations, Transportation Development Act Administration, 511 Services, Rideshare Services, I-PLACE’s and SACSIM Training, Transit Assistance, Integrated Basemap Program, Sacramento Emergency Clean Air and Transportation Program, Regional Information Center, Climate Action Planning, Transit Trip Planning, Civic Engagement Grants, Airport Land Use Commissions, McClellan Airport Land Use Compatibility Plan Update, Multi-Agency Project Study Reports, Capitol Valley Service Authority for Freeways and Expressways, Glenn County Service Authority for Freeways and Expressways, and Safe Routes to School.

This element includes reinforcing relations with our member jurisdictions, public agencies, and service providers within the six-county area by regularly monitoring websites, agendas, and public meetings and maintaining a staff presence on projects and issues related to our core policy areas. Staff will continue to provide regular updates to all interested government agencies and elected officials on SACOG Board actions and staff activity and attend regular meetings with jurisdictional staff through advisory committees and regional city and county managers groups. It includes identifying areas of shared needs for new data collection, analysis, and research services to help inform member jurisdiction staff and elected officials. This element may also include pursuing a financing structure or shared staff positions for areas of common interest and need.

**Projects:**

1. **Project Delivery**  
   (State Requirement – Board Policy)  
   Project #007-01

   The emphasis for FY 2014-15 will be to continue to foster timely use of funds, provide assistance to member jurisdictions in delivering projects, and improve project readiness. Managing project delivery in the region will ensure that projects in the Metropolitan Transportation Improvement Program (MTIP) reflect the regional priorities established in the MTP/SCS. In addition, state legislation has established provisions concerning timely use of funds for projects adopted into the State Transportation Improvement Program (STIP), Active Transportation Program (ATP), and for federal funding programmed by the local agencies. SACOG will ensure that project delivery is successful by assisting project sponsors through the project scoping, environmental, design, right-of-way, and construction phases of these projects. Particular emphasis will be placed on large scale projects with the potential to be delayed by environmental issues.

   In cooperation with the project sponsors, SACOG will track projects and ensure that appropriate funding is available to ensure timely completion. As it has since 2004, SACOG will aggressively
work with project sponsors to ensure that all state and federal projects ready for delivery are delivered, irrespective of the years they are programmed, to ensure maximum use and benefit from federal and state funds. Reports will be made to the SACOG Board, regional partners, and the state on the status of projects.

In FY 2014-15, project delivery work will include review of requests for fund allocations, time extensions, STIP amendments, ATP programming, and participation at the CTC, RTPA, and Rural Counties Task Force meetings. Additionally, SACOG will work with SACOG Proposition 1B bond project sponsors to raise the likelihood that all projects are delivered. Periodic workshops will be developed and presented as needed throughout the region.

This work will be performed by SACOG staff.

Tasks and **End Products**:

- a. Workshops and training sessions (Available upon request)
- b. Tracking and monitoring projects for delivery issues and timely use of funds (Ongoing)
- c. Attendance at RTPA, RCTF and CTC meetings (Ongoing)
- d. Reports on delivery status for Regional Surface Transportation, Congestion Management and Air Quality, Active Transportation, State Transportation Implementation programs (Available upon request)
- e. Approved STIP allocation requests (When submitted by sponsoring agencies)
- g. *Annual Obligation Plan to Caltrans for 2015 Delivery (April 2015)*

**2. REGIONAL INFORMATION CENTER**

**Project #007-02**

(Federal Requirement – Board Policy)

SACOG provides information for public access through three channels: the Information Center staff, the SACOG library, and our electronic media, including a recently expanded and updated Regional Information Center website funded by a portion of the Strategic Growth Council (SGC), Round #2 for Sustainable Communities Strategy (SCS) Implementation. The library is primarily used by SACOG staff, but outside users may also view materials. Electronic media include SACOG’s website and e-mail. The Information Center receives most of its data requests by telephone and e-mail, but occasionally users visit in person. Available information ranges from current estimates and forecasts of detailed demographics including population and employment characteristics, to detailed U.S. Census data on areas within the region and beyond. SACOG’s Information Center staff also provides references to data and sources of information available at other organizations as well as serving as the Sacramento Regional Census State Data Center (SDC) in the U.S. Census Bureau’s SDC Program. SACOG works with the U.S. Census Bureau, local agencies and the public on all census-related issues in the region.

Much of SACOG’s information is available in both written and electronic format for the convenience of the person requesting it. SACOG staff has added new data profiles and an interactive data viewer to the agency’s updated and expanded web-based information center tools. The information is updated regularly as needed.

This work will be performed by SACOG staff and by independent auditors.
Tasks and End Products:

a. Data summaries (Available upon request)
b. Updated and expanded website (Available upon request)

3. TRANSPORTATION DEVELOPMENT ACT ADMINISTRATION

As the Regional Transportation Planning Agency (RTPA) for 4 counties and 15 cities, SACOG provides the review and approval of claims submitted for authorized uses. As part of this process, SACOG prepares and releases Findings of Apportionments for Local Transportation Funds and State Transit Assistance funds.

SACOG conducts the annual unmet transit needs process with public hearings throughout the RTPA region regarding transit needs and supports the development of short-range transit plans to assist in defining unmet transit needs. Based on hearing results, SACOG performs analyses of transit needs to determine whether or not they are reasonable to meet using adopted SACOG criteria. Meetings are held with the Sutter, Yuba, Yolo, and Sacramento County Social Service Transportation Advisory Councils to receive input on the staff analysis. Findings and recommendations are then made to the SACOG Board.

SACOG is also responsible for providing necessary annual fiscal and triennial performance audits of all claimants.

This work will be performed by SACOG staff and independent auditors.

Tasks and End Products:

a. Approve claims and file documentation (Processed as requested)
b. Newspaper notices, fliers, and posters (November 2014)
c. Minutes of Social Service Transportation Advisory Council Meetings (Based on meeting schedule)
d. Fiscal and compliance audits of all claimants (January 2015)
e. Local Transportation Fund (LTF) Findings of Apportionment for FY 2015-16 (February 2015)
f. Unmet Transit Needs Findings for each jurisdiction (February 2015)
g. STA Findings of Apportionment for FY 2015-16 (February 2015)

6. 511/STARNET CAPITAL IMPROVEMENTS

The SACOG 511/STARNET Capital Improvements project will continue to develop and deploy modules for the purpose of regional coordination and data collection and for providing traveler information. These activities will be coordinated with our regional partner agencies through the Intelligent Transportation Systems committee.

This work will be managed by SACOG staff, and the programming will continue as part of the contract with Castle Rock Associates. It is anticipated that this work will reach conclusion in this 2014-15 budget cycle and be transitioned to an operational contract. The funds for this work have been fully encumbered as of the 2009-10 fiscal year.
Tasks and **End Products:**

a. Continued discussion of design and deployment options with partner agencies within the Intelligent Transportation Committee (Ongoing)

b. Manage contract with Castle Rock Consultants (Ongoing)

c. Continued interaction with partner agencies as modules are developed for specific individual applications. Review of Interface Control Documents (ICDs), Concept of Operations (ConOps) Testing, and Verification Plans (Ongoing)

d. Develop Testing and Verification Plans for each delivered element (Ongoing)

e. Identify future opportunities with additional partner agencies and within the design contract to best serve the needs of the public (Ongoing)

f. **STARNET and 511 website deployment for data input and display to the public (Ongoing)**

g. **511 telephone system incorporating real-time data as input by partner agencies in STARNET application (Ongoing)**

### 7. TRANSPORTATION DEMAND MANAGEMENT

*(Board Policy – Local Agreement)*

SACOG’s Regional Transportation Demand Management (TDM) program promotes alternative mode use (carpooling, vanpooling, public transit, bicycling, walking, and telecommuting) for all types of trips and supports planning efforts that support those modes. SACOG provides region-wide Internet ridematching and alternative mode information through the 511 telephone number and website. Outreach is done primarily through outreach partners (transportation management agencies and public agencies that work directly with employers and the public). The emphasis for FY 2014-15 will be on working with the TDM Task Force to market alternative modes through the 511 phone system and website. Staff support will be provided to the Task Force and its subcommittees, which will advise SACOG on the TDM program and on other related issues. SACOG will continue its role in planning and coordinating the Sacramento Regional *May Is Bike Month* campaign. For FY 2014-15, campaigns are planned throughout the year in addition to ongoing ride matching and TDM information services. Staff will also monitor memoranda of understanding with each of the transportation management associations that receive SACOG TDM outreach funds.

This work will be performed by SACOG staff and the local transportation management organizations.

Tasks and **End Products:**

a. TDM Task Force meetings (Ongoing)

b. Brochures and incentive items (Ongoing)

c. Contract for rideshare database services (Ongoing)

d. Contract for call center services (Ongoing)

e. Coordinate regional behavior change campaigns such as *May Is Bike Month* (Ongoing)

f. **Wrap-up report for May Is Bike Month campaign (July 2014)**
Travelers in the Sacramento Region and beyond are able to dial one easy-to-remember telephone number for complete, comprehensive traveler information: 511. 511 provides access to information about all modes of travel: traffic conditions for commuters, bus and light rail information for more than 20 transit agencies, paratransit services for the elderly and disabled, ridesharing information, and information on commuting by bike in both English and Spanish. From a limited number of cellular phone providers, the additional option of roadside assistance is available which provides connection to our regions Call Box Call answering center.

The Sacramento Region, which includes El Dorado, Placer, Sacramento, Sutter, Yolo, and Yuba counties, is the primary area for this service; however, the number also links callers to 511 services in the Bay Area, Nevada, Oregon, and Butte and Glenn counties.

In conjunction with the phone service, the website www.sacregion511.org helps users plan their daily commute, access transit providers, find a carpool partner, and learn about bicycling as a commute option. With the traffic information on this site, users can check their commute options and know the road before they go. In FY 2011-12, users began to be able to develop and save personal routes. Reporting along these routes can be scheduled based on route and time of day. Once behind the wheel, users can call 511 for traffic updates. If users have saved routes associated with their phone numbers, the system will inquire if they wish to hear updates on their personal routes or any other 511 option. Users can have alerts on their routes pushed to their e-mail accounts or other personal devices as part of the new feature set. 511 is a joint project between SACOG, Caltrans, and other partners. The main emphasis during FY 2014-15 will be fine tuning Apps, smart phone services and continuous improvement of web services. New website features will include integration of Caltrans Chain Control XML feeds additional smart phone applications and finalizing developmental work. Additional efforts will continue on exploration of “cloud hosting” and the use of open source map data. These efforts will be the cumulate the multi-year program to greatly improve the quality of information provided to the public via the 511 telephone and internet based systems. The 511 program will continue the current maintenance and operation phase and in FY 2014/15 the STARNET project (15-007-06) will transition from a development effort to a maintenance and operation phase, replacing our current systems.

This work will be performed by SACOG staff.

Tasks and End Products:

a. 511 phone services (Ongoing)
b. 511 website services (Ongoing)

10. SACRAMENTO EMERGENCY CLEAN AIR AND TRANSPORTATION (SECAT) PROGRAM
(State Requirement)
SECAT funding through Traffic Congestion Relief Program has been exhausted and CMAQ funds have been programmed to SACOG for the continued SECAT program. SACOG will work with the Sacramento Metropolitan Air Quality Management District (SMAQMD) to award funding to regional truck operators and administer the program.

This work will be performed by SMAQMD staff and SACOG staff.
Tasks and **End Products:**
- Review and authorize SECAT recipient contracts (Ongoing)
- Accounting and related activities for the CMAQ funds and contract awards (Ongoing)

13. **SUSTAINABILITY AND CLIMATE ACTION PLANNING**
   
   **Project #007-13**
   
   (State and Federal Requirements)
   
   This project supports a number of climate change efforts at SACOG and around the region. The climate change and sustainability projects that are acted upon by the Land Use & Air Quality Committee will be supported. Staff will continue the coordination with the member agencies, local air districts, California Air Resources Board (CARB), and other stakeholders toward the development of AB 32 and SB 375 implementation projects. This project will have limited resources but will strive to provide as much coordination and support as possible to ongoing and new efforts to address climate change and sustainability.

   This work will be performed by SACOG staff.

   Tasks and **End Products:**
   - Participate in the regional climate change meetings (Summaries available upon request)

18. **CAPITAL AREA PLUG-IN ELECTRIC VEHICLE PLANNING**

   **Project #007-18**
   
   (Board Policy and Local Agreement)
   
   This project will begin planning for the infrastructure needed to support plug-in electric vehicles (PEVs) in the region. Surveying what other local, regional, and state governments are doing around the country provided a base set of information used to inform the process in the Sacramento Region. From this effort, a set of model policies and strategies were created to address the unique PEV challenges of the region, including siting and pricing of public PEV infrastructure, infrastructure for multi-family dwelling units, retro-fitting existing buildings for PEVs, and building new development with PEVs in mind. In order to disseminate the findings from the project, staff will convene a regional coordinating council.

   This work will be performed by SACOG staff.

   Tasks and **End Products:**
   - Meetings of a Regional PEV Coordinating Council (Quarterly)

21. **SHARED SERVICES & NEW INITIATIVES**

   **Project #007-21**
   
   (Board Policy)
   
   This project will provide coordinated support for the Board of Directors, member jurisdictions, and other local public agencies for opportunities for shared and direct services that save money or improve services; includes communication and coordination with member jurisdiction staff, other local public agencies; staff to research, analyze, solicit comment, share best practices and strategies and coordinate regional discussions for shared service opportunities either as related to MPO/COG functions or as a conduit to independent member jurisdiction shared service efforts in the future.

