**FTA FY 2020 SECTION 5307 OPERATING ASSISTANCE SPECIAL RULE
OPERATOR CAPS FOR URBANIZED AREAS OVER 200,000 IN POPULATION**

The total available for operating assistance is based on FY 2018 NTD Data and the Section 5307 funding shown in FTA Apportionment Table #3.

NOTES:

1. Agencies that are included in this table AND that are eligible for grants under the Section 5307 Urbanized Area Formula Program are eligible to receive operating assistance under the provisions of 5307(a)(2)(A), subject to local allocation, up to the amounts specified in column "H" in Fiscal Year 2020.
2. Beginning in FY17, agencies may alternatively use program funds up to the amount shown in column "I" for operating assistance under 5307(a)(2)(B), provided that this amount is no greater than 50 or 75 percent of the total amount allocated to them for eligible projects through the local planning process, consistent with the eligible percent factor shown in column "G".
3. This list **does NOT indicate** an agency's eligibility or entitlement for funding and does not represent an allocation of funding under the Urbanized Area Formula Program or any other FTA program.
4. Public agencies that operate fixed route bus service and demand response service, excluding complementary ADA service, are permitted to use this provision in their Urbanized Area Formula Program grants.
5. Certain transit operators that reported to NTD in a consolidated (multi-agency) report are included based on a vehicle revenue hour share proportional to the number of vehicles reported in maximum service.
6. Transit operators may receive a cap for each urbanized area in which they operate and report transit service.
7. Agencies that contract for public transportation service from a private operator, and which otherwise qualify for an operating cap under this provision, have been credited with the vehicle revenue hours reported by the private provider as attributable to the public agency.

Urbanized Area of Service Provided	Public Transportation System Operator	Vehicles Operated in Peak Fixed Route and Demand Response Service	Apportionment to Urbanized Area	Percent of Apportionment Attributable to Operator based on Vehicle Revenue Hours	Eligible Percent Factor Category	FY 2020 Maximum Amount of Section 5307 Operating Assistance Allowed	FY 2020 Maximum Amount of Section 5307 Operating Assistance Allowed 5307(a)(2)(B)
Sacramento, CA	City of Elk Grove	45	\$ 27,435,211	5.367%	75%	\$ 1,104,375	\$ 1,214,812
