

SPRING 2018 PROJECT UPDATE

SACOG and the consultant team have been diligently working with stakeholders to compile comprehensive baseline conditions to establish a foundation for the overall effort. Now we are documenting existing traffic and ITS deployments, completing lifecycle technology evaluations, and preparing needs assessments for the region's stakeholders.

Contribute! Please complete a quick 5 minute survey to share with us your primary challenges and how we can best assist you.

www.surveymonkey.com/r/smartregionsacramento

With your contributions, we will better understand the region's existing conditions, key demands, and most pressing issues.

WHAT WE HAVE BEEN DOING:

- Started project in January with a Kick-Off Meeting on January 31st
- Completing data collection and creating existing inventories

WHAT'S COMING UP NEXT:

CONCEPT OF OPERATIONS WORKSHOP

Thursday,
May 31, 2018
@ SACOG

Who: All regional agencies, transit providers, emergency service providers, and stakeholders.

What: Interactive workshop to collaborate on regional operations using several event scenarios.

Why: To increase the level of operation, coordination, and performance outcomes in the region.

INDUSTRY ROUNDTABLE SUMMIT TBD

Who: TBD

What: Gathering of innovative technology vendors and strategic innovators actively pursuing opportunities to bring their equipment to the Sacramento Region.

Why: To identify potential candidates and constraints for a Pilot Demonstration Program.

ITS ARCHITECTURE WORKSHOP

Wednesday,
August 29, 2018
@ SACOG

Who: All regional agencies, transit providers, emergency service providers, and stakeholders.

What: Interactive workshop to discuss regional roles/responsibilities and ITS projects that will form the basis of the Architecture Update.

Why: To inform how the ITS Architecture should be used for planning and project development.