   This element provides the overall management, coordination and direction for the Shared Services & New Initiatives activity including the Board Task Force and working groups representing city managers, county executives, other local public agency executives, and local public agency departmental staff. Activities in this element will include interaction with the Board of Directors, its
committees, and local public agencies. SACOG’s work in this area will align with member jurisdictions and other local public agencies shared interests.

This work will be performed by SACOG staff.

Tasks and **End Products:**

- a. Preparation of meeting agendas and staff reports for SACOG Board Task Force and staff advisory group meetings (Monthly)
- b. Attendance at local jurisdiction, sub-regional, and regional discussions of shared services and new governance structure considerations (As needed)
- c. Meeting summaries and comments on research and projects of partner organizations (Upon request)
- d. Special publications for SACOG’s coordination with stakeholders/partners (As needed)
- e. Website information on project outcomes and member highlights (As needed)
- f. Highlight summary of Task Force Members/Chief Executive Officer’s Report (As needed)
- g. **Board committee agendas and staff reports (As needed)**
- h. **Regional Report (Quarterly)**

22. **PEV INFRASTRUCTURE IMPLEMENTATION**  
(California Energy Commission grant)

This project will begin implementing the regional PEV infrastructure plan adopted by the SACOG Board in 2013. The initial phase of the project is funded through a California Energy Commission (CEC) grant, and a partnership with the Sacramento Municipal Utilities District (SMUD), to install a series of DC Fast Chargers in the SMUD service territory. This includes site design, equipment allocation, site preparation, equipment installation, and market surveys.

This work will be performed by SACOG and SMUD.

Tasks and **End Products:**

- a. **Site design for up to three DC Fast Chargers in the SMUD service territory (June 2015)**
**Element 008: Pass-Through to Other Agencies**

**Objective:** To record grants awarded to partner agencies as subrecipients to SACOG.

**Discussion:** This element identifies those grants that are awarded to transportation partners but must flow through SACOG as the Regional Transportation Planning Agency for the region. SACOG exercises limited administrative duties, such as progress reporting and financial reimbursement on behalf of the grantee; however, the grantee has responsibility for managing the tasks associated with the grant.

**Projects:**

10. **Unitrans Intelligent Transportation System (ITS) Project**  
    (California Transportation Commission Allocated Funding)  
    The California Transportation Commission grant funded Intelligent Transportation System (ITS) Project will provide implementation of the third/final phase of the Unitrans ITS project. The first phase of the Unitrans ITS Project, which was completed in 2007-08, included installation of infrared emitters on each bus that requests extension of the green phase for three intersections on the U.C. Davis campus. The second phase completed in 2009-10 included installation of a GPS-based automatic vehicle location system that provides automatic passenger counters on each bus.

Project goals include the following:

- Improve schedule adherence for Unitrans buses and reduce transit vehicle emissions.
- Provide access to the gated portions of the U.C. Davis campus for Unitrans and Yolobus vehicles.
- Provide local matching funds for the completion of the construction of the interactive transit information kiosk at the Davis Intermodal Station to provide real time bus arrival times and other passenger information to riders transferring between Amtrak operated trains and Unitrans, Davis Community Transit and Yolobus services. The kiosk is federally funded by a Federal transit Administration grant that requires a local matching source to begin the project.

This work will be performed by Unitrans staff, with assistance from third-party contractor(s) for installation of equipment.

The third/final phase includes the following tasks and end products.

Tasks and **End Products:**

a. **GPS emitters for each bus to coordinate with traffic signals to improve on time performance (December 2014).** The following tasks will be performed to achieve this milestone:
   1. Develop final scope of work for the emitter equipment (May 2013)
   2. Advertise for procurement of emitters and related equipment (June 2013 through July 2013)
   3. Award contract for emitters and related equipment (July 2013)
   4. Install emitters and related equipment (August 2013 through September 2013)
   5. Finalize testing and close-out contract (October 2013 through December 2014)
b. **The installation of GPS/Infrared phase selectors for intersections on the U.C. Davis campus and the City of Davis (December 2014). The following tasks will be performed to achieve this milestone:**
   1. Develop final scope of work for the phase selector and other related intersection equipment (May 2013)
   2. Advertise for procurement of phase selectors and related equipment (June through July 2013)
   3. Award contract for phase selectors and related equipment (July 2013)
   4. Advertise for procurement of phase selector contractor installation services (July 2013)
   5. Award contract for phase selector installation services (August 2013)
   6. Install emitters and related equipment (September 2013 through September 2014)
   7. Finalize testing and close-out contract (December 2013 through December 2014)

c. **Implementation of an interactive transit information kiosk at the Davis Intermodal Station (September 2014). The following tasks will be performed to achieve this milestone:**
   1. Develop final scope of work for the kiosk and other related equipment (May 2013)
   2. Advertise for procurement of kiosk and related equipment (June 2013 through July 2013)
   3. Award contract for kiosk and related equipment (August 2013)
   4. Advertise for procurement of kiosk contractor installation services (September 2013)
   5. Award contract for kiosk installation services (October 2013)
   6. Receive delivery of kiosk (November 2013)
   7. Install kiosk and related equipment (January 2014 through September 2014)

11. **SACOG MANAGED FUND PROJECTS**
    (Board Policy - Local Agreement)

    Local agencies were awarded SACOG Managed Funds by the Board, to study, design, and or construct specific projects as part of the Regional Programming Rounds. As an agency completes specific project tasks as outlined in the project MOU, SACOG reimburses the expenses. There are currently about 20 active projects that received these funds.

    This work will be performed by local agency staff and/or consultants.

    Tasks and **End Products**:
    a. Tasks are per the project-specific MOU between the local agency and SACOG

12. **YOLO COUNTY TRANSPORTATION DISTRICT TRANSIT PLANNING STUDENT INTERNSHIP**
    (Caltrans Transit Planning Student Internship Grant)

    The Yolo County Transportation District (YCTD) will select two to three interns to assist with transportation planning activities, including onboard surveys, transit service research and marketing, and analyses of demand, ridership, service standards, bus stops and amenities. Each internship will last for one year.

    This work will be performed by the YCTD interns.
Tasks and **End Products:**

a. Select transit interns (March-August 2014, January 2015)

b. Internship orientation and training (August 2014, June 2014)

c. Intern transportation planning activities (June 2015, January 2016)

d. Project management and administration (Ongoing)

e. **Copies of intern work (June 2015, January 2016)**

f. **Quarterly Reports/Invoices (Quarterly)**

g. **Final Caltrans Report and Invoice (June 2015, January 2016)**

13. **SACRAMENTO REGIONAL TRANSIT DISTRICT PLANNING STUDENT INTERNSHIP**

(Sacramento Regional Transit District (Sacramento RT) will select an intern to assist with transportation planning activities, including Connect Card and annual fare survey reporting, and other transit support tasks. The funding is for two consecutive years of internships.

The work will be performed by the RT intern.

Tasks and **End Products:**

a. Select transit intern (February 2013 and February 2014)

b. Internship orientation and training (February 2013 and February 2014)

c. Smart Card reporting (November 2014)

d. Annual Fare Survey Report (November 2013 and November 2014)

e. Automatic Passenger Counter Support Program (January 2014 and January 2015)

f. Miscellaneous Support Tasks (January 2014 and January 2015)

g. Project management and administration (Ongoing)

h. Copies of reports and databases (January 2014 and January 2015)

i. **Quarterly Reports/Invoices (Quarterly)**

j. **Final Caltrans Report and Invoice (February 2015)**

14. **PARATRANSIT, INC. TRANSIT PLANNING STUDENT INTERNSHIP**

(Paratransit, Inc. will provide a multi-disciplinary internship opportunity for university students in the transit planning field, allowing them to work with the different departments at Paratransit, from reservations and dispatching to operations and administration. Interns will assist in a variety of operational and planning activities designed to provide hands-on experience in the deployment of paratransit services. The intern(s) will assist with surveying of passengers, providing customer service, and will be integral in restructuring the taxi program at Paratransit, Inc.

This work will be performed Paratransit, Inc. staff.

Tasks and **End Products:**

a. Recruitment for Transit Internship Program (February 2014)

b. Internship program continues for next 24 months

c. Updated passenger lists (July 2014)

d. Notification mailing to passengers (December 2014)
15. **ELK GROVE COMPREHENSIVE OPERATIONAL ANALYSIS**  
*Project 008-15*

(Caltrans Transportation Planning Grant)

The Elk Grove Comprehensive Operational Analysis (COA) will provide recommendations and an implementation plan to improve the efficiency of e-tran’s fixed route transit services within Elk Grove and enhance connectivity to the regional light rail and bus services that will be available with the opening of the Cosumnes River College Light Rail Station in Fall 2015.

This work will be performed by the City of Elk Grove in combination with a qualified consultant or consulting team.

Tasks and **End Products:**

- **a. Project Kick-off (February 2015)**
- **b. Secure Consultant Services and Initiate Project (June 2015)**
- **c. Background Analysis (August 2015)**
- **d. Community and Stakeholder Engagement (February 2016)**
- **e. Coordination with other Transit Agencies (January 2016)**
- **f. Analysis of Potential Service Alternatives (September 2015)**
- **g. Develop draft local and commuter service COA (December 2015)**
- **h. Review, complete and adopt COA (January 2016)**
- **i. Final Report (February 2016)**
- **j. Fiscal and Administrative Management (Ongoing)**
- **k. Quarterly and Final Reports (Quarterly)**

16. **YUBA-SUTTER SHORT RANGE TRANSIT PLAN**  
*Project #008-16*

(Caltrans Statewide or Urban Transit Planning Studies Grant)

The project is an update of the 2008 Yuba-Sutter Short Range Transit Plan (SRTP). Stakeholders will be included in development of the plan. The new SRTP will guide future transit services and planning for the population and areas served by Yuba-Sutter Transit.

This work will be performed by a consultant, and is funded by a Caltrans Rural or Small Urban Transit Planning Studies discretionary grant.

Tasks and **End Products:**

- **a. Project kickoff (January 2014)**
- **b. Work plan responsibilities (February 2014)**
- **c. Develop existing conditions information (December 2014)**
- **d. Analyze and draft SRTP sections on goals, policies, objectives and opportunities (August 2014)**
- **e. Complete financial analysis (April 2015)**
- **f. Assess community values, priorities and preferences (March 2015)**
- **g. Draft service alternatives (April 2015)**
- **h. Complete capital plan (April 2015)**
- **i. Complete draft SRTP (April 2015)**
- **j. Complete final SRTP (June 2015)**
- **k. Project management and administration (Ongoing)**
l. Kickoff meeting notes (January 2014)
m. Work plan and (if necessary) RFP and contract (February 2014)

n. Summary of outreach efforts (March 2015)
o. Draft SRTP sections (April 2015)
p. Summary of public comments on draft SRTP, Final SRTP (June 2015)
q. Quarterly Reports/Invoices (Quarterly)
r. Final Caltrans Report and Invoice (June 2015)

17. WOODLAND AREA TRANSIT PLANNING AND SHORT-RANGE TRANSIT PLAN UPDATE

Project #008-17

(Local Agreement)
In this project, the Yolo County Transportation District, on behalf of the City of Woodland, will use $80,000 in Woodland Area Section 5307 funds and $20,000 in local match to seek transit service evaluation and planning assistance from a consultant to support development of an Operational and Capital Needs Analysis (OCNA) and alternative short-, mid-, and long-range service plans for the portion of the Yolobus fixed-route bus system that affects the City of Woodland. An outcome of this project will be adjustments to a 2014 draft Short-Range Transit Plan developed by YCTD and SACOG through a Caltrans transportation planning grant.

This work will be performed by an outside consultant.

Tasks and End Products:

a. Select consultant and finalize contract (December 2014)
b. Complete an operational and capital needs analysis of public transportation services to, from, through and within the City of Woodland.
c. Make recommendations to YCTD and the City of Woodland regarding Woodland-related service and capital changes and improvements, and related changes needed to complete YCTD’s 2014 Draft Short Range Transit Plan. (May 2015)
This page intentionally left blank.
Element 009: Miscellaneous Other Funding

Objective: To add required projects to the OWP which are funded and executed by partner agencies.

Discussion: Partner agencies receive certain funding from FTA for projects within their district. However, federal regulations require that SACOG carry these authorized projects in its OWP in order to meet the funding guidelines. These are projects over which SACOG has no authority except as the Regional Transportation Planning Agency for the region.

Projects:

4. Sacramento Regional Transit District Downtown-Natomas-Airport (Green Line) Rail Project
   (Federal Requirement)
   The transitional analysis for the Green Line to the Airport has been completed. RT awarded a contract to build upon the various technical work efforts completed or underway, develop sufficient levels of preliminary engineering and design for critical segments of the Green Line to complete the environmental review process and estimate costs, and to engage the community in the decision-making process.

   The full Green Line will be advanced through the completion of the DEIS/R and, if funding is secured and RT exercises its option, the segment referred to as the “Intermodal-3: Green Line Project” will be advanced through an FEIS/R.

   Tasks and End Products:
   a. Continued development of technical and environmental analysis work on the Downtown-Natomas-Airport (Green Line) rail project. The final scope of work, tasks and end products will be developed by December 2015.

5. Downtown/Riverfront Transit Project
   (Board Direction, Federal Requirement)
   This analysis is being conducted through a cooperative effort among the cities of Sacramento and West Sacramento as well as the Sacramento Regional Transit District (RT) and Yolo County Transportation District (YCTD) to advance the Downtown/Riverfront Streetcar Project (Project) into the Federal Transit Administration’s (FTA) Small Starts Grant process. The work conforms to the Federal Transit Administration Small Starts guidelines in considering the public transportation needs within the corridor.

