Background

Assembly Bill 118 (Núñez, Chapter 750, Statutes of 2007), created the Clean Transportation Program (formerly known as the Alternative and Renewable Fuels and Vehicle Technology Program). The statute authorizes the CEC to develop and deploy alternative and renewable fuels and advanced transportation technologies to help attain the state’s climate change goals. Assembly Bill 8 (Perea, Chapter 401, Statutes of 2013) reauthorized the funding program through January 1, 2024.

As of July 2019, the CEC has invested nearly \$94.9 million through the Clean Transportation Program for over 9,600 charging connectors at public and private sites in California. To provide more focused plug-in electric vehicle (PEV) infrastructure projects that will target more specific projects and gaps in charging availability, the CEC issued Grant Funding Opportunity-16-603 to seek a block grant recipient to design and implement up to \$200 million in grant funds through various PEV charger incentive projects throughout California. The Center for Sustainable Energy was selected through a competitive process to implement CALeVIP.

CALeVIP is a project with an online interface that allows individuals who are interested in installing electric vehicle chargers to easily access resources, connect with companies that sell or install chargers, and apply for rebate funding via a simplified and streamlined process.

To date, CALeVIP has four active incentive projects that provide \$51 million in rebate funding for Level 2 and DC fast chargers. Two additional incentive projects will launch in 2019.

Incentive Project	Launch Date	Counties	Funding	Technologies
Fresno County	December 2017	Fresno	\$4 million	Level 2
Southern California	August 2018	Los Angeles Orange Riverside San Bernardino	\$29 million	DC fast chargers
Sacramento	April 2019	Sacramento	\$14 million	Level 2 & DC fast chargers
Northern California	May 2019	Shasta Humboldt Tehama	\$4 million	Level 2 & DC fast chargers
Central Coast	October 2019	Monterey Santa Cruz San Benito	\$6 million	Level 2 & DC fast chargers
San Joaquin Valley	December 2019	San Joaquin Kern Fresno	\$14 million	Level 2 & DC fast chargers
