

## Draft Economic Prosperity Goals

### Business

1. Increase job access and grow advanced industry jobs
2. Target traded sector job creation, including in the food/agriculture and health/life science clusters
3. Support business startups and scaling that advance innovation, university technology transfer, and business dynamism

### People

4. Improve access to necessary education and in-demand occupational skills, and making digital skills a shared workforce development priority
5. Foster equitable wealth creation by leveraging workers and entrepreneurs from all backgrounds
6. Reduce disparities and vulnerabilities for people and families through increased access to opportunity

### Place

7. Invest in infrastructure that supports economic prosperity
8. Maintain competitive cost of living through housing and transportation affordability and diversity
9. Support complete communities with place-making assets and next-generation transportation options