   With the completion of the environmental studies under NEPA and CEQA, the project will officially enter the Project Development Phase which includes Preliminary Engineering/Final Design, establishing a governance structure and securing funding for the local share of capital costs.

   This work will be performed by a combination of consultants and the staffs of the cities of Sacramento and West Sacramento, the Sacramento Regional Transit District, and the Yolo County Transportation District. This task also includes work to:
- **Committed funding to complete Project Development** – The five partners in the PMT (Cities of West Sacramento and Sacramento; Sacramento Regional Transit District (RT); Yolo County Transportation District (YCTD); and Sacramento Area Council of Governments (SACOG) have committed funding and staffing resources for the Project Development Phase of the project. Project consultants have estimated the PD costs to be in the range of approximately $10 to $15 million.

- **Establish the governance structure for streetcar decision-making, operations, and funding** – One of four different models for governance are typically used: nonprofit, joint powers agency, city owned/operated, or transit agency owned/operated. The PMT will research the various streetcar systems, work with the staffs of the five partners, and make a recommendation to the Policy Steering Committee by evaluating various methodologies currently utilized.

- **Develop Sacramento business and property owners participation plan and establish financial commitments** – Not only is a funding plan needed for the PD phase of the Project, but the capital improvements, too. In order to request entry to the PD phase it will be important to have the buy-in and framework for the financial participation of the City of Sacramento business and property owners along the initial streetcar line. As the City of West Sacramento has already established the organization of business and property owners, that commitment need only be verified.

**Tasks and End Products:**
- a. Project Outreach (In progress)
- b. **35 Percent Engineering (In progress)**
- c. **Project Management Plan Completed (Summer 2014)**
- d. **Governance Plan Completed (Summer 2014)**
- e. **Project Local Finance Plan Completed (Summer 2014)**
- f. **Environmental Review Completed (Fall 2014)**
- g. **Utility Agreements/80% Engineering Plans (Winter 2015)**
- h. **FTA Reviews (Spring 2015)**
- i. **100 Percent Engineering Plans (Summer 2015)**

6. **GREEN LINE PLANNING**  
(Federal Requirement)  
This analysis is being conducted by the Sacramento Regional Transit District (RT) and will conform with the Federal Transit Administration New Starts guidelines under MAP-21 and Environmental Protection Agency guidelines for conducting environmental review under NEPA. A Locally Preferred Alternative (LPA) was selected in December 2003 consisting of a light rail extension from downtown Sacramento across the American River and along Truxel Boulevard to North Natomas and then to the Sacramento International Airport.

An Administrative Draft Environmental Impact Statement/Report (ADEIS/R) was completed by RT in 2007. The corridor was environmentally cleared at the Program-Level for CEQA by the RT Board in April 2008. The decision was made to move Phase 1 of the project from Downtown Sacramento to Richards Boulevard forward utilizing local funding and a Project-Level CEQA clearance occurred in 2009; that project completed construction and opened for service in the spring of 2012.
In November 2010, a Transitional Analysis (TA) was completed for Phases 2 and 3 of the Green Line. Based on community and agency input, a number of conceptual design refinements were developed for the Green Line LPA. Operating scenarios, vehicle-type assessments and resulting updated operating and maintenance costs were also prepared. The TA also updated the travel forecasts (using a previously-adopted land use forecast for the region) as well as cost effectiveness calculations. An assessment of the environmental requirements was also prepared. This effort will be to build upon the enhancements identified in the TA and complete the project-level DEIS/R for the LPA for the corridor and have that document released to the public for review and comment. This work will be performed by a combination of consultants and the staff of Regional Transit with coordination with the city of Sacramento and Sacramento County.

**Task 0 – Project Start-Up/Study Initiation/Ongoing Project Management**

This task includes a startup meeting with FTA staff, appointing a project manager and agency to coordinate and guide the project, establishing a policy advisory committee (PAC) and technical advisory committee (TAC), preparing and issuing a Request for Proposal for professional consulting services; and selecting a consulting team in accordance with FTA Procurement guidelines.

Task will entail ongoing coordination meetings with the PAC, TAC, city and county staff and councils, FTA, and the RT Board. Task will also entail ongoing project management including consultant project management, invoicing, etc., and RT reporting requirements to FTA.

**Task 0 – Tasks and End Products:**

- **Consultant project management plan, including a refined work scope, schedules, and task-level budgets; a refined table of deliverables; and assigned roles and responsibilities** (September 2012)
  
  a. **Project management plan, including a refined work scope, schedules, and management plan, and budgets; a table of deliverables, and assigned staff roles and responsibilities** (Spring 2013)
  
  b. **Draft project schedule** (Spring 2013)
  
  c. **RT Board approval of release request for proposals for professional consulting services** (Spring 2013)
  
  d. **Approved contract with a qualified consulting team** (Summer 2013)
  
  e. **Consultant project invoices, progress reports, etc.** (Ongoing beginning in August 2013 through completion in December 2015)
  
  f. **Minutes of meetings with PAC, TAC and councils and boards** (Ongoing beginning in September 2013 through completion in fall 2015)

**Task 1 – Update Prepare Draft EIS/EIR**

This task will entail the preparation of the draft EIS/R for the Green Line. It will entail reviewing the ADEIS/R and identifying the “changed conditions,” preparation, and publishing of NOI/NOP for EIS/R, and scoping. Task will entail technical studies and preparation of an updated ADEIS/R, for review(s) with FTA. Preparation of a DEIS/R will be completed. Release of the DEIS/R and filing the Notice of Availability in the Federal Register. Receipt of comments will then occur. Based on the comments received, a “Next Steps” will be prepared identifying the key issues/actions necessary when the preparation of the Final EIS/R occurs (not a part of this SOW).
Task 1 – Tasks and End Products:
a. Publish NOI/NOP (Fall 2013)
b. Notice, undertake, and document scoping (Fall 2013)
c. Conduct various technical studies and prepare the necessary technical/engineering documentation for inclusion in the DEIS/R (Fall 2013 through fall 2014)
d. Prepare ADEIS/R and review with FTA (Fall 2014)
e. Prepare DEIS/R and release for public review and comment (Spring 2015)
f. Summarize comments received on DEIS/R and document next steps (Summer 2015)
g. Presentation to RT Board (and others) of results and “next steps” (Fall 2015)

Task 2 – Communications and Community Outreach
Communications and community outreach will be conducted in coordination with Task 3 scoping. The goal will be to focus on the affected communities, environmental justice populations, decision-makers, and keeping the public informed of the project and progress while obtaining their input on the LPA concept and design development. An initial Community Outreach Strategy will be prepared and reviewed/updated as appropriate. This effort will entail arranging, coordinating, attending, participating in, and documenting the results/outcomes of a variety of public forums, workshops and hearings. Several “Summary Report(s)” will be prepared that will document how the public input has been accounted for in the refinement of the LPA.

Task 2 – Tasks and End Products:
a. Preparation of a Community Outreach Strategy document and updates (September 2013)
b. Documentation of various community meetings, forums, workshops and hearings (Ongoing beginning in September 2013 through summer 2015)
c. Preparation of “summaries” documenting the input received and how it has been incorporated into the design development (January 2014 through summer 2015)

Task 3 – Prepare Advanced Conceptual Design of the LPA
The consultant will be responsible for preparing the advanced conceptual engineering for the Green Line project. The goal of advancing the conceptual engineering is to provide a better definition of the alternative(s) for the environmental document preparation, cost estimates and determination of any significant design issues that could substantially affect the clearance or implementation of the project. As a point of comparison, the level of effort is assumed to be an approximate “20 percent to 30 percent” level of design. The consultant will work in close coordination with RT engineering and other applicable departments during this effort. For areas that are identified as having potentially greater environmental impact (e.g., the crossing of the American River), the conceptual engineering will be advanced to a preliminary engineering level sufficient to identify potential impacts and mitigation strategies to reduce the impacts. Constructability assessments and value engineering will also be prepared as part of this task effort.

Task 3 – Tasks and End Products:
a. Mapping and survey controls of selected sections of the alignment (Fall 2013)
b. Geotechnical investigations as appropriate for this level of effort (Fall 2013 through summer 2014)
c. Horizontal and vertical track layouts, as well as OCS and substations (Fall 2014)
d. Roadway design as applicable (Fall 2014)
e. Select station and park & ride lot layout refinements (Fall 2014)
f. Operational and signaling analysis for single track (Fall 2014)
g. Refinement of maintenance facility concept (Fall 2014)
h. Sacramento International Airport station refinements (Summer 2014)

Task 4 – Prepare Several Rail-Related Technical Studies
Technical studies analyzing several areas of potential opportunities will be prepared and the results documented. The impact and opportunity for “European tram” vehicles on the RT system will be prepared. An analysis of the downtown train crossings with additional service will be prepared. Rail interlining of the Green Line to the Gold and/or Blue Line will be assessed.

Task 4 – Tasks and End Products:

a. Documentation of the technical assessment of the impact of proposed “European trams” on the RT operations, maintenance, long-term applicability, etc. (Fall 2014)
b. Documentation of the downtown train crossings effects with the proposed service (Summer 2014)
c. Documentation of the “rail interlining” options/effects (Fall 2014)

Task 5 – Prepare Requisite Information and Assessments Necessary for the New Starts Process to Determine the New Starts
The intent of this Green Line effort is to advance one or more segments of the Green Line to the Airport LPA into the federal process by seeking FTA approval for entry into the next phase of project development. The applicable FTA New Starts guidance in effect at either the beginning of this phase or at a point mutually agreed to with FTA will be used to develop the necessary New Starts assessment. The results will be documented.

Task 5 – Tasks and End Products:

a. Document applicable New Starts criteria (Spring 2015)
b. Prepare New Starts assessment documentation (Summer 2015)

task 6 – Prepare Draft EIS/R Closeout
Upon a determination of action in Tasks 1 and 5, and with the concurrence of FTA, the consultant contract will be closed out. The consultant will provide RT with final documents within 30 days and final invoices within 60 days of notice by the RT Project Manager of project closeout.

Task 6 – Tasks and End Products:

a. Final Documents on CD for “future use” (i.e., not PDF) format (Fall 2015)
b. Final consultant invoices, closeout report (Fall 2015)
c. Documentation of FTA/other comments and actions responding (Fall 2015)

7. Interregional Transportation Demand Management

Action Plan
(Caltrans Partnership Planning Grant)
In this project, SACOG and SJCOG will partner to develop a Transportation Demand Management (TDM) Action Plan to reduce current and future interregional capacity demands on the I-5 and SR 99 corridors between San Joaquin and Sacramento Counties. To complete the plan, SJCOG and SACOG will work together with interregional stakeholders, including Caltrans Districts 10 and 3, to develop, assess and select from scenarios with various combinations of TDM strategies to address commute-related congestion between the two regions.
This work will be performed by outside consultants with SJCOG staff as the lead agency and with SACOG staff reviewing deliverables and participating in project development team meetings.

Tasks and **End Products:**

a. Project initiation (May 2013)  
b. Project coordination meeting (June 2013)  
c. Establish Project Steering Committee (January 2014)  
d. **Document existing conditions (January 2014)**  
e. **Develop interregional vision statement (February 2014)**  
f. Identify TDM/multimodal service strategies (May 2014)  
g. Assess and select preferred strategies (August 2014)  
h. Conduct more detailed implementation assessment (September 2014)  
i. Develop strategies and working draft Action Plan (October 2014)  
j. **Complete final interregional TDM Action Plan, executive summary and technical report (October 2014)**  
k. **Final report to Caltrans and Board Action (November 2014)**  
l. Reporting to Caltrans and grant administration (Ongoing)

8. **INTERJURISDICTIONAL TRAFFIC IMPACT MITIGATION MANAGEMENT Project #009-08**  
(Caltrans Partnership Planning Grant)

This project, a partnership between Sutter, Placer, and Sacramento counties, the City of Roseville, Caltrans District 3, with SACOG as the lead agency, seeks to develop an agreement between the local entities to address inter-jurisdictional transportation impacts on regional and state transportation facilities, including State Routes 65, 70, 99, and Interstate Route 5, due to expected population growth. SACOG will lead the project in partnership with Sutter, Placer, and Sacramento counties, the City of Roseville, and Caltrans District 3.

The work will be performed by SACOG staff, with additional support from consultants.

Tasks and **End Products:**

a. Project kickoff meeting (April 2013)  
b. Secure consulting services (May 2014)  
c. **Complete Partner/Stakeholder interviews (January 2015)**  
d. Complete facilitated meetings (Ongoing)  
e. Partner Consensus (ongoing)  
f. **Complete data collection (August 2014)**  
g. **Apply Draft Interjurisdictional Strategy to a Pilot Project (December 2014)**  
h. **Develop Best Practices for Developing Interjurisdictional Agreements (February 2015)**  
i. **Develop & Execute Memorandum of Understanding (February 2015)**  
j. Partner coordination, project management and administration (Ongoing)  
k. **Quarterly Reports/Invoices (Quarterly)**  
l. **Final Caltrans Report and Invoice (February 2015)**

8. **INTERJURISDICTIONAL TRAFFIC IMPACT MITIGATION MANAGEMENT Project #009-08**  
(Caltrans Partnership Planning Grant)

This project, a partnership between Sutter, Placer, and Sacramento counties, the City of Roseville, Caltrans District 3, with SACOG as the lead agency, seeks to develop an agreement between the local entities to address inter-jurisdictional transportation impacts on regional and state transportation facilities, including State Routes 65, 70, 99, and Interstate Route 5, due to expected population growth. SACOG will lead the project in partnership with Sutter, Placer, and Sacramento counties, the City of Roseville, and Caltrans District 3.
population growth. SACOG will lead the project in partnership with Sutter, Placer, and Sacramento counties, the City of Roseville, and Caltrans District 3.

