

Sacramento Regional Preparedness Strategy: Project Overview

Presentation to:

*SACOG Transit
Coordinating Committee*

Presentation by:

*Tim Grose, WSP
Alex Ubiadas, WSP*

February 16, 2022

SACRAMENTO REGIONAL EMERGENCY PREPAREDNESS STRATEGY

Project Purpose

- Establish an emergency preparedness strategy for the SACOG region
- Compliment existing plans
- Focus on transit and transportation system's role in emergency management
- Facilitate interjurisdictional coordination

Draft Strategy Outline

Introduction and Purpose

Existing Plans and Conditions

Protecting Transportation Assets

Emergency Transportation Services (who needs evacuation assistance, role of transit in evacuation, etc.)

Transportation Network (evacuation routes, contra flow, closures)

Control and Coordination

Emergency Communications with Public

Implementing the Strategy (training, drills, roles, etc.)

Transit and Emergency Management Nexus

- Incidents and Events are going to occur
- Support the Whole Community's response needs
- Expertise and Capability for moving large amounts of the population effectively and efficiently
- Provide other localized expertise and assistance to first responders
- Directly affects building resilience in the region

Transit Operator Involvement

- Participate in working group with other transit operators and SACOG; will open up to include other stakeholders later in project (CalOES, county OESs, etc.)
- Provide information on existing conditions, arrangements, etc.
- Provide recommendations for/feedback on the Strategy
- Project ends March 2023

Next Steps

- Let Michael Rosson know who will be participating from your agency
- We will reach out within next week about first working group meeting; meeting will likely occur in early March
- We will send request for information relevant to the project

Thank you
