Contractor is a fully integrated Petroleum Distributor and will be purchasing all of the fuel required for delivery to Participating Agencies from various fuel suppliers and using Contractor's fleet of delivery trucks to make deliveries.

2. Each of the following public agencies may become "Participating Agencies" under this Agreement upon negotiation, execution and delivery of a sub-agreement with Contractor substantially in the form of Exhibit "G" attached hereto:

County of Butte
County of Placer
Nevada Irrigation District
City of Rocklin
City of Folsom
City of Galt

University of California at Davis
City of Yuba City

County of Sacramento
Town of Truckee
Placer County Water Agency
City of Roseville
City of Sacramento

3. Contractor shall, in good faith, negotiate, execute and deliver a sub-agreement with each of the public agencies listed in Section 1, above, substantially in the form of Exhibit "G" attached hereto. SACOG shall not be responsible for any Participating Agency's failure to execute a sub-agreement, or for the breach of any sub-agreement by a Participating Agency. Public agencies other than the Participating Agencies listed above may join this Agreement only upon prior written approval by SACOG and the Contractor. Following such approval, such public agencies shall be "Participating Agencies" for all purposes of this Agreement.

4. a. On or before the 15th day of the first month of each calendar quarter (i.e., January 15, March 15, July 15 and October 15), Contractor shall deliver to SACOG a written report of all fuels and lubricants delivered to the Participating Agencies during the preceding calendar quarter. The report shall include the following information for each Participating Agency: (1)
quantities purchased of each product type, (2) the administrative fee for each product type, (3) the total amount invoiced for each product type, (4) a total of the administrative fee for all product types, and (5) a total of the amount invoiced for all product types. The summary report shall also include an executive summary listing: (1) the total administrative fee due to SACOG for the quarter, (2) the total amount invoiced for all Participating Agencies using this Agreement, (3) a list of all active Participating Agencies, and (4) indication of any Participating Agencies joining or leaving this Agreement.

b. Concurrently with the delivery of the quarterly report, Contractor shall pay an administrative fee to SACOG in the amount of $0.0065 for each gallon (or gallon equivalent) of fuels and lubricants delivered during the prior calendar quarter. Payment shall be made on the basis of actual deliveries without any withholding for late payment by a Participating Agency.

**Contractor’s Scope of Work**

**Bulk Fuel Distribution**

5. Contractor will deliver fuel and lubricants, and provide other services as specified below, to Participating Agencies without causing them to change the way they function or adding any additional expenses to their operating budgets. These services are included in the fees included within this contract. Fees for delivered fuel and lubricants will be assessed to the Participating Agencies at the rates set forth in Exhibit "B," attached hereto.

a. Contractor will assign a customer service representative to each Participating Agency who will visit all the locations to verify tank sizes, physical tank locations, best traffic routes and physically stick each of the fuel tanks to get an initial inventory level so that Contractor can begin to monitor fuel usage and create deliveries when product is needed.

b. Contractor’s dispatch will also use its tracking method to gauge when fuel is needed based on daily usage.

c. Dispatch will monitor the fuel market and advise the Participating Agencies on when to purchase fuel based on potential market increases and when to hold off from purchasing when prices are dropping.

d. Contractor will maintain accurate inventory totals based on daily consumption and tank stick readings.

e. Contractor will also put each location on a “keep full” route where, based on the daily fuel consumption, Contractor will deliver to all of the tankwagon delivery locations weekly or more often based on when fuel is needed.

f. Since each delivery location will be on a “keep full” route Contractor will ensure that fuel is delivered to each as part of a weekly routine so that even if one of the
locations had a light week of fuel consumption it will still be serviced so that it does not
fall out of its normal routine. A lot of times daily or weekly consumption might change
for some reason so by all tanks being delivered to on a routine basis there won't be any
issues of a location being low on inventory.

g. Contractor will also utilize the existing Tank monitoring systems that several
agencies currently have where Contractor will be able to set the system to fax or email
inventory levels on a daily basis to Contractor's dispatch so that Contractor can monitor
fuel levels remotely for locations that are high volume sites.

h. For all high volume sites and sites that have inconsistent usages such as those in
the "Snow" country, Contractor will call them on a daily basis to see what potential needs
they would have such as if a storm was coming. As used in this paragraph, "high-volume
sites" means those sites that have an average daily usage in excess of 4,000 gallons.

Sacramento, Chico, Stockton or the Bay Area that is connected to the pipeline system
coming from the Bay Area Refineries. The fuel will be delivered to the ordering
location.

d. If the delivery is for a location where the Participating Agency is best served by
an outlying Contractor distribution facility, then the truck will load from that facility and
deliver the fuel to the ordering location.

e. The fuel truck will make the delivery and then a signed delivery ticket is brought
back to Contractor's headquarters for processing.

f. Invoice for fuel delivery will be generated and mailed to the Participating Agency
for payment.

g. If a Participating Agency's order is for Lubricants, then the delivery will originate
out of the closest Contractor distribution facility to that specific ordering location and
then the signed delivery ticket is sent back to Contractor's Headquarters for processing.

d. Contractor’s card lock invoices will include all of this information along with pricing, fueling location, departments and index codes.

e. Participating Agencies may access their respective card lock transactions on Contractor's web page daily for the previous day’s purchases.

f. At the request of any Participating Agency, Contractor’s software programmers will also write a program allowing the Participating Agency to log on to a specific web page and download cardlock transaction information in a format that the Participating Agency requires for its in-house Fleet Maintenance Software.

c. Contractor has trucks on the road 7 days a week so Contractor will always be able to respond to any issues.

d. Contractor has hundreds of thousands of gallons of fuel and lubricants on hand at anytime at all of their Distribution Facilities or Cardlocks so that if there are product outages at the terminals or the pipelines are down Contractor will still have product to deliver.
e. If power outages occur, Contractor will pull fuel from its own locations with its own power to ensure Participating Agencies still have fuel.

f. Contractor has the experience and contacts at Cal Trans to ensure that Contractor’s trucks can get through the highways even if roads are closed due to snow conditions and will still be able to make deliveries in emergency situations.