The work will be performed by SACOG staff, with additional support from consultants.

Tasks and *End Products*:

a. Project kickoff meeting (April 2013)

b. **Secure consulting services (Dec 2014)**

c. Complete Partner/Stakeholder interviews (ongoing)

d. Complete facilitated meetings (Ongoing)

e. Partner Consensus (ongoing)

f. **Complete data collection (June 2015)**

g. Model trip generation in planning area (January 2016)

h. Draft Baseline Fair Share Contribution to projects (January 2016)

i. Develop & Execute Memorandum of Understanding (April 2016)

j. Partner coordination, project management and administration (Ongoing)

k. Quarterly Reports/Invoices (Quarterly)

l. Final Caltrans Report and Invoice (June 2016)

9. **REGIONAL HIGH RESOLUTION IMAGERY PROJECT**

This project involves the collection of high-resolution imagery (six-inch pixel resolution) for urbanized parts of the Sacramento Region. At a minimum, the project area will include 950 square miles covering the cities of Sacramento, Elk Grove, Folsom, Citrus Heights and Rancho Cordova, including areas of interest for the County of Sacramento and the Sacramento Municipal Utility District.

High resolution, leaf-off tree condition, ortho and oblique imagery meeting the requirements of local agencies was captured in February and March 2014. The imagery will allow for the visualization and digital capture of visible urban infrastructure. The collection of items such as drain inlets, manholes, and road striping requires imagery meeting these specifications. The project will deliver the imagery in this fiscal year and staff will participate in training on how to use the imagery in GIS mapping software.

This work will be performed by SACOG staff and an outside consultant.

Tasks and *End Products*:

a. Aerial photography capture of images (*completed*)

b. Vendor processing of images (August 2014)

c. **Project completion and image delivery to local agencies (September 2014)**
10. **I-5 SUBREGIONAL TRANSPORTATION IMPACT FEE PROGRAM**

   (Local Agreement)

The I-5 Subregional transportation impact fee program and an environmental review of the Subregional Improvement Plan is a coordinated effort among Caltrans, SACOG, and the cities of Elk Grove, Sacramento, and West Sacramento to address concerns regarding new developments and future cumulative traffic impacts along Interstate 5 within the jurisdictional boundaries of these cities.

SACOG, as the regional partner, will be the lead agency for the EIR for the Subregional Improvement Plan and Impact Fee to analyze whether implementation of a selected group of projects would mitigate the cumulative mainline freeway traffic impacts.

This work will be performed by consultants managed by SACOG staff.

Tasks and **End Products:**

a. EIR cost-sharing agreement between SACOG and local partners (October 2015)

b. Request for proposal and selection of consultant to prepare EIR. (November 2015)

c. **Draft EIR for the Improvement Plan and the Impact Fee (April 2015)**

d. **Final EIR for the Improvement Plan and the Impact Fee (June 2015)**
**Element 012: Federal Transit Administration Job Access Reverse Commute and New Freedom Program Grants**

**Objective:** To oversee the existing FTA Job Access Reverse Commute (JARC) and New Freedom grants for the Sacramento Urbanized Area (5316 and 5317) until completion.

**Discussion:** SACOG will continue to complete planning and related tasks related to the former FTA 5316 Jobs Access Reverse Commute and 5317 New Freedom Program grants that have been awarded and programmed for the Sacramento Urbanized Area until those grants are completed. Transit team staff will continue to conduct the planning and programming activities necessary to ensure the region’s transit operators projects are properly programmed in the SACOG MTIP, SACOG staff and our legal counsel will work to maintain subrecipient agreements with the Sacramento Urbanized Area JARC and New Freedom awardees to allow grant funds to flow to those successful applicant agencies and organizations, and complete the required reporting to the FTA.

**Projects:**

1. **Sacramento Regional Transit District JARC Operating Assistance**  
   *Project #012-01*
   
   (Federal Requirement)  
   The Sacramento Regional Transit District (SRTD) is using FFY 2009, 2010, and 2012 JARC funds to fund extended bus and light rail service hours in the early morning (prior to 7 a.m.), evening (after 6 p.m.) and weekend (Saturday and Sunday). The Unmet Transit Needs process has identified gaps in services, including early morning and later evening service, additional/longer peak period service (for suburb-to-suburb commutes), and weekend services. In working with Sacramento County’s various human services agencies, SRTD has found that many existing fixed route transit services do not run early enough or late enough to meet the needs of the many people who work outside of traditional Monday-Friday 8 a.m. to 5 p.m. work periods.

   This work will be performed by SRTD.

   **Tasks and End Products:**  
   a. Provide JARC program qualified transit services (Ongoing)  
   b. **FTA Reporting (Quarterly)**

2. **Roseville Transit JARC Operating Assistance**  
   *Project #012-02*
   
   (Federal Requirement)  
   The city of Roseville Transit is using FFY 2010 and 2012 JARC funds to extend their weekday revenue hours on core fixed routes, as well as an extension of the hours on their Dial-A-Ride (DAR) services (and operate DAR on three current non-service holidays) to provide transportation to employees getting off work in the evening. The additional hours will also allow employees to connect with Placer County Transit and Sacramento Regional Transit in the evening.

   This work will be performed by the City of Roseville.
3. TRANSIT ALTERNATIVES PROGRAM

(SACOG continues to oversee the planning and implementation of transit alternatives, focused particularly on lower income workers and those currently underserved by existing transit services. SACOG is currently operating a vanpool subsidy program to make affordable, safe, reliable transportation to/from work available for agricultural workers and the general public. SACOG plans to offer subsidies to vanpools meeting eligibility criteria through vanpool vendors with agreements with SACOG through 2015 or until available funds are expended. Various alternatives to transit will also continue to be planned and implemented as part of this program.

This work will be performed by SACOG staff.

Tasks and **End Products**:
- Continue implementation of vanpool subsidies in the Sacramento Urbanized Area (Ongoing)
- Continue planning and implementation of transit alternatives (Ongoing)

5. COUNTY OF SACRAMENTO DEPARTMENT OF HEALTH

(JARC OPERATING ASSISTANCE)

(The County of Sacramento, Department Human Assistance (Sacramento County) is using 2009 JARC funds to fund the following: (1) Foster Grandparents, which provides low-income seniors with a small stipend and transportation reimbursement provided they work 20 hours per week in service to children in their community; (2) Senior Companions, which provides a small stipend and transportation reimbursement to low-income seniors who provide light respite care and transportation assistance where traditional transit services are not available; and (3) Mather Community Campus (MCC), which serves qualified homeless families and single adults who believe employment is an essential part of building a new life. Because of transportation challenges faced by the residents, MCC currently has a contract with Volunteers of America to provide bus transportation to sites important to residents. Operating primarily on a fixed schedule, this core bus service supplements limited RT service to the Mather Light Rail station by making numerous trips throughout the day, starting as early as 5 a.m. and ending as late as 10:30 p.m.; provides direct service to the Charles A. Jones Skills Center and other job training sites; provides service to nearby Alcoholic Anonymous meetings (required for residents recovering from substance abuse) to help residents stay sober and maintain their employability; and provides transportation for residents and their belongings when they move into MCC. As an ancillary service, the van provides transportation to nearby shopping locations so residents can purchase food and other necessities. On an emergency basis, the van occasionally provides transportation to individuals with urgent medical appointments. This service is ADA accessible.

This work will be performed by Sacramento County.

Tasks and **End Products**:
- Provide JARC qualified operations (Ongoing)
- FTA Reporting (Quarterly)
6. **YOLO COUNTY TRANSPORTATION DISTRICT JARC OPERATING ASSISTANCE**
(Federal Requirement)
The Yolo County Transportation District (YCTD) is using FFY 2010 and 2012 JARC funds to operate early morning and later evening fixed route bus services targeting the transit dependent population in Yolo and Sacramento counties.

This work will be performed by YCTD.

**Tasks and End Products:**
- a. Provide JARC qualified operations (Ongoing)
- b. FTA Reporting (Quarterly)

7. **ROSEVILLE NEW FREEDOM MOBILITY MANAGEMENT**
(Federal Requirement)
The city of Roseville is using FFY 2010 New Freedom funds to provide mobility management services such as trip planning, travel training, and transit ambassadors to assist elderly and disabled transit riders to use the Roseville Transit fixed route and demand-response systems.

This work will be performed by the city of Roseville.

**Tasks and End Products:**
- a. Provide New Freedom qualified mobility management services (Ongoing)
- b. FTA Reporting (Quarterly)

8. **PARATRANSPORT, INC., NEW FREEDOM MOBILITY MANAGEMENT**
(Federal Requirement)
Paratransit, Inc. (PI) is using FFY 2010, 2011 and 2012 New Freedom funds for projects expand PI’s current services to include mobility management activities, including those activities outside of the current Paratransit, Inc. service area.

This work will be performed by Paratransit, Inc.

**Tasks and End Products:**
- a. Provide New Freedom qualified mobility management services (Ongoing)
- b. FTA Reporting (Quarterly)

9. **SACRAMENTO REGIONAL TRANSIT DISTRICT NEW FREEDOM CAPITAL IMPROVEMENTS**
(Federal Requirement)
The Sacramento Regional Transit District (SRTD) is using FFY 2007, 2009, 2011 and 2012 New Freedom funds for projects to provide enhanced system access for persons with disabilities, including particularly, persons with limited mobility and visual impairments.

This work will be performed by SRTD.
Tasks and **End Products:**

a. Provide New Freedom qualified capital improvements (Ongoing)

b. **FTA Reporting (Quarterly)**

10. **WESTERN PLACER CTSA NEW FREEDOM OPERATING ASSISTANCE**  
    *(Project #012-10)*

(Federal Requirement)

Western Placer CTSA is using FFY 2011 and 2012 New Freedom funds to operate CTSA alternative public transportation service in the urbanized portion of Placer County.

This work will be performed by Western Placer CTSA.

Tasks and **End Products:**

a. Provide New Freedom qualified operations (Ongoing)

b. **FTA Reporting (Quarterly)**

11. **COUNTY OF SACRAMENTO DEPARTMENT OF HEALTH NEW FREEDOM OPERATING ASSISTANCE**  
    *(Project #012-11)*

(Federal Requirement)

The County of Sacramento Department Human Assistance (Sacramento County) is using FFY 2011 and 2012 New Freedom funds to operate the Senior Companions and Senior Nutrition Services transport programs in Sacramento County; these services are ADA accessible.

This work will be performed by Sacramento County.

Tasks and **End Products:**

a. Provide New Freedom qualified operations (Ongoing)

b. **FTA Reporting (Quarterly)**

12. **YOLO COUNTY TRANSPORTATION DISTRICT NEW FREEDOM OPERATING ASSISTANCE**  
    *(Project #012-12)*

(Federal Requirement)

Yolo County Transportation District (YCTD) is using FFY 2011 and 2012 New Freedom funds to operate the Yolobus Special specialized public transportation services for elderly and disabled persons in Yolo, Sacramento and Solano counties.

This work will be performed by YCTD.

Tasks and **End Products:**

a. Provide New Freedom qualified operations (Ongoing)

b. **FTA Reporting (Quarterly)**
13. **Paratransit, Inc. Wheels to Work JARC Operating Assistance**

(Federal Requirement)
Paratransit, Inc., is partnering with the Sacramento County DHA and various other human service agencies and organizations to provide transportation services to assist people who are currently homeless to get assistance in finding employment and getting employment related services. Paratransit, Inc., is using FFY 2012 JARC funds to operate the Wheels to Work Program throughout Sacramento County.

This work will be performed by Paratransit, Inc.

Tasks and **End Products:**
- **a.** Provide JARC qualified operations (Ongoing)
- **b.** **FTA Reporting (Quarterly)**

14. **e-tran (City of Elk Grove Transit) JARC Operating Assistance**

(Federal Requirement)
The City of Elk Grove Transit (e-tran) is using FFY 2012 JARC funds to operate early morning and later evening fixed route bus services targeting reverse commuters working in Elk Grove and residing outside the City.

This work will be performed by e-tran.

Tasks and **End Products:**
- **a.** Provide JARC qualified operations (Ongoing)
- **b.** **FTA Reporting (Quarterly)**

Element 013: Sustainable Communities Strategy Implementation Grant
From the Strategic Growth Council, Round 2

Objective: Support and promote rural economic development and address food deserts; enhance public health metrics; create a regional Climate Action Plan with more specific GHG reduction strategies for land use and transportation; provide local governments and SACOG with enhanced SCS information, technical tools and performance measures for better decision-making; support continuously updated data on planning and development activity in the region for future MTP/SCS cycles; and expand analytical and planning tools for more complete streets in the region.

Discussion: Staff is currently analyzing staff and consultant needs for this new grant.

Projects:

Task A — Rural-Urban Connections Strategy
(Federal Requirement)

There are two Rural-Urban Connections Strategy (RUCS) activities within this task of the SGC 2 grant. First is a rural case study. The objective of the case study is to study how rural communities’ economies can be revitalized with an analysis of existing land uses, infrastructure and agricultural assets. The case study will focus on the communities in Western Yolo County; however results will be applicable to rural communities in other parts of the region and the state. Second is addressing food deserts. The objective is to work with affected jurisdictions and stakeholders to develop transportation and other strategies to address food deserts identified in disadvantaged communities through the first SGC grant.

This work will be performed by SACOG staff with consultant assistance.

Tasks and End Products:

a. Case study on how rural communities’ economies can be revitalized with an analysis of land uses, infrastructure and agricultural assets (June 2015)

b. Strategies to address identified food deserts and next steps (June 2015)

Task B — Infill and Health Activities
(Federal Requirement)

SACOG’s MTP/SCS projects significant development in infill areas combined with transportation improvements to help reduce vehicle miles traveled and meet the region’s greenhouse gas targets. However, there is scientific literature on the potential health risks of living in certain infill locations, even though they may provide access to public transit and daily needs, without adequate mitigations. During the MTP/SCS comment period, public health and equity interests also called for more analysis and performance measures related to health outcomes of the MTP/SCS plan and implementation.

This project component will help implement MTP/SCS policies and strategies by developing greater public health analysis capacity, through work with a broad range of stakeholders to develop more regional guidance on infill development near high volume roadways and identify appropriate new health metrics.

This work will be performed by SACOG staff.
Tasks and *End Products*:

a. Design stakeholder process (June 2014)
b. Convene stakeholders, review and discuss current research/science on infill development and public health, air quality, best practices and mitigations (June 2015)
c. Develop best practice regional guidance for jurisdictions and developers on planning infill residences to address health benefits and risks (June 2015)
d. Work with stakeholders to identify and refine public health metrics to help inform MTP/SCS updates and local discussions on development patterns (June 2015)
e. *Refined set of health metrics for use by SACOG, local agencies (June 2015)*
f. *Regional infill guidance (June 2015)*

3. **TASK C — REGIONAL CLIMATE ACTION PLAN**  
*Project #013-03*

(State and Federal Requirements)

Despite a decrease in per capita greenhouse gas (GHG) emissions, the population growth and transportation projects in the MTP/SCS can be linked to an increase in total GHG emissions. The related EIR mitigates emission to less than significant in the plan, but additional measures can be taken. A regional climate action plan that addresses the GHG emissions from the projects in the MTP/SCS can be used as a guide for future planning around the region. The climate action plan will address inventories, projections, mitigation measures, and adaptation.

This work will be performed by SACOG staff with consultant assistance.

Tasks and *End Products*:

a. Update the existing 2008 base GHG to reflect 2012 land use and transportation estimates (December 2014)
b. Conduct climate analysis to: identify what climate change effects can our regional transportation network experience, identify what parts of the network will be affected, estimate how those components will be affected, discuss how the network is adaptive or not to climate change, and estimate when impacts are likely to occur (June 2014)

c. *PECAS software and Project Report (June 2015)*

4. **TASK D — PECAS INTEGRATED LAND USE/TRANSPORT MODEL**  
*Project # 013-04*

(DEVELOPMENT  
(State and Federal Requirements)

Since 2010, CTC guidelines for regional transportation planning require the four largest MPOs in the state to build formal micro-economic land use models for use in developing and evaluating future growth scenarios. SACOG has partially developed a model which would meet this requirement, known as the SACOG Production-Exchange-Consumption-Allocation System or "PECAS." This project, combined with in-kind support described under the “Model Development” project (15-002-01), would complete technical development of SACOG’s PECAS and work with local agencies to determine an appropriate role for PECAS in the regional growth allocation process.

This work will be performed primarily by SACOG staff with technical support and review by a consultant specializing in PECAS model development.

Tasks and *End Products*:

a. *PECAS software and Project Report (June 2015)*
5. **TASK E — SCS INFORMATION CENTER**  
*State and Federal Requirement*

SACOG’s Sustainable Community Strategy (SCS) relies on detailed communication with local jurisdictions about their land use plans, regional forecasted growth, and progress towards achieving regional greenhouse gas reduction targets. This project component will work with SACOG members to create a web-based information center that provides local jurisdictions with SCS land uses and detailed information developed in SACOG’s state-of-the-art travel forecasting system. The system will provide better communication for the MTP/SCS updates and facilitate member agency grant applications.

This work will be performed by SACOG staff.

Tasks and **End Products:**

a. Convene focus groups and discuss member agency needs for data and site functionality (April 2013)

b. Design prototype version of website and data tools (December 2013)

c. Refine prototype version of webtools through review with our members (March 2014)

d. **Complete web-based SCS Information Center and user guide (September 2014)**

6. **TASK F — COMPLETE STREETS AND PARKING STANDARDS**  
*Federal Requirement*

The MTP/SCS includes direct funding for bicycle and pedestrian infrastructure projects, as well as for complete streets as part of road maintenance, rehabilitation, and facility expansion projects. An increasing number of tools have been emerging for assessing how supportive current or proposed street designs and corridors are of multimodal travel and safety, e.g., ITHIM software for assessing transportation impacts on public health, pedestrian and bicycle indices, and others. This project component will assess and recommend new tools and best practices for parking standards and complete street projects to help encourage multimodal travel, improve public safety and access, and implement the MTP/SCS.

This work will be performed by SACOG staff, possibly with consultant assistance.

Tasks and **End Products:**

a. Update SACOG Complete Streets Toolkit for additional resources and best practices, including for achieving complete streets through road maintenance and rehabilitation (June 2015)

b. **Revised and expanded Complete Streets Toolkit and resources (June 2015)**
This page intentionally left blank.
ELEMENT 015: SERVICES TO OTHER AGENCIES

Objective: To administer the Capitol Valley Regional SAFE program for the SAFE member counties and to provide support for CALCOG.

Discussion: This work element accounts for activities performed for other agencies.

Projects:

1. **CAPITOL VALLEY REGIONAL SERVICE AUTHORITY FOR FREeways AND EXPRESSWAYS (CVR-SAFE)**

   This project is used to account for SACOG's administrative activities for implementing, operating, and maintaining the motorist aid system of call boxes within the Counties of El Dorado, Sacramento, San Joaquin, Sutter, Yolo, and Yuba. SACOG is reimbursed for these costs from the Capitol Valley SAFE Special Revenue Fund. SACOG staff will continue to work on the Call Box removal/ADA/technology upgrade project and is scheduled to complete the drafting of the CVR-SAFE Strategic Plan before the end of 2014.

   Work will be performed by CVR-SAFE Program Manager and other SACOG staff.

   Tasks and **End Products:**
   
   a. Monitor daily call box operations for the six county call box area (Weekly)
   b. Review consultant reports regarding call box usage and frequency of activity (Monthly)
   c. Provide SACOG's Transportation Committee budget updates (As necessary)
   d. Process all vendor invoices for payment (As needed)
   e. Monitor and maintain 511 Traveler Information Systems (web and telephone based) (As needed)
   f. Monitor Freeway Service Patrol activities (As needed)
   g. Work with vendors to support the maintenance and operation of the call box system (As needed).
   h. Prepare call box site removal plan (November 2014).
   i. **Provide draft strategic plan and budget update (December 2014)**
   j. **Provide annual budget to the Transportation Committee/SACOG Board, for their approval (May 2015)**
   k. **Provide annual SAFE Report to Transportation Committee, including Summary of Call box calls for the year, Call box Calls grouped by Type of Assistance, Bike Trail Call boxes, Freeway Service Annual Reports of activity and types of assists (May 2015)**
2. Glenn County Service Authority for Freeways and Expressways (SAFE)

This project is used to account for SACOG administrative activities in accordance with the Contract with the County of Glenn, for implementing, operating and maintaining the motorist aid system of call boxes within the County of Glenn. SACOG is reimbursed for these costs from the Glenn County SAFE Special Revenue Fund.

Work will be performed by SAFE Program Manager and other SACOG staff.

Tasks and **End Products**:

a. Monitor daily call box operations for the Glenn County call box area (Weekly)
b. Process all vendor invoices for payment (As needed)
c. **Report activity to the County of Glenn upon their request (Upon request)**
INDIRECT COSTS
FISCAL YEAR 2014-15

Total Direct Salaries and Benefits from OWP $ 6,367,837
Total Indirect Expenditures 2,935,465
Carry Forward (+/-) from FY 2012-13 131,639
Adjusted Indirect Total Costs $ 3,067,104

INDIRECT RATE - FY 2014-15
(Total Adjusted Indirect Costs + Total Direct Salaries and Benefits from OWP)

¹This dollar amount includes the $148,005 carryover number from the cumulative FY 2011-12 Indirect cost calculation, per Caltrans ICAP audit procedures. This number has to match the OWP indirect costs shown on the OWP Expenditure page. These are costs that SACOG over recovered in past years.
This page intentionally left blank.
**INDIRECT PROJECTS**

**Objective:** To provide management and administrative support of the agency’s advisory role to local government on matters of interjurisdictional concern, its comprehensive planning program in transportation, and its mandates in airport land use planning, housing, air quality, and water quality.

**Discussion:** To provide management support of SACOG’s transportation project funding and delivery efforts and its comprehensive transportation planning programs, the public information, technical services, various special projects, and local technical assistance.

**Projects:**

1. **INFORMATION SYSTEMS**  
   (State and Federal Requirements)  
   Information Systems staff maintains and develops SACOG's computing and networking environment; provides programming and database application support; and prepares an annual Information Technology Plan to guide improvements to the environment.

   Tasks and **End Products:**
   a. An effective and well-maintained computing and information systems environment (Ongoing)

2. **FINANCE/ACCOUNTING/AUDITING**  
   Staff performs a number of tasks, including the financial monitoring of grant awards, preparation of the annual operating and OWP budget, obtaining approval of the Cost Allocation Plan, preparation of various external and internal financial reports, and ongoing accounting and record-keeping duties. In addition, staff prepares and obtains approval of numerous third-party contracts to implement various components of the work program; arranges for the required annual financial and TDA audits and ensures their completion in a timely manner; maintains compliance with internal control structure and procedures for administering grants, ensuring that there are no violations of laws and regulations; provides risk management services; administers the purchasing policy; administers pass-through funds; and provides support to SACOG staff.

   Tasks and **End Products:**
   a. Various grant invoices for reimbursement (Pursuant to grant requirements)
   b. Various monthly/quarterly external/ internal financial reports (Monthly/quarterly)
   c. Agreements with funding agencies to secure funding (Ongoing)
   d. Obtain and maintain adequate insurance policies to provide necessary coverage for office facilities and equipment (Ongoing)
   e. **Annual financial transactions report to the State Controller (August 2014)**
   f. **Annual financial audit of SACOG for fiscal year 2009-010 (December 2014)**
   g. **Annual Operating Budget for FY 2013-14 (April 2015)**
3. **HUMAN RESOURCES**

Responsible for SACOG’s salary and benefits administration; human resource policy monitoring and compliance; recruitment of and recordkeeping for staff; insures compliance with all federal and state wage and benefit regulations; performs wage, benefit and classification studies; prepares updates to all internal administrative documents, e.g., Personnel Rules, Classification Plan, Administrative Procedures; and interprets adopted agency policies and procedures for staff and external requests.

Tasks and **End Products:**

a. Maintain the Employee Handbook (Ongoing)

b. Performance evaluation reports of staff (Ongoing)

c. Maintain and administer agency compensation and benefits plans (Ongoing)

d. Maintain personnel files (Ongoing)

e. Prepare and maintain records of all payroll/personnel records (Ongoing)

f. File and report payroll/personnel transactions to appropriate entities (Monthly)

4. **OFFICE OPERATIONS**

Staff performs a variety of tasks including secretarial, receptionist, photocopying, mail processing, errand running, bulk mailing, office equipment maintenance, vehicle maintenance, meeting arrangements and scheduling, travel arrangements, FPPC reporting functions, and ensuring compliance with the Brown Act. This project includes all administrative functions involved with Board of Directors meetings, including the preparation, processing, and posting of agendas in accordance with the Brown Act, agenda package assembly, and preparing minutes of the meeting. Staff also provides administrative support to Board committee meetings. Administrative functions include programming and training of word processing system utilized by all staff, as well as maintenance of pertinent office forms, records, and documents. Staff conducts such duties as may be required by the bylaws of the Building Financing Corporation.

Tasks and **End Products:**

a. Agendas and staff reports for monthly Board of Directors and committee meetings (Ongoing)

b. Agency correspondence, forms and documents (Ongoing)

c. Minutes of Board and committee meetings (Ongoing)

d. Maintain and administer legal agreements with third-party contractors, partner agencies and others (Ongoing)

**EL DORADO COUNTY TRANSPORTATION COMMISSION**  
**FISCAL YEAR 2014-15 PLANNING ACTIVITIES**

**WORK ELEMENT 50: INDIRECT COSTS**—
To manage and administer the day-to-day operations of the agency.

**END PRODUCTS:**
1. Check registers. *Monthly*
2. Employee performance reviews. *Annually*
3. Financial statements and financial reports. *As needed*
4. Tax reports. *Quarterly*
5. Updated Bylaws, Administrative Operating Procedures, and Personnel Policies. *As needed*

**WORK ELEMENT 100: AGENCY ADMINISTRATION AND MANAGEMENT**—
To provide management and administration of the Overall Work Program, conduct the day-to-day operations of the agency, and provide support to the Commission and its committees.

**END PRODUCTS:**
1. Fiscal Year 2014/2015 Overall Work Program Quarterly Reports. *Quarterly*
2. Fiscal Year 2014/2015 Overall Work Program Amendments. *As needed*
4. Agendas for Technical Advisory Committee and Transportation Commission meetings. *Monthly, or as needed*
5. Publish public hearing notices. *As needed*

**WORK ELEMENT 110: INTERGOVERNMENTAL COORDINATION**—
To coordinate the efforts of the Commission with Tribal, local, regional, and state agencies.

**END PRODUCTS:**
1. Reports to the Commission on intergovernmental coordination and activities of related local, regional, and state agencies as well as the Shingle Springs Rancheria Tribal Government. *As needed*
2. Correspondence and communications to other government agencies and jurisdictions. *As needed*

**WORK ELEMENT 111: RURAL COUNTIES TASK FORCE**—
To coordinate the participation of rural transportation agencies in the statewide issues pertinent to transportation planning, programming and funding.

**END PRODUCTS:**
1. Rural Counties Task Force agendas. *Bi-Monthly or as needed*
2. Rural Counties Task Force Annual Report to the CTC. *December*
3. Correspondence and communications to Caltrans, California Transportation Commission, governmental agencies, Regional Council of Rural Counties, and Rural Counties Task Force Members. *As needed*
4. Billings to Rural Counties Task Force member agencies for voluntary dues. *July*
**WORK ELEMENT 112: RURAL COUNTIES TASK FORCE — REGIONAL TRANSPORTATION PLANNING AGENCY**

**ADMINISTRATIVE SUPPORT GUIDEBOOK**

To coordinate the development of a Regional Transportation Planning Agency (RTPA) Administrative Support Guidebook on behalf of the Rural Counties Task Force

**END PRODUCTS:**

1. RTPA Administrative Support Guidebook. *November-December 2014*

**WORK ELEMENT 120: TDA AND TRANSIT ADMINISTRATION**

To effectively administer the provisions of the Transportation Development Act (TDA), including receiving, reviewing, and approving claims for Local Transportation Funds and State Transit Assistance Funds for El Dorado County in the jurisdiction of the El Dorado County Transportation Commission (Western Slope); and to provide staff support to the EDCTC Social Services Transportation Advisory Council (SSTAC)

**END PRODUCTS:**

1. Preliminary and Final STA and TDA apportionments for Fiscal Year 2015/2016. *February and June 2015*
3. Allocation instructions to the County Auditor for TDA and STA funds. *June 2015*
4. Claim notifications to jurisdictions. *June 2015*
6. Press releases, public service announcements, public notices, and public meeting/hearing flyers. *As needed*
7. SSTAC agendas and minutes. *As needed*

**WORK ELEMENT 125: EL DORADO COUNTY AIRPORT LAND USE COMMISSION**

To effectively administer the El Dorado County Airport Land Use Commission (ALUC) and related aviation system planning activities; to provide technical assistance to the Placerville and Georgetown Airport Advisory Committees and the Cameron Airpark Airport District; and to update and maintain the Airport Comprehensive Land Use Plans for each of the three airports under the jurisdiction of the El Dorado County ALUC

**END PRODUCTS:**

1. Determination of project consistency with ALUCP. *As needed*
2. Determination of general plan consistency with ALUCP. *As needed*
3. Aviation-related grant proposals, funding plans, and interagency agreements. *Ongoing*
4. ALUC meeting agendas. *As needed*
5. ALUCP amendments. *As needed*

**WORK ELEMENT 130: EL DORADO COUNTY FREEWAY SERVICE PATROL**

To operate a Freeway Service Patrol (FSP) along US 50 within El Dorado County.

**END PRODUCTS:**

1. Progress reports. *Quarterly*
2. Manage and Monitor FSP Service. *Ongoing*
3. FSP brochures. *Ongoing*
WORK ELEMENT 200: REGIONAL TRANSPORTATION PLAN—
To prepare and implement the EDCTC Regional Transportation Plan (RTP) and coordinate with partner agencies on the development and amendment of the El Dorado County components of SACOG’s Metropolitan Transportation Plan (MTP).

END PRODUCTS:
1. RTP amendments and updates. As needed
2. SACOG MTP 2035 that includes El Dorado County projects and priorities. SACOG schedule
3. Updated population, employment, housing, and traffic data. Ongoing
4. Draft EDCTC 2015-2035 Regional Transportation Plan elements. December
5. Request for Proposals for Environmental Document consultant services. December
6. Amendments to the MTP and MTIP. As needed
7. Assistance to member agencies and EDCTA on RTP, MTP, and MTIP issues. As needed
8. Document Tribal government-to-government relations. As needed

WORK ELEMENT 221: TRANSIT PLANNING—
To coordinate with the El Dorado County Transit Authority (EDCTA) on the development and implementation of transit-related planning efforts; and to coordinate with the El Dorado County Transit Authority on the implementation of state and federal grant programs that are not administered through the Transportation Development Act.

END PRODUCTS:
1. Coordinated Public Transit Human Services Transportation Plan and Short- and Long-Range Transit Plan amendments. As needed
2. Press releases, public service announcements, public notices, and public meeting/hearing flyers. As needed
3. FTA Section 5310, 5307, and 5311 (Transit Technical Assistance and Transit Planning Studies) grant applications and programming documents. As needed
4. PTMISEA and California Transit Security Grant Program applications and programming documents. As needed
5. Reporting documents for FTA grant funded projects. Quarterly

WORK ELEMENT 222: EL DORADO TRANSIT DIAL-A-RIDE ZONE ASSESSMENT AND IMPLEMENTATION PLAN—
The project will conduct a review, assessment and evaluation of the current Dial-A-Ride (DAR) zones in regard to service provision, service equity, fare structure, fare equity and service coordination with other transit services within the El Dorado County Transit Authority (EDCTA) service area. Further, the project will provide suggested alternatives for service enhancements and equity improvements. The completed DAR Zone Assessment will be used to inform a strategic implementation plan that will demonstrate cost benefits and outline a strategy for implementation of suggested system modifications and enhancements.

END PRODUCTS:
1. Draft El Dorado County Transit Authority Dial A Ride Zone Assessment & Implementation Plan. March 2015
2. Final El Dorado County Transit Authority Dial A Ride Zone Assessment & Implementation Plan. June 2015
**Work Element 224: El Dorado County Transit Authority Market Assessment and Marketing Plan**

To complete a strategic marketing plan for the El Dorado County Transit Authority. The marketing plan is fundamental to promoting and maintaining transit service in El Dorado County in order to provide access to transportation options for all segments of society.

**End Products:**
1. Draft El Dorado County Transit Authority Marketing Plan. March 2015

**Work Element 225: El Dorado County Short- and Long-Range Transit Plan**

To update the short-range transit service capital and financial plan for El Dorado Transit, and to develop a long-range vision for future transit needs in El Dorado County. The short-range element of the plan will be valid for a five-year period between the years of 2013/14 through 2017/18. The long-range element of the plan will be valid for a 25-year period from the time of adoption.

**End Products:**
1. Draft El Dorado County Short- and Long-Range Transit Plan. April 2014

**Work Element 249: Cameron Park Area Community Transportation Plan**

To propose safety, mobility, and operational improvements to improve vehicular and non-motorized circulation in the Cameron Park area of El Dorado County.

**End Products:**
1. Draft Cameron Park Area Community Transportation Plan. April 2015
2. Final Cameron Park Area Community Transportation Plan. June 2015

**Work Element 255: Bay to Tahoe Basin Recreation and Tourism Rural Roadway Impact Study**

To identify the significance of interregional recreation and tourism travel patterns through rural areas connecting urban population centers to the recreation resources within and surrounding the Lake Tahoe Basin; to quantify the significance and value of rural roadway networks which provide the connectivity between urban population centers and internationally significant recreation destinations; to provide data and analysis from which local agencies can better understand the implications of transportation policy decisions impacting rural roadways and recreational travel; and to develop consensus among regional, state, and federal policy makers to design and implement investment and funding strategies as well as transportation policies which stimulate improvements to rural transportation infrastructure and programs that serve as the framework for recreation and tourism travel.

**End Products:**
WORK ELEMENT 256: SACRAMENTO-PLACERVILLE TRANSPORTATION CORRIDOR ALTERNATIVES ANALYSIS—
To partner with the El Dorado County, El Dorado County Trails Advisory Committee, Sacramento-Placerville Transportation Corridor Joint Powers Authority, Sacramento County, City of Folsom, and Caltrans to perform an alternatives analysis of potential transportation improvements in the Sacramento-Placerville Transportation Corridor from Missouri Flat Road in El Dorado County to the Humbug-Willow Creek Trail in the City of Folsom; and to provide data and analysis from which local agencies and elected officials can assess the implications of transportation policy and funding decisions related to transportation improvements in the SPTC from Missouri Flat Road in El Dorado County to the Humbug-Willow Creek Trail in the City of Folsom.

END PRODUCTS:
1. Draft Sacramento-Placerville Transportation Corridor Alternatives Analysis. February 2015
2. Final Sacramento-Placerville Transportation Corridor Alternatives Analysis. June 2015

WORK ELEMENT 257: SUSTAINABLE AGRITOURISM MOBILITY STUDY—
To partner with the El Dorado County Community Development Services Department Transportation Division, El Dorado Transit Authority, City of Placerville, Caltrans, the Sacramento Area Council of Governments, and the El Dorado County Air Quality Management District to analyze travel demand on US 50 and local roadway networks in agritourism areas of El Dorado County to understand how agritourism impacts congestion, mobility, operations, GHG emissions, and interregional travel on US 50. US 50 is a significant transportation corridor that California and Nevada rely on heavily for commerce, tourism, and recreational access. During the fall harvest season over one million people travel on US 50 from metropolitan areas to visit Apple Hill and south-county wineries, contributing over $30 million annually to the local economy while creating significant operational issues on US 50 in the project area; and to provide the data and analysis necessary to understand the impact of agritourism travel on US 50, SR 49, and local roadways in the study area and to identify solutions necessary to mitigate those impacts to allow for the continued economic use of the land for agritourism.

END PRODUCTS:
1. Draft Sustainable Agritourism Mobility Study – April 2016
2. Final Sustainable Agritourism Mobility Study – June 2016

WORK ELEMENT 300: STATE AND FEDERAL PROGRAMMING—
To select and prioritize projects and program funds available through the State Transportation Improvement Program (STIP), including the Regional Transportation Improvement Program (RTIP), and Interregional Transportation Improvement Program (ITIP); to select and prioritize projects and program funds available through the federal transportation bill, including Regional Surface Transportation Program (RSTP) and Congestion Mitigation and Air Quality (CMAQ) funds; and to ensure that priority projects have Project Initiation Documents completed prior to programming.

END PRODUCTS:
1. Selection of projects and programs to use state and federal funds available to the Commission. Ongoing
2. CTC adopted STIP. Biennially
3. STIP Amendments. As needed
4. Document Tribal government-to-government relations. As needed
5. A schedule and prioritized list of proposed Project Initiation Documents to be included in the Caltrans PID Three-Year Strategic Plan. **Annual**

**WORK ELEMENT 310: TRANSPORTATION PROJECT DELIVERY AND OVERSIGHT—**
To insure that projects using federal, state, and local grant funds use those funds in a timely and cost effective manner; and to coordinate with local and Tribal jurisdictions to develop projects that meet specific federal program guidelines.

**END PRODUCTS:**
1. Timely delivery of STIP, RSTP, ATP, TE, and CMAQ funded projects. **On schedule**
2. Maintained project status database. **Ongoing**
3. Quarterly reports to the Commission on the status of project delivery of STIP, RSTP, CMAQ, CMIA, ATP, and TE projects. **July 2014, October 2014, January 2015, April 2015**
4. Federal grant and fund program applications. **As needed**
5. Approved allocation requests for STIP, ATP, and TE funds. **As needed**
6. Propose STIP, ATP, and TE amendments. **As needed**

**WORK ELEMENT 330: ALTERNATIVE TRANSPORTATION PROGRAMS—**
To promote projects that will maintain, improve, and expand public transit systems and other alternative modes of transportation, such as carpooling, bicycling, and walking. Additional measures include compressed work weeks and telecommuting.

**END PRODUCTS:**
1. Marketing materials for alternative transportation promotions. **As needed**
2. Press releases, newsletter, and newspaper articles. **Quarterly, or as needed**
3. Document Tribal government-to-government relations. **As needed**
4. Annual International Walk to School Day Events at participating schools in El Dorado County. **October 2014**
5. Annual May is Bike Month events including Safe Cycling Clinics, May is Bike Month Bike Ride(s). **April-May 2015**
6. SPTC transportation facility grant applications (i.e., ATP). **As needed**

**WORK ELEMENT 400: PUBLIC EDUCATION, OUTREACH, AND MARKETING—**
To support EDCTC’s project delivery, planning, and consensus-building programs by providing information on transportation and related issues and by seeking input on these issues from interested parties.

**END PRODUCTS:**
1. Maintenance of computerized mailing list database. **Ongoing**
2. News releases. **As needed**
3. EDCTC website. **Ongoing**
4. EDCTC Extra. **Spring 2015**
5. Presentations to jurisdictions, neighborhood associations, special interest advocacy groups, and others. **As needed**
6. Promotional materials specific to special alternative transportation events. **As needed**
7. Document outreach efforts and meetings with traditionally under-represented and under-served populations and their community leaders. **As needed**
**WORK ELEMENT 410: TRANSPORTATION ADVOCACY PROGRAM—**

To obtain discretionary state and federal transportation funds for highway and street improvements, transit operations, pedestrian/bicycle improvements, and other miscellaneous transportation projects, programs, and plans and to participate in the legislative process to benefit the county’s transportation interests.

**END PRODUCTS:**
1. Legislative analysis and staff reports. *Monthly*
2. Funding for priority projects. *Ongoing*
WORK ELEMENT 10: AGENCY ADMINISTRATION—
To provide management and administration to all work elements in the Overall Work Program and to conduct day to day operations of the agency.

WORK ELEMENT 10A: AGENCY ADMINISTRATION: INDIRECT—
To specify those elements of the overall Agency Administration that are billable as indirect labor under an approved Indirect Cost Allocation Plan (ICAP)

END PRODUCTS:
1. PCPTPA meeting agendas and staff reports, paper and online versions Monthly
2. List of warrants Monthly
3. Quarterly reports of PCPTPA operating budget status Quarterly
4. Updated Bylaws, Operating Procedures and Personnel Policies As Needed
5. Employee performance reviews Annually
6. Actuarial analysis of benefit programs As needed
7. Employee timesheets Bi-weekly
8. Reports and updates to Board and/or member agencies on Federal, State, and regional programs and policies Ongoing

WORK ELEMENT 10B: AGENCY ADMINISTRATION: DIRECT—
To specify those elements of the overall Agency Administration that are billable as direct costs to Rural Planning Assistance (RPA) funds.

END PRODUCTS:
1. Quarterly progress reports on FY 2014/15 Overall Work Program Quarterly
2. FY 2014/15 Overall Work Program and Budget amendments September 2014, February 2015, or as needed
3. Preliminary Draft FY 2015/16 Overall Work Program and Budget February 2015

WORK ELEMENT 11: TRANSPORTATION DEVELOPMENT ACT ADMINISTRATION—
To effectively administer all aspects of the Transportation Development Act (TDA) in the jurisdiction of the Placer County Transportation Planning Agency.

END PRODUCTS:
1. Preliminary Annual Findings of Apportionment for FY 2015/16 February 2015
2. Financial and Compliance Audits of PCPTPA and all TDA claimants March 2015
3. A report summarizing the unmet transit needs testimony, including analysis and recommendations for findings of unmet transit needs February 2015
4. TDA and STA claims Ongoing
5. SSTAC meeting agendas Ongoing
6. Transit Operators Working Group meeting agendas Ongoing
**WORK ELEMENT 12: INTERGOVERNMENTAL COORDINATION—**
To share information and coordinate with outside agencies and jurisdictions on matters pertinent to the development of effective transportation plans and projects.

**END PRODUCTS:**
1. Staff reports to Board and jurisdictions on pertinent topics *As needed/in accordance with above schedules*
2. Commentary on white papers, draft plans and policies, and similar correspondence and communications to other governmental agencies *As needed/in accordance with above schedules*

**WORK ELEMENT 13: INTERGOVERNMENTAL ADVOCACY—**
To represent Agency needs and priorities with outside agencies and jurisdictions on matters pertinent to transportation planning, programming, and funding.

**END PRODUCTS:**
1. 2015 Federal Legislative Platform  *January 2015*
2. 2015 State Legislative Platform  *February 2015*
3. Information packages or proposals for priority programs and projects  *As needed*
4. Information packages on high priority projects for Federal and State advocacy  *March 2015*
5. Analysis and recommendations on Federal and State legislative proposals  *As needed*
6. Letters supporting or opposing pertinent legislation  *As needed*

**WORK ELEMENT 14: COMMUNICATIONS & OUTREACH—**
To inform the public of the Agency’s activities and issues of interest, and to gather effective public input.

**END PRODUCTS:**
1. Information pieces, such as Power Point presentations and brochures, about Agency activities and responsibilities  *Ongoing*
2. PCTPA “e-newsletter”  *Bi-monthly*
3. Social media postings  *Ongoing*
4. Community television DVDs of Board meetings  *Monthly*
5. Agency web site updates  *Ongoing*
6. Board agenda postings on website  *Monthly*
7. Project and event signage  *As needed*
8. Project and event website construction and maintenance  *As needed*
9. Fact sheets, program and project summaries, and other printed materials  *As needed*

**WORK ELEMENT 15: BUILDING ADMINISTRATION—**
To provide management and administration of the Agency’s office property.

**END PRODUCTS:**
1. Accounts receivable, accounts payable, balance sheets, and other accounting records  *Ongoing*
2. Tenant leases  *As needed*
**WORK ELEMENT 20: REGIONAL TRANSPORTATION PLAN (RTP) —**

To update the Placer County Regional Transportation Plan and coordinate with SACOG on the development of the Metropolitan Transportation Program (MTP).

**END PRODUCTS:**
1. RTP progress reports and documents *July 2014 – June 2015*
2. PCTPA/SACOG RTP/MTP workshop agendas and peripheral materials *Fall 2014 as needed*
3. Draft RTP Transportation Projects List *September 2014*

**WORK ELEMENT 23: WESTERN PLACER CONSOLIDATED TRANSPORTATION SERVICES AGENCY (CTSA) ADMINISTRATION—**

To provide staffing and administrative support for the Western Placer Consolidated Transportation Services Agency (CTSA) Joint Powers Authority (JPA).

**END PRODUCTS:**
1. Joint Powers Agreement amendments *As needed*
2. CTSA FY 2014/15 Budget updates *As needed*
3. CTSA FY 2015/16 Budget *May 2015*
4. Contracts for CTSA transit services *Annually as needed*
5. Updates/amendments to agreements and program guidelines *As needed*
6. CTSA Board agendas and minutes *Quarterly as needed*
7. CTSA financial reports *Quarterly*
8. Reports, audits, and other documentation required of CTSAs *July 2014 – June 2015 as needed*

**WORK ELEMENT 27: AIRPORT LAND USE COMMISSION/AVIATION PLANNING—**

To administer the Placer County Airport Land Use Commission (ALUC), Airport Land Use Comprehensive Plan (ALUCP), and related aviation activities.

**END PRODUCTS:**
1. Determinations of land use proposal consistency with ALUCP, including public hearings *As needed*
2. Updated jurisdiction land use plans/maps, zoning codes, or other planning documents to reflect the updated ALUCP *According to jurisdiction schedule*
3. Grant proposals, funding plans, and interagency agreements *Ongoing as needed*
4. ALUC meeting agendas *As needed*

**WORK ELEMENT 30: CONGESTION MANAGEMENT PROGRAM—**

To meet state Congestion Management Program requirements, including providing trip reduction programs and promoting transportation options to residents and employees in Placer County.

**END PRODUCTS:**
1. Updated “Way to Go” brochures *September 2014*
2. Taxi rides and rent-a-car services for emergency ride home participants *As needed*
3. Marketing materials for alternative transportation promotions *As needed*
4. Information and educational materials promoting transportation options in Placer County \textit{As needed}.
5. Employee transportation coordinator meeting agendas \textit{Quarterly}.
6. Agency website updates specific to transportation options \textit{Ongoing}.
7. Newsletter articles \textit{As needed}.
8. Summary of outreach efforts and promotions \textit{Monthly}.
9. Bucks for Bikes promotional material, applications, and subsidies \textit{May 2015}.
10. Marketing materials for coordinated transit marketing campaigns including Summer Youth Bus Pass \textit{As needed}.
11. Marketing materials for general awareness transit advertisements \textit{As needed}.
12. Rail marketing materials \textit{Ongoing}.
13. Public service announcements for public transit services \textit{As needed}.
14. Newsletter articles \textit{As needed}.
15. TNT-TMA progress reports and invoices \textit{Quarterly}.

\textbf{WORK ELEMENT 33: BIKEWAY PLANNING—}

To provide ongoing bicycle planning, safety education and coordination services.

\textbf{End Products:}
1. Bikeway funding applications \textit{As needed}.
2. Updated Placer Countywide Bikeway Map \textit{March 2015/As needed}.

\textbf{WORK ELEMENT 35: RAIL PROGRAM—}

To support and enhance the success of Capitol Corridor rail service in Placer County, to administer the agency’s passenger rail, freight rail and rail grade crossing programs, and to maximize the rail funding available to local jurisdictions.

\textbf{End Products:}
1. CCJPA public hearings, meetings, presentations, Annual Business Plan, public service announcements and press releases \textit{Per CCJPA schedule}.
2. Memorandum of Agreement with Union Pacific Railroad, CCJPA, and/or other appropriate parties on terms for provision of additional passenger rail service to Placer jurisdictions \textit{As needed}.

\textbf{WORK ELEMENT 40: PLACER PARKWAY—}

To support the completion of the federal and state environmental document that will provide construction level clearance for a future Placer Parkway – a new roadway linking State Route (SR) 70/99 in Sutter County and SR 65 in Placer County.

\textbf{WORK ELEMENT 41: I-80/SR 65 INTERCHANGE IMPROVEMENTS (MULTI-YEAR PROJECT) —}

To develop a shelf-ready phased improvement program for the I-80/SR 65 Interchange, including environmental clearances, design, and right-of-way.

\textbf{End Products:}
1. Consultant work products \textit{In accordance with project work program}.
2. Newsletters, press releases, website updates, advertisements/announcements, and outreach materials \textit{Ongoing}.
WORK ELEMENT 42: SR 65 CAPACITY AND OPERATIONAL IMPROVEMENTS (MULTI-YEAR PROJECT) —
To develop a shelf-ready improvement program for SR 65 improvements between I-80 and Lincoln Boulevard, including environmental clearance, design, and right-of-way.

END PRODUCTS:
1. SR 65 Capacity and Operational Improvements consultant work products In accordance with work program
2. Consultant contract amendments As needed
3. Newsletters, press releases, and outreach materials Ongoing

WORK ELEMENT 43: I-80 AND SR 65 IMPROVEMENT SEQUENCING (MULTI-YEAR PROJECT) —
To determine when future phases of I-80 and SR 65 transportation infrastructure should be constructed to improve safety and relieve existing congestion using the limited funding available.

END PRODUCTS:
1. Project team meeting agendas July 2014 – June 2015
2. Consultant work products In accordance with project work program
3. Draft I-80 and SR 65 Improvement Sequencing Report FY 2015/16

WORK ELEMENT 44: I-80 AUXILIARY LANES (MULTI-YEAR PROJECT) —
To develop a shelf-ready improvement program for I-80 auxiliary lanes, including environmental clearances, design, and right of way.

END PRODUCTS:
1. I-80 Auxiliary Lane environmental process consultant work products In accordance with work program
2. Amendments and updates to consultant contract, including work program, timelines, and budget As needed

WORK ELEMENT 50: PROJECT PROGRAMMING —
To maximize the funding available to priority transportation projects and programs through accurate and efficient programming of Federal and State transportation dollars.

END PRODUCTS:
1. SACOG MTIP Updates Quarterly/as needed
2. SACOG Air Quality Conformity Determinations on MTIP In accordance with MTIP updates
3. Amendments and applications to Proposition 1B program As needed
4. FTA Section 5310 Priority List May 2015, per Caltrans schedule
5. FTA Section 5311 Program of Projects and Application January 2015
6. FTA Section 5313(b) Transit Technical Planning Grant application March 2015
7. FHWA Planning Partnership Grant application March 2015
8. State Transportation Improvement Program (STIP) amendments As needed
9. Other grant and fund program applications As needed
10. Provision of grant applications and reports to local agencies and the general public Ongoing
11. Cooperative Agreements with Caltrans for the programming of funds As needed
12. Project listings on Caltrans’ Three Year Strategic Plan for PIDs Per Caltrans determination
**WORK ELEMENT 55: PROJECT MANAGEMENT AND DELIVERY**—

To monitor, manage, and otherwise ensure timely delivery of transportation projects included in Federal and State funding programs.

**END PRODUCTS:**
1. PDT and Management Team agendas  *In accordance with project schedules*
2. Project and funding status reports, including SB 45  *Quarterly*
3. Progress reports for Proposition 1B grant programs including PTISMEA  *Quarterly*
4. Progress reports on grant funding programs  *As required*
5. Capacity and operational analyses, environmental assessments, and other technical documents on the Third Track capacity improvements between Sacramento and Roseville  *In accordance with CCJPA schedule*
6. Caltrans Fund Transfer Agreements  *As needed*
7. Project signage that highlights local agency participation  *As needed*
8. Cooperative Agreements, Memoranda of Understanding, and other agreements  *As needed*
9. Transportation facility improvements  *In accordance with project schedules*

**WORK ELEMENT 60: REGIONAL TRANSPORTATION FUNDING STRATEGY**—

To develop a strategy to fund the critical regional transportation projects in Placer County based on current economic conditions.

**END PRODUCTS:**
1. Informational materials, including fact sheets, maps, charts, and PowerPoint presentations, on transportation needs and funding  *Ongoing*
2. Agendas for meetings with stakeholders, community groups, and others  *Ongoing*
3. Funding Strategy Steering Committee agendas and supporting documents  *As needed*
4. Regional Transportation Funding Strategy update  *June 2015*
5. Public survey data results  *July 2014, February 2015/as needed*

**WORK ELEMENT 71: BAY TO BASIN TRAVEL STUDY (MULTI-YEAR PROGRAM)**—

To provide the data and analysis necessary to incorporate the impact of tourism travel on the study corridors, including I-80, SR 49, 89, and 267 in Placer County, into rural transportation planning, policy, management, maintenance, and funding decisions on a statewide level.

**END PRODUCTS:**
1. Bay to Basin Partner Meeting agendas  *July 2014 – January 2015*
2. Bay to Basin work products  *According to EDCTC/consultant contract*

**WORK ELEMENT 72: ROCKLIN COMMUNITY TRANSIT STUDY (MULTI-YEAR PROJECT) —**

The Rocklin Community Transit Planning Study will evaluate reallocating existing transit resources within the City of Rocklin to provide more direct bus route coverage to locations currently not served. Upon completion, the Study will be incorporated into the Placer County Short Range Transit Plan (SRTP). The Study will also help facilitate PCTPA’s determination of unmet transit needs in the City of Rocklin.
END PRODUCTS:
1. Project Team Kick-off Meeting and Monthly Meetings Notes  
   July 2014 – April 2015
2. Primary Stakeholder Input Memo  
   FY 2013/14
3. PowerPoint Presentation and Community Meeting and Public Workshop Summaries  
   Ongoing
4. Draft and Final Study  
   February 2015, April 2015
5. Invoice Package and Quarterly Reports  
   Ongoing

WORK ELEMENT 79: INTELLIGENT TRANSPORTATION SYSTEMS (ITS) —
To facilitate implementation of ITS technology in Placer, El Dorado, Nevada, and Sierra County areas.

END PRODUCTS:
1. Tahoe Gateway Counties ITS Coordination agendas  As needed
2. ITS funding grants  As opportunities arise

WORK ELEMENT 80: FREEWAY SERVICE PATROL (FSP) —
To facilitate implementation of a Freeway Service Patrol (FSP) on I-80 and SR 65 in South Placer County.

END PRODUCTS:
1. Progress reports  Quarterly
2. Freeway Service Patrol brochures  Ongoing
3. Updated contract for FSP services  July 2014
4. Freeway Service Patrol signage updates  As needed

WORK ELEMENT 100: SOUTH PLACER REGIONAL TRANSPORTATION AUTHORITY (SPRTA) ADMINISTRATION—
To provide staffing and administrative support for the South Placer Regional Transportation Authority.

END PRODUCTS:
1. SPRTA Implementation Plan updates  As needed
2. SPRTA Improvement Program updates  As needed
3. Joint Powers Agreement amendments  As needed
4. SPRTA FY 2014/15 Budget updates  As needed
5. SPRTA FY 2015/16 Budget  May 2015
6. SPRTA Cash flow projections  As needed
7. Contracts for needed services, such as traffic modeling and attorney services  Annually/as needed
8. SPRTA Board agendas and minutes  Monthly/as needed
9. SPRTA Technical Advisory Committee agendas and minutes  Monthly/as needed
10. SPRTA financial reports  Quarterly

AFFIRMATION OF APPLICANT

Name of Applicant: SACRAMENTO AREA COUNCIL OF GOVERNMENTS

Name and Relationship of Authorized Representative: MIKE MCKEEVER, Chief Executive Officer

BY SIGNING BELOW, on behalf of the Applicant, I declare that the Applicant has duly authorized me to make these Certifications and Assurances and bind the Applicant's compliance. Thus, the Applicant agrees to comply with all Federal statutes and regulations, and follow applicable Federal guidance, and comply with the Certifications and Assurances as indicated on the foregoing page applicable to each application its authorized representative makes to the Federal Transit Administration (FTA) in Federal Fiscal Year 2014, irrespective of whether the individual that acted on its Applicant's behalf continues to represent the Applicant.

FTA intends that the Certifications and Assurances the Applicant selects on the other side of this document should apply, as provided, to each Project for which the Applicant seeks now, or may later seek FTA funding during Federal Fiscal Year 2014.

The Applicant affirms the truthfulness and accuracy of the Certifications and Assurances it has selected in the statements submitted with this document and any other submission made to FTA, and acknowledges that the Program Fraud Civil Remedies Act of 1986, 31 U.S.C. 3801 et seq., and implementing U.S. DOT regulations, “Program Fraud Civil Remedies,” 49 CFR part 31, apply to any certification, assurance or submission made to FTA. The criminal provisions of 18 U.S.C. 1001 apply to any certification, assurance, or submission made in connection with a Federal public transportation program authorized by 49 U.S.C. chapter 53 or any other statute.

In signing this document, I declare under penalties of perjury that the foregoing Certifications and Assurances, and any other statements made by me on behalf of the Applicant are true and correct.

Signature_____________________________________________      Date:  _________________

Name: MIKE MCKEEVER, Chief Executive Officer
Authorized Representative of Applicant

AFFIRMATION OF APPLICANT'S ATTORNEY

For (Name of Applicant): SACRAMENTO AREA COUNCIL OF GOVERNMENTS

As the undersigned Attorney for the above named Applicant, I hereby affirm to the Applicant that it has authority under State, local, or tribal government law, as applicable, to make and comply with the Certifications and Assurances as indicated on the foregoing pages. I further affirm that, in my opinion, the Certifications and Assurances have been legally made and constitute legal and binding obligations on the Applicant.

I further affirm to the Applicant that, to the best of my knowledge, there is no legislation or litigation pending or imminent that might adversely affect the validity of these Certifications and Assurances, or of the performance of its FTA Project or Projects.

Signature_____________________________________________      Date:  _________________

Name: KIRK E. TROST, Legal Counsel
In accordance with 23 CFR 450.334 and 450.220, Caltrans and the Sacramento Area Council of Governments, Metropolitan Planning Organization for the Sacramento Metropolitan Planning Area and the Yuba City-Marysville urbanized areas, hereby certify that the transportation planning process is addressing the major issues in the metropolitan planning area and is being conducted in accordance with all applicable requirements of:

II. In nonattainment and maintenance areas, sections 174 and 176 (c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506 (c) and (d)) and 40 CFR part 93;

IV. Section 1003(b) of the Intermodal Surface Transportation Efficiency Act of 1991 (Pub. L. 102-240) regarding the involvement of disadvantaged business enterprises in the FHWA and the FTA funded planning projects (sec. 105(f), Pub. L. 97-424, 96 Stat. 2100; 49 CFR part 23);

V. Section 1101(b) of the SAFETEA-LU (Pub. L. 109-59) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;

VI. The provision of the Americans With Disabilities Act of 1990 (Pub. L. 101-336, 104 Stat 327, as amended) and the U.S. DOT implementing regulations (49 CFR 27, 37 and 38);

VII. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR parts 27, 37, and 38;

VIII. 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;

IX. 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;

X. The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;

XI. Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and

XII. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.
DEPARTMENT OF TRANSPORTATION – DEBARMENT AND SUSPENSION CERTIFICATION

FISCAL YEAR 2014-2015

As required by U.S. DOT regulations on governmentwide Debarment and Suspension (Nonprocurement), 49 CFR 29.100:

1) The Applicant certifies, to the best of its knowledge and belief, that it and its contractors, subcontractors and subrecipients:
   a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
   b) Have not, within the three (3) year period preceding this certification, been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, state, or local) transaction or contract under a public transaction, violation of Federal or state antitrust statutes, or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
   c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, state, or local) with commission of any of the offenses listed in subparagraph (1)(b) of this certification; and
   d) Have not, within the three (3) year period preceding this certification, had one or more public transactions (Federal, state, and local) terminated for cause or default.

2) The Applicant also certifies that, if Applicant later becomes aware of any information contradicting the statements of paragraph (1) above, it will promptly provide that information to the State.

3) If the Applicant is unable to certify to all statements in paragraphs (1) and (2) of this certification, through those means available to Applicant, including the General Services Administration’s Excluded Parties List System (EPLS), Applicant shall indicate so in its applications, or in the transmittal letter or message accompanying its annual certifications and assurances, and will provide a written explanation to the State.
In signing this document, I declare under penalties of perjury that the foregoing certifications and assurances, and any other statements made by me on behalf of the Applicant are true and correct.

Signature ___________________________ Date ________________

Printed Name: Mike McKeever, Chief Executive Officer  
Sacramento Area Council of Governments

As the undersigned Attorney for the above named Applicant, I hereby affirm to the Applicant that it has the authority under state and local law to make and comply with the certifications and assurances as indicated on the foregoing pages. I further affirm that, in my opinion, these certifications and assurances have been legally made and constitute legal and binding obligations of the Applicant.

I further affirm to the Applicant that, to the best of my knowledge, there is no legislation or litigation pending or imminent that might adversely affect the validity of these certifications and assurances or of the performance of the described project.

AFFIRMATION OF APPLICANT’S ATTORNEY

For: Sacramento Area Council of Governments

Memorandum of Understanding – Sacramento Area Council of Governments, El Dorado County Transportation Commission, State of California approved by the Secretary of Business, Transportation and Housing Agency, June 30, 1993

Authorized by SB 1254 which was signed by the Governor on October 15, 1991, and by resolutions from the SAFE Board of Directors and the counties of Sacramento, San Joaquin, Yolo and Yuba, and cities therein, Capitol Valley Regional Service Authority for Freeways and Expressways. Effective October 1991 and continuing indefinitely

Memorandum of Understanding – Sacramento Area Council of Governments, County of Sacramento, Sacramento Regional Transit District, and the City of Sacramento, Funding and Provision of Transportation Services to the Elderly and Disabled in Sacramento County, effective July 1, 1988, and continuing until terminated

Memorandum of Understanding – Sacramento Area Council of Governments/Area 4 Agency on Aging, Coordination of Planning Activities, effective July 21, 1983, and continuing until terminated.
Caltrans and local agencies, such as SACOG, engaging in U.S. DOT-assisted contracting are required to implement a Disabled Business Enterprise (DBE) Program, pursuant to 49 Code of Federal Regulations Part 26. U.S. DOT-assisted contracts include funding from the Federal Highway Administration (FHWA), the Federal Transit Administration (FTA), and the Federal Aviation Administration (FAA).

Beginning in 2007, Caltrans implemented a program which provided that local agencies, including metropolitan planning organizations and regional transportation planning agencies, would no longer have their own separate DBE Programs but would rather adopt the Caltrans program. SACOG currently has a DBE Implementation Agreement with Caltrans. Under this agreement, SACOG continues its policies to ensure that DBEs have an equal opportunity to participate in DOT-assisted contracts and to encourage DBE participation. SACOG also continues to regularly report DBE participation information statistics to Caltrans.

Effective June 1, 2009, Caltrans implemented a race-conscious program for certain federal aid projects based upon a determination that there are under-utilized disadvantaged groups in the transportation construction industry and in certain construction-related consulting areas, including engineering. When SACOG conducts federal aid projects administered through Caltrans’ Division of Local Assistance, SACOG implements race conscious goals. Typically, however, SACOG conducts federal planning projects administered through Caltrans’ Division of Transportation Planning, which requires race-neutral reporting only.

1. "Other" includes those persons who do not identify themselves as members of the five racial/ethnic groups shown or decline to state.

2. 2010 Census - population by gender/age/race-ethnicity ages 15-74
WHEREAS, the Sacramento Area Council of Governments (SACOG) is the Metropolitan Planning Organization (MPO) for the Sacramento Metropolitan area and the Yuba City/Marysville Urbanized area, the Regional Transportation Planning Agency for Sacramento, Yolo, Yuba and Sutter counties, the Areawide Clearinghouse for the cities and counties that are signatories of the SACOG Joint Powers Agreement, the Airport Land Use Commission for the counties of Sacramento, Sutter, Yolo and Yuba and a Joint Powers Agency with the purposes and functions defined in the Joint Powers Agreement; and

WHEREAS, the SACOG staff has prepared an Overall Work Program (OWP) for fiscal year 2012-13 which has been reviewed by member agencies and Board committees; and

WHEREAS, the OWP has been reviewed by the Federal Highway Administration, the Federal Transit Administration, the California Department of Transportation, and stakeholders through a public review process; and

WHEREAS, such OWP becomes the basis for the SACOG’s activities and budget for fiscal year 2014-15; and

WHEREAS, 23 CFR 450.334 requires that the designated MPO certify each year that the planning process is being conducted in conformance with the applicable requirements,

NOW, THEREFORE, BE IT RESOLVED, that SACOG does hereby adopt and approve the fiscal year 2014-15 OWP and certifies that its planning process will be implemented through this document in accordance with:

2. Sections 174 and 176(c) and (d) of the Clean Air Act (42 U.S.C. 7504, 7506(c) and (d));

3. Title VI of the Civil Rights Act of 1964 and the Title VI assurance executed by each state under 23 U.S.C. 324 and 29 U.S.C. 794;

BE IT FURTHER RESOLVED:

1. That SACOG hereby authorizes submittal of the OWP for fiscal year 2014-15 to the various participating State and Federal agencies;

2. That SACOG pledges to pay or secure in cash or services, or both, the matching funds necessary for financial assistance;

3. That SACOG’s Executive Director is hereby designated and authorized to submit the OWP for fiscal year 2014-15 and to execute all necessary agreements and contracts on behalf of SACOG to implement the purposes of this resolution; and

4. That the Executive Director is hereby authorized to make and submit to the appropriate funding agencies necessary work program and budget modifications to the OWP based upon actual available funds, and to draw funds as necessary on a letter of credit or other requisition basis.

5. That the Executive Director is hereby authorized to make budget adjustments within the Overall Work Program Element accounts.

PASSED AND ADOPTED, this 29th day of May 2014, by the following vote of the Board of Directors:

AYES: Directors Ashby, Buckland, Cabaldon, Cleveland, Crews, Griego, Hagen, Hanley, Hesch, Hodges, Joiner, Krovoza, MacGlashan, Miklos, Peters, Rohan, Sander, Serna, Slowey, Stallard, Veerkamp, Wheeler, Yuill, Vice-Chair Saylor, and Chair Cohn

WHAT WE DO
The Sacramento Area Council of Governments (SACOG) is an association of Sacramento Valley governments formed from the six regional counties—El Dorado, Placer, Sacramento, Sutter, Yolo and Yuba—and 22 member cities. SACOG’s directors are chosen from the elected boards of its member governments. SACOG’s primary charge is to provide regional transportation planning and funding, as well as a forum for the study and resolution of regional issues. In this role, SACOG prepares the region’s long-range transportation plan; approves distribution of affordable housing around the region; keeps a region-wide database for its own and local agency use; helps counties and cities use federal transportation funds in a timely way; assists in planning for transit, bicycle networks, clean air and airport land uses; and has completed the Blueprint Project which links transportation and land development more closely.
